> THE silver men of Nevada and Colorado have broken loose from old party national ties and formed in each state a silver party with announced intention of putting a national ticket in the field. But they will without doubt, soon see the wisdom of joining the only national party honestly and unequivccally advocating free coinage.

WHY did the democratic central committees in a number of counties appoint delegates to the state convention? Was it because they hadn't enough democrats to hold a convention, or because they were afraid the rank and file would refuse to obey the bosses? One of these reasons is undoubtedly the correct one, and they can take their choice.

In a large number of counties in Nebraska, the democratic central committees met and appointed delegates to the state convention, dispensing alto-

gether with county conventions. Yet it will go before the country as the party that believes in "keeping close to the people" and proclaim that "the voice of the people is the supreme law of the land." Shades of Jefferson!
