## The Rosewater Business Man's Scheme in its True Light.

Some Other Dark Places L'luminated. ODELL, NEB., Jan. 14.

ED. ALLIANCE: - Two things are plain to all people now. First, that the Bankers' and Business Men's association had but one object in view, and that object was to elect a governor who that object was to elect a governor who could be depended upon to veto any measures that might be passed by the Independents; and their cry of anti-prohibition was only to unite for such a man all the vote that would be polled against it. They knew that all the slum of the cities could be relied upon, and that a majority of the foreign vote would be easily persuaded; that in the event of prohibition passing they could, if Boyd was elected, stave off by the veto any legislation for its enforcement; and further, in the event of its defeat that any statutory legislation would re-ceive his veto, and the business men and han ters would be safe from any legislaban'ters would be safe from any legisla-tiou in the interest of the masses. This is so plain that he who runs may read. by Blaine County Alliance, Jan is so plain that he who runs may read. Prohibition to them was a secondary consideration. It is patent to all, for by their acts in organizing the house and senate they have shown their hand. I was not in favor of the amendment, and am not writing to ad i to that ele-ment, but to show if I can to those that are friends of good government, to

Where does it go? Have the boards of trade corralled it in order to make a big boom in the spring, and in the meantime compel people to pull the meantime compel people to pull through or die, as they please. Unfortu-nately all localities what I term spotters men whose dirty duty is to misrep ters-men whose dirty duty is to misrep-resent facts. If this great provision spoken of by men of note and published all over by every method would take a tangible and visible form at the present time, it would bespeak volumes for the wisdom and humane policy that comes to a peo-ple when unable to help themselves. proclivities I take the liberty of address-ing a few lines to you. I have tried to be, in the past, inde-pendent, but it has proved of no avail. I voted for men that I supposed to be all right, but they were all wrong, as they allowed themselves to be controlled by the trusts and rings. I went to the polls on the 4th of last November with sev-eral of my republican friends with the determination of voting the independ-ent ticket but several of those republi-cans weakened, being persuaded of the theory that a vote for Powers would only be a vote for Boyd. I stuck to my text.

Now, Mr. Editor, we want good honest, straight legislation. I understand that in the west they want to be robbed more and don't want the interest laws nade any better.

We want better laws as regards money matters, and better regulation as regards our election system. We want a free ballot and a fair count, and want We want the man that is a citizen of this country and was elected square and honest to have his seat.

EARL, Frontier county, Neb. EDITOR ALLIANCE:

At a public meeting of distressed farmers held here, myself and Mr. Bailey were chosen to present their con-dition to the public, and on Christmas riving in the rich and wealthy city of zeal is just as great for the success of Cheyenne on the 28th, where our ex-perience with worldly charity began. It did not take us long to learn that our authorities had already taken all so-called proper steps to confine all efforts to the jurisdiction of the charitable commission of our state, which fact we learned from Senator Carey of Wyo-ming and other noted men with whom ming and other noted men with whom we talked. In substance, Senator Carey said: "Why, Nebraska is very rich in agriculture; a half million dol-lars expended by your legislature would in comparison to the iars expended by your legislature would be a small sum in comparison to the benefit derived, by making your people self-sustaining. You had a good crop last year but you allowed a lot of ras-cals to rob you of it. Why, we don't lend money at such fearful rates as they do in Nebraska. Such interest as you allow would ruin any people. Eight per cent is all we charge in a new state. Why, on my way home from Washing-ton I talked with your senator, Mr. Dorsey, and he told me your governor had made ample provision to meet all cases of want; your state is rich enough to do it and they should do it. You should go before your legislature and present the condition of your people,

the laboring classes of the two coun-tries against each other for the purpose of killing off a good share, thus insurof killing off a good share, thus insuf-ing their power. I suppose they think it would be a repitition of the fight be-tween the Kilkenny cats; the finale would be nothing left but tails.
