

FAILURES INCREASING.

Banks Smashing all Over The Entire Country.

CHICAGO APPROACHING A PANIC.

Causes Usually Assigned Tight Money, More Gold Shipments.—Part of the Crashes for Two Weeks.

Gold shipments to Europe are increasing every day. Secretary Carlisle has become frightened and a thing that has never happened before, has called on the Chicago sub-treasury to help him out.

Below are given a few of the failures for the past week:

CRESTON, Ia., May 23.—The Exchange Bank at Tingly has suspended and the cashier, Robert Bennett, has left for parts unknown.

ELMIRA, N. Y., May 24.—Major D. C. Robinson has made an assignment. The Elmira National Bank, which closed its doors yesterday, is the preferred creditor.

DENVER, May 24.—Rumors have been current for some days of weakness in the People's National bank and the People's Savings bank, which culminated this morning in a heavy run by depositors upon both these institutions.

JACKSON, Mich., May 25.—Kings bank at Brooklyn, this county, suspended payment this afternoon. F. G. King, banker, has made an assignment to Banker Walworth of Hillsdale.

LABORING PEOPLE.

Those Who Earn Their Bread by Honest Toil.

Labor day will be made a legal holiday in Michigan.

This country produces 565,000,000 pounds of tobacco annually.

It has been discovered that a little rat printing office in New York has been doing a big business counterfeiting union labels.

Brooklyn aldermen gave away a street railway franchise for nothing that \$250,000 had been offered for. Now there's a row.

St. Louis is fast becoming the labor convention city of America. No less than twenty-five national bodies will convene there during the year.

Subscribers to the Leavenworth Times, desiring to discontinue their subscriptions, are unable to do so. The circulation of the rat Times is like the brook in the song that "goes on forever"—perhaps.

The Leavenworth Labor Chronicle says: One of our merchants met a union man on Delaware street Tuesday afternoon, who was once upon a time a good customer of his, and asked him why he did not call around and see him any more. The man replied: "I noticed a very prominent advertisement of yours in the Leavenworth Times and never a line in our labor paper. If you think it is policy to patronize a 'scab' paper and slight our paper, I prefer to buy my goods of other merchants who think different."

A GRAND ENTERPRISE.

Lincoln's Magnificent New Bath House.

We are pleased to place before the readers of THE ALLIANCE-INDEPENDENT a brief description of the Sulpho-Saline Bath House and Sanitarium, which for grandeur and completeness in all departments is not surpassed by any similar institution. It is a credit to the state.

A glance at this great bath house indicates its Spanish renaissance style of architecture strongly influenced by the Moorish spirit. What strikes the beholder first, of course, is its great size and then its picturesque outline. The coloring is as rich and varied as the outline. The main material used for the building—tower and all—is vitrified and rock-faced brick.

The rotunda is palatial in character and appointments. The first impression is one of oriental splendor. The floor is an elaborate mosaic made of tiny bits of marble in Pompeian design surrounded by a wainscoting of Mexican onyx, reflecting the beauties of the frescoed walls and ceiling.

The physician's apartments are conveniently situated just left of the main entrance, they are richly decorated in French and Persian effects and contain everything necessary for scientific work on modern principles.

The hot salt baths. The Artesian wells in the basement of this great establishment pour forth a daily flood of mineral waters, having no equal in the healing of rheumatism, Neuralgia, Catarrh, Dyspepsia, Malarial poisoning, Liver, Kidney and nervous troubles, Skin and Blood diseases, general debility, etc., etc.

Too much cannot be said of the benefits to be derived from a systematic course of hot salt baths given by trained attendants.

The reception room partakes of the Moorish spirit throughout, the rich carpets, wall hangings, mantels, fret work, draperies and furniture being special designs of a most elaborate character. It is a grand apartment, having no superior and but a few equals in the country.

The bed rooms are pronounced charming by all who have visited them, each is supplied with a brass bed, oak furniture, electric light and call bell, and all are outside rooms, bright and sunny, and well ventilated, they are for the use of invalids and those wishing to remain over night after taking a Turkish or Russian bath.

The Massage, Manicure, Chiropractic and Root Black departments are in charge of competent persons and all work is guaranteed to be of the best.

The barber shop is in charge of competent and careful men who understand their business and who strive to please their customers, the appointments are the best that money can provide and the shop presents a very inviting appearance with its polished marble floor and brilliant wall decorations of red morocco.

The ladies hair dressing parlors, and parlors they are indeed. They are considered by many to be the most inviting rooms in the entire building. The attendants are experienced and their work is up to date.

When visiting Lincoln you should not go away without looking through this magnificent building.

The reception room is always open to visitors. A. C. Ziemer the courteous and ever obliging secretary will gladly furnish you with all the information in regard to its magnificence or purposes you will find him instructive and interesting.

CHAUNCEY M. DEPEW.

The other day, in speaking of the improved facilities for luxurious travel in this country says:

"We are abandoning the old system of lighting the cars with kerosene lamps, and more than half the coaches have already been equipped with the most improved and the safest system of lighting known in this country or Europe. With the new Pintach lamps there can be no possibility of danger from explosion or otherwise, as the apparatus is all out side and under the car, and in the event of mishap, the fixtures become detached and the gas escapes into the air."

The brilliant Pintach light, the finest car illuminant in existence, now in use on the Union Pacific System fulfills all the requisite conditions so happily noted by Mr. Depew.
