POETRY.

What I Live For.

I live for those who love me
And those I know are true;
For heaven that smiles above me,
And earth so fair to view;
For all human ties that bind me,
For the work that is assigned me,
For the hopes that still remind me
Of the good that I can do.

I live to learn their story,
Who've suffered for my sake,
To emulate their glory,
And follow in their wake;
Bards, martyrs, patriots, sages,
The noble of all ages,
Whose deeds crown history's pages
And Time's great volume make.

I live to halt that season
By gifted minds foretold,
When man shall live by reason,
And not alone for gold—
When man to man united,
And every wrong thing righted,
The whole world shall be lighted
With love and joy untold.

I live to hold communion
With all that's good and true,
To feel there is a union
In all we have to do—
To profit by affliction,
Grow wiser from conviction,
Reap truth from contradiction,
And keep the right in view.

I live for those who love me,
And those I know are true,
For heaven that smiles above me
And earth so fair to view;
For the cause that lacks assistance,
For the wrongs that need resistance,
For the future in the distance,
And the good that I can do.

A TERRIFIC EXPLOSION.

Four People Killed and Several Injured at Hayward, Wis.

CAUGHT IN THE FLAMES.

Men and Horses Suffocated in a Deval Livery Stable—A Great Pile of Coal on Fire at Duluth—Fire at Philadelphia.

HAYWARD, Wis., Nov. 10.—Fire in the warehouse of the North American Lumber company at 1 o'clock a. m. soon communicated to a quantity of dynamite stored therein and a terrific explosion followed. Buildings in the vicinity were shattered, one man was killed outright and many persons wounded. A hotel close by was wrecked and many guests injured by flying glass and timbers. A caboose standing on the railroad track was literally blown to pieces. Among those injured are three who will die. They are Fred Nelson, skull fractured; John K. Vait, internally injured, and Span Davis, a boy. The others seriously hurt are D. McWilliams, hotel proprietor; Caleb Bial and J. H. Wade, a traveling man. The property loss is \$18,000.

Caught in the Flames.
DENVER, Nov. 9.—A terrible fire in which four men and twenty-four horses were suffocated, was discovered in the Mansion stables a few minutes past 3 o'clock in the morning. The dead are: Thomas Bowman, 22 years old, single, home in Peoria, Ill.; George Richards, aged 26, single, home at Lincoln, Neb.; David Elmore; Otto Helbin, St. Louis, Mo. They were sleeping in rooms over the office of the livery stable and were employed in the cable restaurant. There were four others sleeping in the place but all escaped with the exception of the four named above. The fire originated in the furthest closet on the second floor of the building, between two carriage rooms. The scenes about the burning building were horrifying as the smoke rolled through into the apartments where the horses were kept. Scouting danger, their cries of alarm were pitiful, and in their efforts to escape they clanked into their managers, kicked down their stalls and some managed to break away but fell dead in the gangway. The horses burned were the most valuable in the barn and their value is estimated at \$450 each.

George Richards was the only one of the four victims who was burned externally. His face was horribly burned and blackened and his hair was singed from his head. David Elmore managed to get out into the hall before he was overcome by the heat and smoke and as the firemen were peering through the smoke and heat searching for any spark of fire that had escaped their notice, one of them stumbled over the body, which was the first notification the firemen had that all had not escaped from the building before the flames gained headway. Penetrating further into the building the firemen found the bodies of Bowen, Richards and Helbin, piled one upon the other on the floor of their room.

A Great Pile of Coal on Fire.
DULUTH, Minn., Nov. 10.—The great pile of coal on the Northwestern fuel company's docks is still on fire, although water has been poured into the burning mass at the rate of 18,000 gallons a minute since last Friday. Some sixty men are wheeling away coal from the pile so that the firemen can reach the hottest part of the blaze. The fuel company has asked the Minneapolis fire department for an engine. If the air reaches the smoldering fire the whole mass, containing thousands of tons of coal, is liable to be destroyed. Some of the largest elevators lie near the coal docks, but it is believed they can be saved. The Duluth fire department is working in relays of six hours each. The cause of the fire is believed to be spontaneous combustion. The loss will reach into the hundreds of thousands of dollars.

FOUND HIS LONG LOST WIFE.

Strange Story of the Reuniting of Mr. and Mrs. Wilson.

WICHITA, Kan., Nov. 10.—After thirteen years separation and search, Arthur K. Wilson, a wealthy citizen of Morris, Minn., has discovered his lost wife in this city. The story is quite romantic. Fourteen years ago Wilson and Miss Mattie Andrews were married in Sioux City, Ia. After a year of wedlock Wilson suddenly disappeared from home. Mrs. Wilson went to Omaha, where she in 1885 procured a divorce and married a young business man named Fleming. Four years ago the couple moved to Missouri, but they had hardly reached there before Fleming was arrested for forgery, for which he is now serving a term in the Nebraska penitentiary. A couple of years ago a former acquaintance, who communicated with Wilson, recognized Mrs. Fleming here. Her first husband explains his disappearance from home satisfactorily to his ex-wife and Mrs. Fleming has agreed to procure a divorce and remarry Wilson.

