

THE GOAL - ROY SPEAKS.

Let them strike as soon as they like. To us 'tis a perfect boom. Merely high the prices fly in monopoly's big balloon. Though they stare by bits in the ink...

Good pay? Abund. Upon my word, What more can the men require? You speak of the poor - what they endure, Deprived of their bit of fire...

Old John Sherman. Senator Sherman has been in office continuously for thirty-eight years, and yet no scandal has ever attached to his name.

Oh Shucks! You know better than that. When he was secretary of the treasury you remember there was a big scandal about converting government property to his own use...

Do you forget that John Sherman began his career in congress a poor man, and on a salary of \$6,000 a year has become a multi-millionaire?

Do you know that there are millions of patriots in this country who loathe and despise the name of John Sherman and who are teaching their children to look upon him as one of the most despicable characters in American history?

Do you know that while the plutocratic press of the country in its subject servility to the money power, of which old John Sherman is the chief tool, will turn Sherman rules and indulge in mockish sympathy when the arch old traitor to American interests is gathered in by the devil, hundreds of reform papers will probably put up "roosters" and "dring cannons"...

John Sherman is the personification of villainy. He is to-day the best representative of Shylockism in all this land. If the treason of Benedict Arnold and Jeff Davis were compressed in one John Sherman would still outrank.

No scandal attached to his name? I did you say? For twenty years his career has been a continuous scandal, a reproach and a shame. His name has become a his and a by-word. He will go to his grave despised and dishonored.

Death and Dividends. Before the clouds had settled upon the dead bodies of the eleven victims of the recent slaughter on the Central railroad, the directors of that corporation assembled.

That slaughter was caused by the lack of a proper system of signaling. From the same cause within the past four years thirty-five persons have been killed and a ninety wounded on this road.

Surely the first action of the directors after this latest casualty was to order in at once the safest signals? Incredibly as it may seem, not so.

Robbers or ruffian flags in the hands of incompetent, heedless, underpaid men was passed by a train thundering toward destruction, but the dividends of the Central railroad cannot be passed. The "block" system is perfect in the directors' room.

And so the figures ran to the waiting cars: Net earnings for the last six months \$3,246,812; profit above first charges \$3,213,814; regular dividend 1 5/8 per cent special dividend for three months, 1 per cent.

The dividends were declared. The directors adjourned. And death was left waiting for the next "accident" made easy.

Are these gentlemen really waiting for public opinion to formulate in law the mandate: "But in the block system now?" - New York World.

THE CONTEST.

The Issue Lies Between the Man and the Dollar With a Trifling Second. In 1860 the dominant question was the man represented in the negro slave vs. the dollar represented in the property holder.

Face to the front and pass it down the line that by the help of God we are in the Alliance to stay till victory perchance upon our banner and the people get relief. Fraternally, J. H. TANNER, Sec'y N. F. A. and I. U.

Darkest California. Let us look once more at the "blessings" of the government in this state. Lately perpetrating on the poor and helpless. There is no exaggeration in my statements, as the records of the police courts will show.

From the National Secretary. Men often speak when their utterances are the legitimate offspring of their wishes. Some say that the Farmers' Alliance is going to pieces because it is favoring the People's party; others say that it is going to pieces because some are trying to hold it in one or the other of the old parties, but the facts are they are coming to my office every day...
