### POETRY.

Baccarat.  
The Prince said: "I'll be a banker."  
And then he wank a wink,  
As with Old Lady Wilson did  
An abominable cocktail drink.  
He stroked his royal stomach,  
Pulled down his princely vest,  
"O drop your sovereign in the slot,  
And I will do the rest.  
For I'm a randy dandy  
Of the William Rufus line,  
Gambling and boozing I  
Have got down very fine,  
I only race and gamble  
With the loftiest of the left,  
O, let us make it lively while  
We stay at Tranby Croft."

The Prince he was the banker,  
He gave the cards a flip;  
He said: "Now this is business,  
It's hullo and not lip,  
The more you put up here, my friends,  
The less you will rake down;  
I'm bound to break this party  
If I have to risk the crown.  
O, yellow is the water here,  
The Yellow Paint creek flows,  
O, yellow are the sovereigns  
As tuppence chips as those,  
These chips I carry with me,  
I use them oft and oft,  
For I'm a randy dandy  
Of the William Rufus line,  
The cream of Tranby Croft."

The Prince he was the banker,  
So diligently dole,  
But Gordon-Cumming won the cash,  
And not a smile he smole,  
And then said Gordon-Cumming,  
"Your luck I do deplore,  
If you stay here with me all night  
You'll owe eight millions more."  
O! always let his highness win,  
To beat his game was rash;  
To win the Prince's cash,  
You've won the Prince's good, hard stuff,  
And some one's gone and "roughed,"  
And called the world's attention  
To affairs at Tranby Croft.

Victoria, Victoria!  
May you be long on earth:  
America sends tribute to  
Your greatness and your worth.  
Ob, make your will, Victoria,  
And will the English throne  
Back to the English people,  
And let your Wales alone,  
The people they can rule themselves,  
And then it will be fine  
To have a noble sovereign  
End up a royal line,  
And Wales will like it just as well,  
The snip will be so sort,  
He won't have anything to do  
But stay at Tranby Croft.

### THE RAILWAY WORLD

#### Threatened Passenger Rate War Likely to Be Settled.

#### ALTON WILL AVOID TROUBLE

Burlington Preparations for Building the Alton Bridge—The Toledo and Chicago Bee Line—Rates for the World's Exposition.

CHICAGO, July 14.—The Chicago and Alton road has no intention of inaugurating a rate war, but after the meeting of the managers regarded itself as free and independent line, ruled out of the Western Passenger association and at liberty to adopt any measures that may be required to preserve equality with its competitors without waiting to consult anybody.

The Alton management gave it out that they are determined to avoid trouble as long as the associated lines evince the same disposition and will not take the initiative in any step likely to bring about a demoralization of passenger rates. The Alton people also say that if they are forced into a fight they will endeavor to make a vigorous one. Should the other western roads proceed to make reduced excursion rates from competitive points in the territory into which the Alton cannot reach on account of the boycott, the latter will immediately protect itself by a reduction in local rates.

Chairman Finley has called a special meeting of the Western Passenger association for next Thursday to pass upon matters that were postponed at their regular meeting. Trouble is looked for at this meeting. The Rock Island and the Chicago, St. Paul and Kansas City roads, which have defended the Alton's position, then will, it is surmised, refuse to bind themselves to any agreement that will place them at a disadvantage as competitors of the Alton. A disruption of the association, it is said, may yet ensue unless the Alton is taken back into the fold.

The Toledo and Chicago Bee Line, GOSHES, Ind., July 14.—The promoters of the new Toledo and Chicago Bee line were here on their tour of inspection. The head of the enterprise says positively that the line will be built as rapidly as money and terms can do it. The contractor for the building of the road, Benjamin Reynolds, was with the party, and states that within sixty days he will have 2,000 teams on the road and that he will put the road through faster than any similar line had ever been constructed.

This will be the shortest line between Toledo and Chicago, and will afford an entrance for the Canadian Pacific, who will use it for a short line to Chicago.

