"REPUBLICANS ALIVE."

In the State Journal of Sept. 5, is an article of nearly a column and a half under the above caption. It is first an arraignment of the leaders of the people's movement, and, second, an attempted vindication of the past, present and, by implication, future of the republican party, from the stand-point of editor Gere.

Passing by all flings against the men whom the Journal assumes to be leaders in the reform movement, we quote:

Now, who constitute the republican party of the country? Who are the leaders? There are the same gentlemen who in congress and other places of public trust viloted he ship of state through the breakers of 1861-65 and were found worthy of their exalted trusts. Such are Blaine, Edmunds, Morrill, Sherman Washburn, Hamlin, Hale, Hoar, Davies, Cullom, Allison, Wilson, Evarts, Stewart, Stauford, Paddock, Sawyer, Rusk and hundreds of others who were prominent in the early history of the party and assisted in national and state councils in holding the government together through the trials and disasters of the civil war.

The there is the great host of brilliant soldiers who fought at the heads of divisions, brigades, regiments and companies or in the numbler place of the private through the four years of desperate struggle, and made for themselves an imperishable record for patriotism and courage. Such men as Haw-ley, Boutelle, Ingalls, Plumb, Thayer, Morrow, Manderson, Henderson, Foraker, Quay, Davis, Spooner, Fifer, Laws, and thousands of others who lead the republican cohorts today were a quarter of a ceptury ago receiv. ing their honorable discharge from the army that saved the country, and going home to assist in building up the country so badly wrecked in the war for the preservation of the union

The Journal then asks:

What is there in he records of these men who have something to show in return for the konors they have been politically awarded them, that entitle them to the abuse and cantumely of the "farmers" and "laborers'

The quotations and questions offer considerable food for reflection. First, there is no independent, nor no farmer or laborer, who impeaches the efforts the proud boast of nearly all the independents is that they too helped make the history of those years-that they too had part in the weary marches and

great depositors.

ment. It really surprised me to see the position you took. In our county down here the farmers are the most industrious sort of bank depositors. First, they deposit notes in the bank; then whenever there is anything to sell from the arm the money is deposited to lift the note. And again, nearly every fellow has a mortgage on his farm, and he semi-annually deposits enough to get a check to send off for interest. It just beats all, the deposits that are made; The State Fair, which was held in and all a fellow has to do to be con-Lincoln during the past week, was a vinced is to stand in a bank half a day grand success. Notwithstanding the and observe. Yes, Mr. Editor, we are
