

Suggestions for the Good of the People.

EDITOR ALLIANCE.—The independent members of the Nebraska legislature...

All committees should be made up of a majority of independents and of good positive men for chairmen.

In every case where the office should seek the man. The old party leaders realize that this is a case of life or death with them, and the pressure that will be brought to bear on the weak-kneed farmers...

The independent should keep constantly in their minds that the two old parties agree on one thing and that is that they propose to divide and scatter the independents.

They will try to keep the "fool farmers" busy on small matters. If there is an opportunity money will be used without stint.

At the present time Jay Gould seems to be the bull. His command has gone forth to tax the people of the great west a few cents more per bushel on the grain they raise.

Unequal Taxation. Mr. Editor.—I am not a subscriber to ALLIANCE, but heartily endorse its independence...

Many of our legislators-elect are inexperienced in law making, consequently need all the help and encouragement their constituents can give them.

There is no feature of our present system more universally complained of than unequal taxation.

The present rule of assessing property at about one third of its real value, whatever that may be, is not only so doing, is wrong, and does great injustice to the poor.

Exempt \$200 from taxation by deducting that amount from each taxpayer's assessment.