The motive for the crime had been discovered and he felt confident that the murderer had been found.

Army Paymaster Robbed.
SAN ANTONIO, Tex., Nov. 10.—Paymaster Major C. C. Sniffin was robbed at Fort Clark of \$3,300. The money in sacks was placed in one of the cells of the guard house. As the doors were not tampered with it is supposed that a long pole with a hook at the end was thrust through the grated window and one of the sacks drawn up and rifled. Two discharged soldiers who left Fort Clark for San Antonio were suspected of the theft and one of them, John J. Sullivan, was arrested.

Learning of the Emancipation She Sues for Twenty-four Years' Wages.
KANSAS CITY, Nov. 10.—The court of appeals rendered a decision in the case of Eda Hickam, an old colored woman, against the estate of the late Joseph Hickam of Monticau county, Missouri. Eda was a slave on the farm of Hickam at the close of the war, but was never told that she had been freed, and for twenty-five years she worked on the farm, believing herself to be still the property of Hickam. After Hickam's death in 1889 the woman received the first indication that she was not a slave, and that she was illegally restrained of her liberty. She brought suit against the estate of her former master for \$1,400.85 for services for twenty-four years. Eda was awarded one-half of this amount, but on appeal to the circuit court the decision was reversed. Eda brought the case to the court of appeals and the court handed down a decision reversing the lower court's decision and remanding the case for trial.

BURLINGTON EXTENSION.

Grading Suddenly Commenced on a South Dakota Line.

AFTER THE OFFICIALS.

Leading Chicago Railroad Men Summoned to Appear Before the Interstate Commission—A New Denver Line—Canadian Pacific Meeting.

DEADWOOD, S. D., Nov. 10.—The Burlington railroad company has determined upon extending its line into Spearfish, sixteen miles northwest of Deadwood. The first authentic information that such a move was contemplated was received when a train of fifteen cars was pulled into Deadwood and began unloading a complete grading outfit. Teams and men were at once sent out on the surveyed line and have already commenced work. Fifty more car loads of men, wagons, teams and scrapers are now on their way in and due to reach the work within forty-eight hours. Kilpatrick Bros., who have the contract for grading, state that they will put 1,000 men on the work within the next two weeks.

The road will be a standard gauge branch, leaving the main track at Englewood, a station ten miles west of Deadwood, and will be run via Lead and Central. It will be about twenty-five miles long. The Elkhorn company will be pushed to follow this new road into Spearfish, and has already placed several corps of surveyors in the field between Central City and Spearfish.

The citizens of the three towns to be benefited by thus securing two standard gauge roads in addition to the two narrow gauge roads already terminating at Central City and Lead are jubilant. Property in Spearfish has rapidly increased in value in one day.

Another Line Westward from Denver.
DENVER, Nov. 10.—For some time a party of surveyors has been operating in the vicinity south and east of Boulder. It is believed that they are in the employ of the Great Northern, which recently obtained possession of the Pacific Shortline. Not long ago an agent went into Boulder county and other territory and redeemed all land property upon which the taxes remained unpaid. Since the redemption deeds were secured the matters of the company have been kept very quiet, but now it is ascertained that surveyors are out for the purpose of resurveying and keeping the territory being jumped by any other line. The proceedings are being watched by the Union Pacific and the Burlington and Missouri, so it is apparent that neither of these systems are doing the work. With the successful operations of this season by all the main lines it is not improbable that a road will be extended westward from Denver in another season, and then sharp competition in railroad building may be looked for.

East-Bound Rates.
CHICAGO, Nov. 10.—One result of the meeting of the trunk line presidents in New York will be the organization of the special east-bound rate committee which collapsed on account of the resignation of the chairman, George B. Reeve, traffic manager of the Chicago and Grand Trunk road. Mr. Reeve attended a New York meeting by invitation and consented again to become a member of the committee provided it was reorganized on a basis outlined by himself. The conditions presented by him are accepted by the presidents and the agreement was amended so as to give the various lines more latitude in the matter of avoiding competition and protecting their interests. Indeed, the pledge which each member of the committee must sign was so modified that the roads are left free to do pretty much as they please without compromising the personal honor of their representatives or committee.

Railroad Men Summoned.
CHICAGO, Nov. 10.—Five railroad men have been summoned to appear before the federal grand jury today to tell what they know concerning the infractions of the interstate commerce law in the manipulating of freight rates in favor of Swift & Co., the packers. The men are George B. Spriggs, general freight agent of the Nickel Plate; A. Fell, freight agent of the Lehigh Valley; N. N. Jarvis, manager of the Traders' Dispatch; M. L. Dougherty, manager of the Lehigh and Wabash Dispatch; and Chairman Blanchard, of the Central Traffic Association. Special Agent Kretschmer, of the interstate commission, says that there will be several indictments.

Demoralizing Rates Again.
KANSAS CITY, Nov. 10.—The Farmers Alliance meets in Indianapolis Nov. 16 and 17. The Western Passenger association has authorized one fare for the round trip over all lines in the association. This will be a big scalp on the rates from western points to Indianapolis by way of Chicago and St. Louis, and in order to prevent inequalities in rates occasioned by this scalp the Alton puts in a rate of one fare between Kansas City and Chicago and Kansas City and St. Louis.

