NOT BUILDING THE TEMPLE

Methodist's Rebuke of Presbyterian Brother Who Was One of the Quiet Kind.

A Presbyterian minister who had very conservative ideas dropped in one night on a Methodist revival where an extraordinary amount of exhorting and shouting were going on. He sat down in a seat far toward the back, and though he felt in sympathy with the work going on he could not bring himself to engage in the same kind of vocal activity. Presently a Methodist brother named Smith went back and urged him to come up and join the rank of workers, but the conservative held back, exclaiming: "I am one of the quiet kind, you know, and don't believe in so much noise and hubbub; you must remember, Brother Smith, that in the building of the temple there was heard neither the sound of saw nor of hammer."

"Humph!" snorted Brother Smith, "we are not building temples here, we are just blasting rock. The Lord's going to look after the temple."

DIDN'T WANT HIM

Hilda—I should think that you would be lonesome without your husband down here with you.

Hulda—The idea! I'm never lonesome except when he is here.

HAVE FEW REPRESENTATIVES.

The final act of Portugal, disestablishing the Catholic church, reduces the diplomatic service of the Holy Roman See to the one important post at Vienna, the second-rate one at Brussels and the still less important one at Munich. Paris, Madrid, and now Lisbon are abolished, or practically so, although there remains at Madrid the semblance of diplomatic relations.

The Dollars That Work

The dollar that is working for you is better than the idle dollar. Deposit your savings with us and we'll put your dollars to work for you. And they'll work day and night.

We pay you 4 per cent interest on your deposits. A little bit saved every pay day and put to work for you, means a competence in old age. Idle dollars are useless. Competence is built on dollars saved plus what the saved dollars earn for you.

Come in and let us explain our system. It has been successful for more than a dozen years. Never a dollar lost to depositors—thousands paid to them.

THE TRAVELER'S COMFORT.

A slipper without a heel, which is so soft that it can be folded and put into a very small space, is a new invention designed for the traveler. We have had cretonne hats and coats, cretonne covers for the furniture, and now cretonne slippers are among the latest things. A woman was making a pair the other day without a pattern. She bought a pair of soles, such as are used for the crocheted slippers, put her foot on the floor, fitted the cretonne over the instep and the rest was easy. She bound the top of the slipper and sewed the lower edge to the sole. It will prove a great convenience for wear in the sleeper during the night journey.

ITS QUALITY.

"What about this new flytrap, yours?"
 "I think it is going to make things hum."
