Pass That Publicity Bill!

The legislature owes it to the state of Nebraska to enact the McKelvie Publicity Bill into law---and to do it now. It is one of the most important matters ever brought forward. It means more for Nebraska than words can tell. The appropriation asked for is ridiculously small compared with the results that will accrue to the state and to its people.

Gentlemen of the legislature, enact that bill into law. The best interests of the state demand it. The business interests want it. The agricultural interests will profit by it. Let us make Nebraska's wonderful opportunities and possibilities known to all the world.