Very little headway has been made in the movement to abolish unlimited tickets in the territory of the trunk lines of the Central Traffic association and Western Passenger association. The resolution adopted by the roads east of Chicago to abolish such tickets May 1 was never really put into effect on all interested lines, and now the scheme has received a setback that will probably kill it entirely. Those roads having connection with what is known as the Buffalo agreement have repudiated the movement and declare their intention to continue doing business on the old plan.

Rates for the World's Fair. CHICAGO, July 14.—Traffic Manager Jay Cox of the world's Columbian exposition, who has just returned from New York, says the steamship companies show a decided disposition to do everything in their power to secure reasonable rates from European points to the Atlantic seaboard, and will hold a meeting this week to discuss the matter and by joint action refer it to the European managers for their action.

Bringing the Mississippi. ALTON, Ill., July 14.—During this week the pneumatic machinery to be used in constructing the Burlington bridge over the Mississippi at this point will be brought here. The delay in commencing operations was due to the fact that the plans as amended had not been approved by the secretary of war. His approval was secured about the last of June. The time set for the completion of the bridge is June, 1893.

### FINANCIAL SITUATION.

#### Shipment of Money West to Help Harvest the Crop.

NEW YORK, July 14.—The Tribune says: The weekly bank statement indicated an unexpected movement of money to the west. The first shipment rendered necessary by the harvesting of the crop was made last week. It is impossible to predict the extent of the movement or its effect upon the local money market. On the hypothesis that the 4½ cent bonds will result in increasing the national bank circulation by \$15,000,000, the money market will be strengthened by the 1st of October by from \$10,000,000 to \$30,000,000. Whether this will be sufficient to meet the requirements of the west for the movement of the abundant crops can be determined only by the event. Banks, as well as private capitalists, are fortifying themselves in every possible way and their action, which is conservative and prudent, may prevent the monetary crisis which they evidently fear. The exports of merchandise caused a fuller supply of commercial bills, which was reflected in lower rates for foreign exchange. At the end of the week the market was a little steadier, closing at \$4.85 and \$4.87 for long and short sterling bills respectively.

### MEETING OF TEACHERS.

National Council of Education in Session at Toronto—Large Number of Delegates in Attendance.

TORONTO, July 14.—At the morning session of the national council of education, George P. Brown of Chicago, editor of the Illinois School Journal, read the report of the committee on pedagogic, the subject being "The Education of the Will."

The first nomination in the council of membership were made the election resulting as follows: U. S. Jones, Lincoln, Neb., re-elected; W. N. Hailman, La Porte, Ind., re-elected; Charles DeGarmo, Champaign, Ill., in place of Josiah L. Packard, who retired; and Nicholas Murray Butler, New York, in place of N. B. H. Dawson, who retired voluntarily.

The teachers' gathering is daily increasing in magnitude and to overwhelming proportions. New York and Pennsylvania, that were poorly represented here, have now about seven hundred delegates. Tennessee and Arkansas have sent 150 and 200 delegates respectively.

### DEPENDING ON UNCLE SAM.

The United States Will Furnish the Bread of All Europe.

WASHINGTON, July 14.—A report on the harvest prospects in France and throughout all Europe has been received at the state department from Commercial Agent Griffin at Limoges, France. The report shows that there will be a crop shortage, and in conclusion says that not only France, but all Europe is looking longingly to the wheat fields of the United States. Last year many hoped that South America would help supply the deficit, especially the Argentine Republic, but today no mention is made of those countries; all hope is built on the United States harvest. The fact, as a recently stated, is that the bread of Europe must come from America.

### To Restrict Appeals.

ALBANY, July 14.—Secretary L. B. Proctor, of the New York State Bar association, said that the action of Lawyer Haire in appealing the electrocution cases to the United States supreme court for what seemed to be purposes of delay only, would be called to the attention of the executive committee of the association, which meets here in a few days. He argued that the committee's action has already been outlined in the shape of a memorial asking congress to take such steps as will restrict appeals in such cases.

