pay expenses of state officers' contest. In this bill a fee of \$300 was allowed to the attorneys of each of the contestants and contestees for state executive officers, and the balance to the stenographers and notaries. Boyd vetoes all allowance for attorney fees to the independent candidates except Mr. Powers, and to himself. He states in his message of disapproval that there was no ground for the contest against the republican officers-elect, but silently admits that his own seat is covered with a cloud, and consequently allows Mr. Powers' attorney fees for trying to recover what justly belongs to him.

A POLITICAL LAND SLIDE

THE RING-BOODLE CANDIDATE FOR MAYOR GETS LEFT.

The Independent Citizens Ticket Elected.

In the face of the most thorough organization of the railroad boodle ring, with Si Alexander as its candidate, in spite of the most liberal use of money, promises and plunder, the independent citizens' ticket has achieved a signal victory. The people's candidate for mayor, A. H. Weir, is undoubtedly elected by from 100 to 300 majority.

A month ago this result was deemed impossible. The boodle ring was so strongly entrenched in the possession of the offices, the contracts and every avenue of city political employment, and was so sure of substantial aid from the railroads and other corporations, that its defeat was deemed impossible. But some citizens who cared more for honesty in city government and respectability and integrity in city officials than they did for party supremacy or boodle, quietly organized for the purpose of unity all the factions opposed to the boodlers on the reform ticket. This effort was only partially successful, but has resulted in the election of a people's mayor, and the defeat of four or five of the ring councilmen.

John H. Ames was put up as democratic candidate for mayor, as a stool pigeon to elect Alexander, but the game did not win through undoubtably the Ames vote of about 800 largely if unfinished Weir's majority. The great democratic party—"great only in that strange spell, a name—turns republican in the legislature and puts a stool pigeon to the election of the rail road ring-boodle candidate for mayor of the city of Lincoln. For it is a fact that every democrat, with even a scintilla of common sense, knew that John H. Ames had not a shadow of a chance for an election.

McCormick Harvesting Machines.

105,468 Were Sold in 1890.

125,000 Are being Made for 1891.

Ask our agent at the town where you reside for pamphlet fully explaining all of our machines, also describing and illustrating the process of manufacturing our superior quality of BINDING TWINE, and explaining why the best is always the CHEAPEST, and if he cannot furnish one you can get one by writing to R. BI-FORD, General Agent, Lincoln, Nebraska.

THE McCORMICK is the only Machine that never has to stand still during the rush of harvest for the agent to get repairs.

The attention of farmers and all others interested are invited to inspect a full line of the McCormick goods, including Binders, Mowers and Reapers. Also all grades of binding twine from the cheapest to the best pure manilla.

For sale at the companies headquarters, R. BINFORD, Gen. Agt.

BINDER TWINE.

Last year we issued a circular that opened up the subject as it had never been before. For years the manufacturers had been using a cheaper fiber, mixing it with Manilla and Sisal, appropriating the difference in price to themselves. The result of "Nosing Around" was we learned this, demanded the difference, and at once shared it with our patrons, in the quotations of "alleged" Manilla and Sisal in our celebrated circular letter of May 12, 1890.

This year there is a quarrel among the manufacturers, and we are standing by ready to take advantage of it. We learn that the substitution is being carried still further, a method of bleaching having been found, and twine is being made calculated to "deceive even the elect." By this mixing and coloring dealers will be able to make all sorts of quotations.

Our friends as always can depend on us, and as soon as we think the bottom is reached we will quote prices.

Judging from information already obtained, will be about 25 per cent lower than last year.
