

GUS HYERS' VICTORY.

Havelock Hustler Shows 'Em Some Campaign Hustling.

Gus Hyers' splendid victory in the primaries is peculiarly pleasing to a strong element in political life. Being a member of organized labor Hyers had the support of union men, and this support, manifested so strongly in his own town, gave him a long lead. In addition to his union affiliations Hyers is a popular man, making friends wherever he goes, and always hustling.

When a man can poll 95 per cent of the votes cast in his home precinct, and make practically every democrat register as a republican in order to do it, there is grounds for the belief that such a man is mighty popular and worth trying to. That's what Gus Hyers accomplished in his home town of Havelock.

ED HOWE LEAVES.

Will Accept Foremanship of Daily in Oklahoma City.

J. E. Howe, foreman of the Daily Star ever since the establishment of that newspaper, resigned his position last week to accept a similar position on a daily newspaper in Oklahoma City. When he bade the Star composing force good bye the boys in that and other mechanical departments interrupted him long enough to present to him a handsome gold-headed umbrella.

Ed Howe is known to the printing fraternity throughout the length and breadth of the land. For years he was foreman of the Journal, and afterwards worked at the trade in Omaha. He knows the business from the ground up. He will associate himself with Col. Edgar, formerly owner of the Star, but now publishing a daily paper in Oklahoma City. The best wishes of a host of friends will go with Mr. and Mrs. Howe to their new home.

GIVES US A REST.

People Grow Weary of Eternal Wrangling About Walks.

If somebody would bash that "four-foot line" thing hard enough to prevent it ever appearing in the councilmanic ring again, that same one would have earned the plaudits of a weary people. That "four-foot line" seems to be about all the city council can think of, and about all in the way of municipal news that the daily papers can find to print.

As a matter of fact Lincoln's city council seems able to spend more time on fool details and less time accomplishing things worth while than any similar body anywhere within the confines of the republic. Every time that body meets that "four-foot line" thing comes up, whereupon the daily newspaper print columns of letters, columns of comment and columns of rot. In the meantime the water department goes to seed, the police force is inadequate, the park system starved, the transportation problem unsettled. Let a big problem worth solving confront the council, and it immediately adjourns or goes to sleep. But just mention that "four-foot line" thing and there's hades to pay and no pitch hot. Floods of ora-

tory are unloosed, pens are grasped, pints of ink wasted.

Wherefore we again say that plaudits and honors await him who will bash that "four-foot line" thing over the ropes.

Honor Above All.

Believe it to be the greatest of all infamies to prefer your existence to your honor, and for the sake of life to lose every inducement to live.—Juvenal.

Foolish Loiterers.
