Harvesting Machinery.
 R. Binford will sell the McCormick Harvesting Machines in Lincoln this year. He tells us that the McCormick Co. are obliged to make at the rate of one complete machine every minute of the day in order to supply their world wide demand—the McCormick being almost as well known on the steppes of Russia, the plains of the Danube and in the winter harvests of the southern hemisphere—Australia, South Africa and South America—as it is here.
 Mr. Binford also showed us a *fac simile* of the Gold Staats Medaille which the McCormick "Machine of Steel" won at the great Universal Exposition trials held at Vienna last summer.
 The McCormick Catalogue, which, by the way, he keeps for gratuitous distribution, is a work of art and will repay careful reading, while the lithographic poster of the historic battle of the Monitor and Merrimac is the finest thing we have ever seen published. When we take into consideration the fact that the McCormick Co. sold 105,468 machines in 1890, the popularity of the harvesters and mowers and the capacity of their mammoth works affords an interesting subject for contemplation. 1w43

THE VETO AND THE DEMOCRATIC PARTY.
 Boyd, a poor corporate tool elevated illegally to temporary power, became sufficiently strong to pull what remained of the democratic party in Nebraska into ruins. There is now no democratic party in Nebraska. There is a tool of the corporations who parades as a democratic governor, there is the whiskey city of Omaha, permeated and honeycombed and controlled by corporate power, and there is the balance of the state set firmly against it. Democrats of life-long standing have come to us since the veto and assured us that their future political lot was cast with the Independents. Good-bye, democratic party—good-bye, Jimmy Boyd.

SENATOR KIEFER AND REPRESENTATIVE MOAN.
 The above named gentlemen were democrats, but saw the tendency of events and realized the needs as well as the dangers of their party. They voted with the independents on all important measures.

Look over the advertisement of Ed. G. Yates in this issue. Mr. Yates carries one of the largest exclusive stocks of boots and shoes in the state and has a line of \$2.50 and \$3.00 shoes, that are absolutely without peers for service and workmanship. Mr. Yates quit the farm in '78 and engaged in the boot and shoe business in this city, country and state trade. Honest dealing, small profits and reliable goods have won for him both reputation and good fortune.

A New Store For The People.
 Martin Bahlig recently from St. Paul, Minn., has opened an immense 25 cent store at 1124 O street. The stock is the largest of the kind in the city, and comprises novelties of every description in queensware, glassware, hardware, tinware, woodware, dry goods, etc. From 5 cents to a quarter are the prices—nothing higher than a quarter. Don't fail to visit the establishment and inspect the stock. A genuine surprise awaits you.
Never Injures Stock.
 Stock is never injured when enclosed by a picket and wire fence. The Garrett Fence Machine that this fence is made by, is in successful operation in every State and Territory in the U. S. and seems to be a universal favorite. Address S. H. Garrett, Mansfield, Ohio, for catalogue giving full description of machine and wholesale prices of wire, pickets, &c. which he sells at wholesale prices direct to farmers.
