

THE NON-CONFORMIST

of last week gives the following review of the situation and forecast of the results:

There is desperate work on the part of the republicans to destroy the People's party in the states beyond the Mississippi. They have been stupidly silent in all the earlier months, claiming that when needed they would buy up the grangers "on the hoof." They have trifled with the grave issues until too late, and now tactics of bribery and bluff and lies are met with shouts of derision from the tried and battle-scarred settlers of the plains, and the miners of the mountains. The alleged interviews have been declared false, and have proven boomerangs upon the party which can deliberately plan such infernal rascality to deceive the people. A party that depends on God and morality in the churches, and on boodle, and lies on the street, deserves the execration of all right-minded men. By its methods, now apparent to all men, it has destroyed its power for evil. No matter what leaders it might bribe to prove false, the mighty people will go right onward to victory, and the people's party will have not less than fifty votes in the electoral college west of the Mississippi. In the south the bludgeon is doing for Cleveland what the boodle is doing for Harrison in the west. It is a boomerang which is destroying the Wall street democracy. Alabama is safe in the people's column, Louisiana and West Virginia are lost to Cleveland, Virginia, North Carolina, Georgia, Tennessee and Arkansas are in doubt. The revolution is on in the south, and while it may not succeed this time it cannot go back.

In Indiana the old parties are in the cave of gloom. The pronounced people's party vote, and above all, the "silent voters" fill all their calculations with immeasurable concern.

Which—Ballots or Bullets?

It is with capitalism—with plutocracy—to say whether or not we shall have a peaceable solution of the war already on between labor and capital. If left to them, the great common people of this country will settle the question at issue by the ballot, and in doing so will take the reins of government into their own hands—repossess themselves of the government, as they have the right to do. But will they be permitted to do so? That's the question. The men from behind the plows, from the mines, from the shops and factories, the men who dig the ditches, build the roads and operate them, constitute the great majority in this country. They can wield an overwhelming power if they choose to do so, and it looks now very much like they were going to do it? That they will do it there is not a doubt, but can they do so peaceably? That's the question. — New Forum.

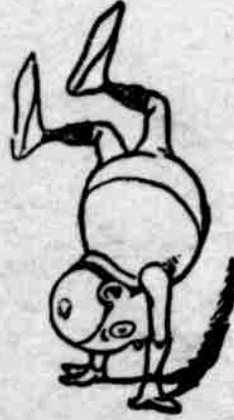

Chicago Produce Letter—From Summers Morrison & Company.

CHICAGO, Oct. 29, 1902.

There has been no important change in the produce market this week except in potatoes; they have advanced very materially. A great many outside orders for carlots have been received and the supply has not been sufficient to meet this demand. In consequence the market for this week closes firm at the advance. Choice Burbanks 75 to 78 cents per bushel, in carload lots on track. Other well assorted varieties 73 to 73 cents. Good mixed stock 63 to 65 cents.

The butter market is holding up well and choice quick flavored makes, both dairy and creamery are scarce. Extra choice creamery 27 to 28 cents. Fair to good 25 to 26 cents. Choice dairy 24 to 25 cents; fair to good 20 to 21 cents. Strictly fresh eggs continue in light supply at 21 to 22 cents per dozen. The poultry market is steady at previous quotations. There is a good call for full feathered geese and such are bringing \$7.50 to \$8 per dozen. Beans are in sharp demand at \$1.90 to \$2 per bushel for hand picked, \$1.75 to \$1.80 for machine cleaned. Veal well fattened and of good weight is wanted at 8 to 8½ cents per pound. Good varieties of winter apples meet with ready sale, both on local and shipping demand at \$3 to \$3.25 per barrel. Broom corn continues in very light receipt and prices have advanced some, with good demand. Self working of good color and growth \$80 to \$90 per ton. The grain market has declined some during the week, most noticeably on wheat, and this is now lower than it has been for some years. Hay has advanced some under light receipts. No. 1 timothy \$13 to \$12 per ton. No. 2 \$11 to \$11.50, mixed timothy \$10, choice

We're Heels Over Head

UPSIDE DOWN Never so busy in our lives. Trade has come with a rush but we were ready for it, and so patrons go away suited and oft-times overcoated as well. You can't afford to buy your winter clothing until you know exactly what "The Hub" can do for you. New customers made every day and old ones don't think of changing trading places. Thirteen years in business in Nebraska but we never sold clothing as low before. We begin November 1st giving strong coasting sleds free with all boy's overcoats, Nice styles at \$1.50, \$2.00 and \$2.50.