Canadian Pacific Meeting.
MONTREAL, Nov. 10.—At the adjourned annual meeting of the shareholders of the Canadian Pacific railway company to consider the acquisition of the Calgary and Edmonton railways, it was found that the necessary unanimous assent of the bondholders of the latter company had not been assured, and further consideration of the matter was postponed until December 14.

WHEAT IN THE NORTHWEST.

Some Figures Showing the Amount Held in Elevators.

MINNEAPOLIS, Nov. 10.—Figures compiled by the Northwestern Miller show the stock of wheat in private elevators of Minneapolis to be 1,459,000 bushels, 47,000 bushels less than last Monday. The total stock at Minneapolis and Duluth is 9,800,669 bushels, a gain of 494,841 bushels for the week.

The Market Record reports the stock of wheat in country elevators of Minnesota and the Dakotas at 5,977,900 bushels, an increase of 726,400 bushels. This makes the aggregate stock in the northwest 15,823,569 bushels, a gain of 10,221,341 bushels. A year ago the stock was 16,498,000 bushels.

The Southern Exposition.
BALTIMORE, Nov. 10.—About five hundred men, the Fifth regiment, left for Raleigh. The regiment were escorted to Norfolk by the Eighth Virginia regiment and Light Artillery Blues. After a short parade in Portsmouth the command took a special train for Raleigh. The visit of Maryland's crack military organization will be the feature of the southern exposition now being held at Raleigh. Governor Jackson also left for Raleigh.

THE SUGAR BOUNTY.

Commissioner Wilson Reports Everything to Be Satisfactory in the South.

The Dominican Free List.
WASHINGTON, Nov. 10.—Deputy Internal Revenue Commissioner Wilson is back from the south. He went to Louisiana to see the sugar bounty regulations put in force. It was claimed some of the planters wanted the government to let them weigh the barrel staves and hoops as well as the sugar in putting in their claims for the bounty.

"That was not true," said Mr. Wilson. "The interest of the planters in seeing the law fairly and honestly carried out are identical with the interests of the government, and they have gone about the work in that spirit. There was some misunderstanding at first as to the operations of the law, but that was cleared up, and when I came away everything was working smoothly. I see no reason to change the opinion that the amount of bounty called for in the cane-growing region, which takes in part of Texas and Florida as well as Louisiana, will not exceed \$9,000,000."

San Francisco's Claims.

WASHINGTON, Nov. 10.—A special from Titusville, Fla., quotes Senator Quay as saying that San Francisco is too far off for the national convention. He added: "It is a long, weary ride to California and the people won't take kindly to it. But California would entertain the delegates as they have never been entertained before. She would, in fact, pay all the expenses going and returning, if need be, and a national convention there would have one advantage—a big one, too, in my estimation—it would be free from outside influences entirely. The heels and the henchmen and local powers in politics" would not be there. It would be too far to go, and too expensive, and the convention could easily express its own sentiments."

Maryland Democracy.

WASHINGTON, Nov. 10.—The announcement of Attorney General-elect Poe of Maryland to the effect that the Maryland Democracy would soon have a newspaper organ of its own, is said to have been thrown out in the nature of a feeler and that the idea is the outcome of a conference between ex-President Cleveland and Senator Gorman in New York, in which both gentlemen concurred in the propriety of the movement. Senator-elect Bruce is mentioned as one of the stockholders and this is taken as his approval of the same.

The Dominican Free List.

WASHINGTON, Nov. 10.—The department of state has just issued for the information of exporters a new edition of Dominican reciprocity arrangements, containing an alphabetical list of all articles of American product or manufacture entitled to free or favored admission into San Domingo.

Blow to Turkey.

CONSTANTINOPLE, Nov. 10.—News from Yemen is very discouraging to the Turkish cause. The rebels have made two assaults on the capital of the province in which the Turkish troops are surrounded, and the last time nearly with success. The sultan is said to be considering whether he will grant the demands of the insurgents, which amount substantially to home rule under a native prince and native judges under the suzerainty of the sultan, and a reduction of the enormous burden of taxation. From present indications, if the sultan does not yield something, he may lose everything in Arabia.

Troubles in Brazil.

LONDON, Nov. 10.—A special to the London Times from Rio Janeiro says there is trouble in the province of Rio Grande do Sul. The telegraph line is cut at Portalegre. The province of Rio Grande do Sul can place 50,000 German fighting men in the field. If Silveiro Martinez should be nominated for president he would possess great influence, and Fonseca, even with the bank of the republic to sustain him, would be powerless to crush that influence.

Chilian Elections.

LONDON, Nov. 10.—A dispatch from Paris to the London Times says Senator Matte, the Chilian minister, is convinced that Chili will not issue a loan. Senator Matte says the elections were orderly, twenty-one Liberal and thirty-eight Conservative deputies being chosen. The parties, meeting privately, had agreed to name Jorge Montt for president. The army would be reduced from 40,000 to 5,000 men.
