SPYING ON THE EMBASSY.

The American Legation Kept Under Surveillance by Police-Steamer Abysinia Burned at Sea-French Treaties Prolonged-Foreign News.

VALPARAISO, Dec. 22.-Minister Egan officially requested the Argentine minister. Senor Urriburra, to note the presence of Chilian police agents in the immediate vicinity of the American legation, as also the attempted arrest on last Saturday night of Mr. Frank Egan, the American minister's son. Senor Urriburra in his diplomatic capacity will call a meeting of the dozen or so foreign golden jubilee celebration in St. Louis,

Additional insult was offered the American minister in the case of one of applied for a release upon furnishing bonds to appear when wanted by the authorities. This was recently granted Balmaceda's minister of war, Senor Velasquez. The government replied that the refugee must first leave the American legation, surrender himself to the Chilian authorities and submit to imprisonment. The government, after he had done these things, would consider his request, and not before.

A FATAL LEAP.

Dr. E. B. Plumb Jumps from the Third Story of the Keeley Institute at Des Moines and Dies.

DES MOINES, Dec. 22.-Dr. E. Plumb of Ames died at Cottage hospital from injuries received by jumping from a third-story window of a block at Ninth and Walnut streets. He was about 35 years old and one of the most prominent physicians of Ames. The building from which he leaped is occupied by the Keeley institute for the cure of the liqnor habit. The doctor was a patient in June last, and was therefore on intimate terms with the managers. He came down from Ames, saying he was sick with the grip, overworked and wanted to stay a week.

He was granted permission and assigned a room in the third story. About 4 o'clock the occupants in the block across the street were startled by a crash of glass. Some of them looked out of eir windows and saw a man hanging their windows and saw a man nanging to the window ledge by his hands, with his feet pawing the wall. A few sec-onds after they saw him spring back-ward and fall to the pavement below. Such a shocking sight made the behold-ers dumb. One woman fainted, and two men were terribly sickened by the sight.

Governor Thayer's Appeal.

At Washington, D. C., last Saturday Secretary Rusk and Senator Paddock had a conference in reference to the introduction of corn into Europe and they reached the conclusion that it would be an excellent advertisement to send a train load of corn from Nebraska and Kansas to the starving inhabitants of Russia. It would call the attention of the world to the corn products of the United States and especially the capabilities in that direction of the two states producing the corn. It was agreed to recommend this plan Blodgett, of the United States district to the crtizens of the two states named court, who has held this judicial position and suggest that some of the cargo could be diverted from its route to Russia and turned into the various countries of Europe, where agents could properly introduce it for food consumption. This proposition of the secretary

and senator is in accord with what I have, with others, had under consider and consideration for these people in Russia who are now without the means of support. I appeal to the generous people of Nebraska to aid them and propose that we furnish a train load of food products from corn as a gift to the suffering people. This will not only be creditable to the people of this state, but it will bring to them a return which will prove of great material advantage. It will open the way for the introduction of our corn and the products resulting from it to the people of Europe. Secretary Rusk has lately said that in response to the necessary contributions will be made within the next ten days, when the train will be placed at the disposal of Secretary of Agriculture Park sioned its general use, and that now there is more of our corn used in Ireland than in all the rest of Europe. In order to adopt practical means of accomplishing this result I have requested Hon. L. P. Ludden, deputy commissioner of labor and industrial statistics, who acquired such a thorough knowledge of the best means of obtaining relief for our suffering people one year ago, to take chargo of this matter and enter into correspondence with the boards of trade of different cities and towns, county organizations, mills, etc., for the purpose of giving practical success to this proposition. All parties disposed to aid are respectfully requested to forthwith communicate with him and intimate what they will give in the matter of arrangements will be perfected for carrying this work for-

It is proposed that we furnish a train load of these food products, to be held subject to the direction of Secretary Busk as to their being forwarded to Europe.
