building two years ago and broke my thigh, besides injuring myself intern-ally. The doctors could do nothing for thigh. besides injuring myself internally. The doctors could do nothing for me but let the bones grow together as best they could. When I was able to walk on crutches I came near dying from the complication of troubles that had set in after the fall. For one year and a half I walked on crutches, striving in vain to find some relief from the misory I felt night and day. The worst part of my afflictions was that I could not eat anything. If I could have taken nourishment and kept it down I could have stood the pain better. I had four doctors, and kept taking all sorts of medicines. I had to stop all of them or I would have been a dead man. I have enough bottles left to start a drug store. I would be troubled so with headaches, and my hips would pain me so that I often thought I should go crazy. I was so emaciated that there was nothing to me but skin and bone. Last summer I felt as if I was nearly dead. My kidneys then began to bother me. I got so I could not sleep only at intervals. Finally I gave up in despair. One day I was sitting out on the porch. It was a beautiful, sunny day. The singli g of birds and the odor of flowers set me to thinking of my childhood days. From that my thoughts reverted to the little French weekly paper, Le Moniteur Acadien, that we got, and I thought I would like to read it and see how things were at my old home. I told my wife to give me the it and see how things were at my old home. I told my wife to give me the last number. She brought me the one that came that morning. The first thing I saw was a leng article about the miraculous cure of a cripple. I the miraculous cure of a cripple. I read on and on, becoming more interested than ever. The patient described in the article said that Dr. Williams' Pink Pills for Pale People cured him and they would cure others. The story aroused my interest and I induced my druggist to send for them. I did not expect relief right away, but soon they made the headache pass away. After taking them some days I could eat. People laughed at me when away. After taking them some days I could eat. People laughed at me when I began to take the pills, telling me I was taking so much candy. But the day I threw away the crutches they thought different. I am now well and hearty as a young man of 25."

daughter Mrs. N. White came into the store. "There. "said he, "is another case. She has tried them, too." The reporter thought it would be a good idea to speak of her case, also, since it was a woman's. Mrs. White married a man of the same name as her father, so

this accounts for the same name.

'The doctors," she said, "told me I had uterine trouble. I was in a miserable condition. Nothing that I took could alleviate the pain I would feel in my limbs and abdomen. I often had fluttering of the heart and frequent my limbs and abdomen. I often had flut-tering of the heart and frequent weak spells. I would eat, but it would do me no good. I could not sleep. I was in misery and despair. My father took Dr. Williams' Pink pills, and his improvement was so rapid that I thought I would take them too. At first I feit worse, and then I began to mend so rapidly that I was aston-ished. I have taken seven boxes and am now nearly well. In the morning feel refreshed after a night's rest.

August Grotefend, who keeps the Germania drug store, at 1011 Main St., N. E. corroborated what Mr. White had said above in regard to his condition, saying, "I have sold a great many since these cures. Some of the lumbermen going into the woods have the second sold a great many since these cures.

going into the woods have taken half a de zen box lots of these pills with them.

They certainly have done a wonderful lot of good and should have the entire credit of the cures."

On inquiry the Journal reporter found that these pills are now on sale at the various wholesale drug houses of Minneapolis and St. Paul and are meeting with a good sale, but not as fast as they will sell as soon as their merit is fully known. He found that they were manufactured by Dr. Willthey were manufactured by Dr. Williams' Medicine Company Shenectady, N Y., and Brockville, Ont., and the pills are sold in boxes (never in bulk by the hundred) at 50 cents a box, or six boxes for \$2.50. Dr. Williams' Pink pills are a perfect

blood builder and nerve restorer, cur-ing such deseases as rhumatism, neu-ralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous head ache, nervous prostration and the tired feeling therefrom, and after effects of la grippe, influenza and severe colds, dis-eases depending on humors in the blood, such as scrofula, chronic crysipelas, etc. Pink pills give a healthy glow to pale and sallow complexions and are a specific to the female system; in men they effect a radical cure in all cases arising from mental worry, overwork or excesses of any nature.

Resigned The Office.

TERAMAH, Neb., July 5.--County Commissioner Oliver Walte, elected last "Precious is the panacea that cures when hope is gone and medical advice pronounces the death sentence—'incurable.' How terrible it is to think of leaving this sweet life before the allowed years of man's time here on earth are spent." Thus spoke J. B. White of 1201, 3rd St., N. E., last night to a Journal reporter. Mr. White has been much talked about of late, and the following conversation explains why:

"I am a native of Shediac, New Brusswick, and of French descent. I am now 60 years old. I fell from a building two years ago and broke my
