OUR GALLANT LEADER,

General Weaver, Talks of the People's Movement, Its Progress, Its Power and Its Future

WE WILL CONTROL THE SENATE.

What Caused the Reaction—The Democratic Triumph Will be Short Lived.

The following interview with General Weaver appeared in the Sunday issue of the Rocky Mountain News:

WISE WORDS OF OUR LEADER.
I am glad on looking over the political wreckage of Tuesday last to see that Populists have done so remarkably well in the great struggle just closed and the echoes of which still resound in our ears. We have carried almost as many states as Harrison, though not so large an electoral vote, and hold the balance of power in more than three-fourths of the states of the union.

WE CONTROL THE SENATE.
Better still, we are in position to sway the action and shape the future policy of the federal senate, having as we will after March 4, senators in that body from Idaho, California, Montana, Kansas, Wyoming, Nebraska, Nevada and possibly North and South Dakota. We have also elected governors in six or seven states. This will enable us to act as a breakwater against the enactment of various legislation and permits us to force the economic measures such as the free coinage of silver and the adoption of an American system of currency to the front and bring the vital issues of the Nineteenth century to the attention of the American people.

DISSATISFACTION THE CAUSE.
The Democratic party came into power as the result of a violent reaction of public sentiment and not at the bidding of the quiet and sober judgment of the people. The reaction which threw the Democrats from power at the close of Cleveland's term in 1889 gave the Republicans complete control of the government. The people were disappointed with Mr. Harrison's administration and the political pendulum swung violently back and hurled the Republicans from power.

COMING DEMOCRATIC DISASTER.
The task now confronting the democratic party is impossible of solution from the standpoint of that party. If they reduce the tariff taxes there will be a deficit, unless they are reduced to the point that will stimulate importations in order to maintain the revenue. In that event wages will decline, labor become dissatisfied, and the

THE ONLY REMEDY.
The only remedy for the impending catastrophe is a material increase in the circulating medium through the free coinage of our silver product. This would tend to increase wages in spite of tariff industries, but the democratic party is irrevocably committed against currency expansion and is surely facing a sea of trouble it cannot avoid.

PLUTOCRACY'S NEW TOOL.
The democracy has captured every money center east and west, not by storming the financial citadels but entered by invitation of the moneyed plutocracy, which desired to change its allegiance from the decaying republican party to another which apparently neither long years of disaster and a quarter of a century of dethronement seems incapable of destroying or even phasing.

NO HOPE IN CLEVELAND.
Not a single element of reform will cluster about the administration of Cleveland. The three great contentions of modern civilization, land, money and transportation will look in vain for help or friends from the new regime. The People's Party, appealing as does to the justice of mankind, is the coming factor in national politics, and its advent to national supremacy before the dawn of the twentieth century is assured.

THE PEOPLE'S PARTY POWER.
It holds the key to the political situation in America and will battle again next year with the strength of a young giant in every state in the union for the free coinage of silver and the whole range of economic reforms now crying for solution. The future of free coinage of silver is assured and free coinage will follow. This is the first reform to be accomplished, and we will make short work of it.

The Only Hope of the Nation.
There is no reason why any independent should be discouraged. In one short campaign of four months our party has done more to educate the people in the true functions of government than the republican party has done in its forty years of existence. It has wrested from the republican party five states, in spite of all its power, prestige and boodle. In thinking that the loss of a few petty county offices will discourage the noble men and women whose hearts are aflame with indignation at the robbery perpetrated upon the producing classes through the vicious legislation enacted by the old parties, the Times' man has evidently judged them after his own narrow, sordid, and contemptible views. The fight will go on. The People's party is the only hope of the people from the absolute despotism of a triumphant plutocracy. Under the dom-

A FARMERS CONGRESS

Will Meet in Lincoln Next Week—All Farmers Invited to Attend Its Sessions.

THE PROGRAM OF THE EXERCISES.

A Letter From B. F. Clayton, Secretary of the National Congress.

INDIANOLA, Iowa, Nov. 7, 1892.
The Twelfth Annual Session of the National Farmers Congress of the United States of America meets in the House of Representatives at Lincoln, Neb. Nov. 22nd 1892, at 10:00 a. m.

This body is composed of one delegate and one alternate from each Congressional District in the United States two delegates and alternates from each state at large, the heads of all State Agricultural Societies and State Agricultural Colleges, and this year one member of all Local Agricultural Societies in the United States. Ours is a non-partisan organization and has accomplished much good in securing such National and State legislations as our great interest requires. We expect one thousand or fifteen hundred delegates and visitors and it will be the largest and most interesting gathering of practical agriculturists and farmers ever assembled in the United States.

PROGRAMME.
The twelfth annual session of the National Farmer's Congress of the United States will convene in the House of Representatives at Lincoln, Neb., November 22, 1892, at 10 a. m.

10 A. M.
Called to order, and music by the band.
Prayer.
Welcome to the state by Hon. J. E. Boyd, Governor of Nebraska.
Response, by Hon. W. A. Smith, of Kansas.

"Agriculture in the South," by General H. K. Burkett, of Mississippi, and F. M. Clemanes, of Kentucky.

Reduced rates have been secured at the following hotels in Lincoln: Capital, Lincoln Windsor, Opelt, Tremont, St. Charles, Bond and the Lindell. Our headquarters will be at the Lindell.
Reduced rates over all leading railways in the United States are granted.
B. F. CLAYTON, Secretary.

Go On With The Fight.

The battle is over its joys and sorrows its grief and gladness, and all things pertaining to it, have passed into oblivion. Except the result: that is a matter of history. It now becomes us, as citizens of this great country, to continue the conflict. We have succeeded, but we will yet miserably fail, if we lay down our arms and let money accomplish, what the ballot has failed to do. Judge Gresham has said, "that we need men, possessing the essential qualities of political manhood" Men to whom bribery is a sin and the briber is the accursed of God." The election just passed shows conclusively that the power of money in the hands of unscrupulous plutocrats in almost uncontrollable. At the behest of its king the laboring man, it will not down. Let us close up our ranks, remembering that eternal vigilance is the price of security. Our legislature will soon commence its labors and it becomes us, the creators, to so guard, all avenues that the creatures shall accomplish our will. "The Truth Shall Triumph," is our motto, but it will triumph, only, as we stand shoulder to shoulder with its precepts.—Nelson Herald.

Celebrating the People's Party Victory in the Sunflower State.

EMPORIA, Kan., Nov. 12.—The Kansas State Farmer's Alliance and Industrial Union which has been in session here for the past two days, elected the following officers: President, W. S. Hanna; vice-president, Mrs. N. C. Clark; secretary and treasurer, J. B. French. In the evening the alliance held an open meeting which resolved itself into a jollification to celebrate the victory of the people.
