break through and ache.

tine carefully removed, and the cavity well of apoplexy. The causes of urate o filled with gold. Such treatment will pre- soda are: First, alkaline water; second. serve the tooth or teeth from five to fifty excessive use of cake, pastry, strong years, according to the state of health and meats and strong drinks, with sedentary quality of tooth. Soft teeth may be filled habits, excessive mental toil, etc.

This form of caries is generally associ- America, too much sausage, mince pies ated with some dyspeptic symptoms, such cake and whisky. as furred tongue, headache over the eyes, The disease may be speedily cured by cold feet and hands, sometimes flatus in using pure, soft water, a light diet, vigorthe stomach and bowels. The liver is fre- ous exercise, and proper medicines to disquently congested, indicated by the tip of solve and eliminate the urate of the tongue being red like a strawberry, soda from the blood. The great numand sometimes sore. In chronic or organic bers we see on the streets with disease of the liver there is frequent pain stiff joints, hobbling along with canes, in the right shoulder, and back of the are in constant danger of apoplexy, or head, with soreness in the right side. Dys- sudden failure of the heart, or gravel peptic symptoms are of every grade.

NEBRASKA DYSPEPSIA east. The patient grows thin in flesh, pale and sallow, with gradual loss of great irregularity, bloating, and our uncomfortable fullness, gas, flatus, or wind the legislature comfortable fullness, gas, flatus, or wind in the bowels, great urgency to stool come on suddenly with forcible dejections with hin frothy fermentations, and much flatus, alternating with costiveness.

NEURALGIA At length the blood is reduced almost to milk and water; then comes neuralgia in the left side, in the face, feet, and hands, cramps in the muscles, most frequently in the lower extremities. There is good reason for believing that man is not exempt from the diseases of chickens and hogs.

of dyspepsia and bowel complaints de-pends upon fungi in the bowels, stomach, and liver, which inhabit the mucus membranes, typho-malaria, and bad water. These diseases do not yield to the ordinary

THE REMEDIES.

We give medicine to destroy the fungi in the bowels, and our patients get well in 1m44

The teeth may be hardened by the use or phosphates. In severe cases of dyspepsiz there will be large quantities of white chalky deposits in the urine, the the waste. Dyspepsia is easily cured if and Drill. A fine line of Buggies, Road Wayou know how.

A RHEUMATIC TOOTH

center transversely showing black decay reaching the Dr. Miller, an American dentist, now practicing in Berlin, Prussia, who has made upwards of 300 experiments to determine the true pathology of carious teeth. The only remedy for such teeth is to destroy the pulp. The tooth paste should never be left in longer than forty-eight hours.

lest it go through the foramen of the root, and inflame or kill the periostum, and the tooth die and ulcerate.

The dead pulp should be removed, and the cavity temporarily filled with antiseptic filling until the tooth is well, two to three weeks, and then carefully fill to the apex of the root, and it will be saved for apex of the root, and it will be saved for several years if the patient is healthy and clear from crysipelas, scrofula, and other blood diseases. Otherwise it had better be blood diseases. Otherwise it had better be

THE RHEUMATIC DIATHESIS is indicated by black rings around the necks of the teeth. The sulphuric and iactic acids not only corrode the teeth, but turn any silver fillings black in a few days. turn any silver fillings black in a few days. These acids, and uric acid in the blood, are the causes of rheumatism. The liver and traction and no inflamation follows. kidneys do not perform their office well. and any excess in the use of strong meats, with exposure to cold and dampness, is sure to bring on a severe attack of rheumatism. C. W. MCCOY. The arine generally deposits a dark reddish or brown sediment. Rheumatism is easily eliminate the poisonous acids from the liminate the liminate the poisonous acids from the liminate the lim cured by the proper treatment, which is to eliminate the poisonous acids from the blood. The perspiration has a strong, sour smeli, as well as the breath. To prevent the formation of these acids, is to prevent a return of rheumatism, and save the teeth

from final destruction.

The above cut shows well the appearance of the teeth from inherited gout. Darkbrown grooves transverse around the necks of the teeth generally indicate the gouty diathesis. There is also a strong tendency to deposits of brown calculus on the teeth and in the kidneys.

in most of the Northwest, and causes host of stiff joints, asthma, apoplexy, and sudden deaths from heart disease. It would be safe to say that more than threefourths of the cases called rheumatism and

neuralgia are of gouty origin. Gout is a near kin to rheumatism, indicated first by dyscracia of the stomach, 'To preserve the teeth is of the utmost colicy pains, and flatulency in the bowels

> The urine deposits a pink or rose-colored DYSPEPTIC CAR- sediment on the vessel; if the patient is much debilitated, a white amorphous sediment will settle in the bottom of the star is vessel, indicating the amount of injury over a small done to the brain and nerves.

Below the fis- the mildest neuralgia to the severest sure is seen a fit of gout that renders the patient round white suddenly helpless, is an excess of urate spot of softened of soda in the blood. This deposits dentine, the size in the joints, heart, lungs and brain; of a duck shot, and in the kidneys, causing the approaching the sharpest and severest pains in the pulp, and yet region of its deposit. It makes many people think enlarged, distorted joints, and helpsuch fissures are less cripples.