### National Editorial Association.

ST. PAUL, July 14.—Eight hundred members of the National Editorial association are in town. The delegates were met at the trains by a reception committee and escorted to the hotels in carriages. Most of the editors are accompanied by their wives. When the convention opened an address of welcome was delivered and President Stephens read his report. A recess was then taken for dinner. The delegates were given a ride through the city in carriages.

### Ohio Democrats.

CLEVELAND, July 14.—Campbell's opponents now practically concede his re-nomination, but there are hints of knifing at the polls next November. Lieutenant Governor Marquis will probably be renominated, but for the other six places on the ticket every county in the state has a candidate. Numerous conferences are in progress, and the prospects are for an extremely hot time in the convention.

### Blaine.

BAR HARBOR, July 14.—Secretary Blaine was out driving and did his own driving, as he has done several times of late. His physician said that he was improving rapidly, and within the last few days he has seemed to take a fresh hold on life and health. Those near the secretary are confident that he will return to Washington in the fall a well man.

### Stationary Engineers.

SYRACUSE, July 14.—The supreme council of the American Order of Stationary Engineers is holding a meeting here and will remain in session until Thursday. Delegates are present representing nearly every state in the Union. The council held a public meeting and Lieutenant Governor Jones was one of the speakers.

### Fear of County Seat Election.

BIRMINGHAM, Ala., July 14.—The fear that violence would occur during the Franklin county seat election proved to be unfounded. The election was one of the quietest ever held in this state. Russellville was selected as the county seat.

### FEAR AN UPRISING.

#### Indians of the White Earth Reservation Will Have Money or Blood.

#### CHIPPEWAS RIFE FOR A ROW

Troops May Be Necessary to Prevent an Outbreak—An Iowa Youth Shoots and Kills His Drunken Father—Killed by a Policeman.

WHITE EARTH, Minn., July 14.—The situation here is so serious that it is feared General Merritt will have to send two or three companies of the Third regiment to the White Earth reservation to prevent a riot and possible massacre. The Chippewas have been in a state of open revolt for several weeks. A delegation of Leech Lake Indians came here to confer, and soon after their arrival joined in a wild dance with the White Earth red men. The police became alarmed at the threatened outbreak, and to stop the dance tore down the hall in which the orgie of the savages was taking place. The Indians were highly incensed over the interference, and have been holding meetings with a view to getting revenge. The dissatisfaction of the Indians has resulted from the tardiness of the Chippewa commission in the matter of allotment of land and the non-payment by the government of several hundred thousand dollars damages, occasioned by big overflows in the construction of the Upper Mississippi reservoirs. A certain amount of cash per capita was promised the Indians, and the government's intention that it should be used to settle the debt in stock and agricultural implements has so incensed them that they are in a mood to commit almost any outrage. Chief White Cloud is the man going to prevent an outbreak, although he has written the interior department that his tribe will not submit to the payment of anything except money for their ruminant fields.

### A Four Hundred Sensation.

NEW YORK, July 14.—Mrs. Gertrude Rhinelander Waldo is about to bring suit against Colonel Charles H. Schiefelin for the sum of \$12,294, which she alleges she loaned the latter in various places, part of which was for the support of Colonel Schiefelin's children and the remainder for investment in stocks for her account. Both parties in the suit are prominent in society, being members of the Four Hundred. Mr. Schiefelin is of an old family and a member of many leading clubs, notably the Union. Mrs. Waldo is a Rhinelander and has been regarded as a particularly brilliant member of society.

### Asphyxiated on a Railroad.

Subpoenas will be served on the witnesses who were present at the execution at Sing Sing, and Warren Brown will be summoned.

### SEIZED A SMUGGLER.

#### Capture of a Vessel with Eighteen Chinese Men on Board.

OTTAWA, Ont., July 14.—The collector of customs at Victoria informs the department of the seizure of the sloop Flora of Seattle, Wash., for neglecting to report inward. A fine of \$400 was imposed. Two customs officers located the vessel in a sheltered cove a few miles from Victoria. There appeared to be no one on board the craft, which was lying some one hundred yards off the shore. The officers called out and a man appeared on deck and asked what was wanted. They commanded him to row ashore and compelled him to pull them out to the sloop, which they found to be a smuggler with a load of Chinese intended for the United States. There were ten Chinamen in the hold and six more on the shore ready to embark. The captain, who gave his name as Alfred Steierman, said that he was about to take eighteen Chinamen into the United States. He was given thirty days in which to pay the fine, at the end of which time if the fine is not paid the vessel will be confiscated and sold to the highest bidder.

BOONE, Ia., July 14.—Mrs. Lideen and Mrs. Gustafson were fatally burned by the explosion of a gasoline stove at Monmouth.

### THE FIRE RECORD.

#### Destructive Conflagration Raging at Montpelier—A Massachusetts Town Burning.

MONTREAL, July 14.—The greatest conflagration Montreal has experienced for years is now in progress. The fire originated about midnight in the lumber yard of Prefontaine, Broseus & Co. and spread with tremendous rapidity. Soon the entire square bounded by Popineau road, St. Catherine, Shaw and Kent streets was in flames which continued to spread. Hundreds of thousands of dollars worth of property is already consumed and it is impossible to forecast the extent of the losses. Never have the firemen had such experiences as this morning. The heat was so intense that the pipemen lay in the street directing the hose, while their comrades played water over them to save them from burning to death. The flames at one time threatened St. Bridget's and St. Luke's churches and the city's principal hospital, but a shift in the wind saved them. Had the latter structure caught fire the loss of life would probably have been heavy. All the houses from 135 to 147 Popineau road and 102 to 145 Shaw street are either destroyed or pitiful.

### Fire at Pittsfield.

PITTSFIELD, Mass., July 14.—Fire here caused a loss of \$10,000, and will likely do further damage. Burns' block and the American hotel are in great danger and the fire department is making little progress in checking the flames.

#### A Household Safe.

WINONA, Minn., July 14.—The sum of \$12,000 in bills was found in a piano stool among the effects of Lena Weimburg, the housekeeper of the old Huff house, who suicided two years ago. Eighteen months ago \$12,000 was found in some false bottom trunks. The stool was ingeniously fixed to hold money without suspicion. The find was made by the administrator. The belief is that the money was stolen, as she handles the funds of the hotel. Her heirs reside in Germany.

#### TRIED TO BRIBE THE CREWS.

Plan to Capture Chilean Government Cruisers Frustrated—Emperor William Starts for Scotland—The Manchester Ship Canal.

PARIS, July 14.—There was considerable excitement throughout Paris caused by the report that President Carnot had been shot. This rumor proved upon investigation to be untrue, but there was foundation for the report. The president was present at the ceremonies of the official opening of a thoroughfare, the Avenue de la Republique. Suddenly a man, wild-eyed and making insane gestures, forced his way through the crowd and brushed past the soldiers on duty about the spot where the ceremonies were taking place. This man walked up to the carriage in which the president had driven up to the new avenue and fired a pistol at M. Carnot. Just as he did so the man shouted, "I will see that there will be no more battles to be demolished."

He was 34 years old, born in London, and had for 24 years been associated with the Fowpaul troupe. Last August he had a similar accident at the Academy of Music, New York, falling from the dome and breaking two vertebrae chairs. His work was upon the horizontal bar in the center, Robert and James Hanlon doing the flying trapeze. Robert and James will remain with Fowpaul through the balance of the season. William left a wife, but had no children. Coroner Myers impounded a jury, who returned a verdict of accidental death, exonerating Manager Cooper from all blame.
