HIGH CARNIVAL AT ST. LOUIS. THE METROPOLIS OF THE MISSISSIPPI VALLEY AGAIN PRESENTS A

Programme of Fall Festivities That For Brilliance and Variety Outshines the Carnival Cities of the Old World.

Paris, the most magnificent city on either continent, has for ages held the proud title of "the premier, carnival city of the world."

Not content with the successful exhibitions of previous years, the Autumnal Festivities Association has arranged a programme for 1893 that in brilliancy and variety will be difficult to improve upon.

The 33d great St. Louis Fair and Zoological Gardens, October 2d to 7th, will be the crowning week of the carnival season.

For further information in regard to rates, route, limit of tickets and for a copy of the full festivities programme, address nearest Missouri Pacific or Iron Mountain Ticket Agent in your territory...

The best builders use only the best materials—lumber, brick, lime, cement, sand—whatever goes into the construction of a building...

August 23, September 12 and October 10, the Elkhorn railroad, Northwest line, will sell round trip tickets for the above purpose at one fare plus \$1.50...

THE FARM AND HOME.

MANAGEMENT IN THE BREEDING OF SHORTHORNS. Breed for a Definite Purpose—The Poor Man's Stock—Coin in Cucumbers—Keeping Sweet Potatoes—Farm Notes and Home Hints.

Breeding Shorthorns. The following well-pointed notes are taken from the address of Mr. Kellogg of Ohio, at a recent meeting of a breeders' association of the state:

I shall not attempt to commence at the starting point of this noble breed of rent payers nor to eulogize those whose names have become world-wide as breeders, who have so largely bred up the different families, but rather take the Shorthorns as we find them to-day and present a few thoughts for your consideration on how to manage so as to get the best results to us, as breeders.

To do this the breeder must mark out the line he will pursue. If it is for milk rather than cheese or butter, I would make my selection, and breed and feed for that object.

At once that to succeed in any line of production we must carry out the laws of nature. The demand for the best cuts of beef and the most of them out of the same animal, requires us to build for that especial object.

Make Your Own Bitters! One receipt of 30 cents, U. S. stamps, I will send to any address one package Sieteater's Dry Bitters.

If two bullocks of given age are cared for and fed in the same manner for seven months, and we find that one has made a gain of gross weight of 420 pounds while the other has made 100 pounds, should it not lead us to look for a cause?

The filthy dairyman can never succeed. For cherries select sandstone upland. The cows should be milked as clean as possible.

Breeding from mature stock is the way to make strong hogs. The treatment for lumpy jaw is to open the abscesses and wash with iodine.

An orchardist recommends throwing the dish and wash water around the fruit trees. It is not only very fatiguing to work with dull tools, but it causes a loss of time and the work is not so well done as if performed with sharp tools.

The horse stable should be dry, clean and well ventilated. So with the sheep stables. Neither of these animals require a high degree of warmth.

It is curious that sheep do not appeal successfully to the good judgment of farmers who do not keep them. That they are profitable stock, under right conditions and management, there is no question.

The poor man's stock. It is curious that sheep do not appeal successfully to the good judgment of farmers who do not keep them.

These are all pretty good inducements to breed sheep. But there is one other very important consideration in many cases. It costs very little to start the business.

A rich soil is requisite, says the American Cider-Maker. The average yield, when the soil is all it should be, is about 100 bushels to the acre; and, strange to say, the smaller the cucumbers, the more bushels can be raised per acre...

bushel, a yield even so great as 300 bushels to the acre might be obtained. The reason of this lies in the fact that where they are allowed to grow, they not only become too large for pickling purposes, but they sap the nourishment of the vines, thus retarding the prolificacy which is the rule when they are clipped off at a smaller stage of their growth.

The market demands that they should never exceed four inches in length—three inches is better, but two inches is best. Small cucumbers gathered and put up in good condition never fail to command a ready sale at profitable figures.

Keeping Sweet Potatoes. I give you my way of keeping potatoes, says a correspondent of Southern Farm: when the time comes to dig, do not wait for the frost to kill the vines.

Put them in hills of fifty to 100 bushels. Get you some nice, clean pine straw. Be sure it is dry. Take care to put it on evenly all over.

Extradition of Barrett sent. LINCOLN, Sept. 11.—Last Saturday Governor Crouse received a letter from Secretary of State Gresham through the acting secretary, A. A. Adeo, acknowledging the receipt of a little favor of September 2, which contained requisition papers for Barrett Scott, the absconding treasurer of Holt county.

SANTA FE, N. M., Sept. 9.—Barrett Scott, late treasurer of Holt county, Neb., who embezzled \$104,000, is in jail at Chihuahua, having been captured at Washington last night and Scott will soon be returned to the scene of his delinquency.

Of Interest to Nebraskans. LINCOLN, Sept. 11.—Alex Schlegel of the land commissioner's department has discovered that he is in possession of a document of interest to old settlers of Nebraska. The paper is a record of the 328 pre-emptions made with the surveyor general at Nebraska City from January to October 1856.

OMAHA, Sept. 11.—The absence for the past week of Bear's Ears, an Indian soldier at Fort Omaha, has given rise to suspicion and connects him with a shooting affair on a farm near the fort. Tuesday afternoon a couple of Indian soldiers were seen in Farmer Zeller's water melon patch.

KEARNEY, Neb., Sept. 11.—Last Thursday morning Perry Frame, a farmer living near Pleasanton, twenty miles north of Kearney, started for the world's fair with his son, a young man about twenty-five years old.

GRAND ISLAND, Neb., Sept. 11.—The seven-year-old daughter of Mr. and Mrs. C. Westcott was run over by a team driven by a son of Mrs. Rouse last Friday afternoon.

Robert Beardsly, who made the assault on the aged Phillip Bullis at the canning factory last Friday, is very much broken up over the affair. He acknowledges all the facts, and is very remorseful.

GRAND ISLAND, Neb., Sept. 11.—Josephine Claussen committed suicide Saturday night by hanging herself in his barn with a dog chain.

Uttered a Dog Chain. GRAND ISLAND, Neb., Sept. 11.—Josephine Claussen committed suicide Saturday night by hanging herself in his barn with a dog chain.

Cherry County Independents. VALENTINE, Neb., Sept. 11.—The independents met Saturday and placed in nomination their county ticket as follows: C. C. Parker, sheriff; G. P. Crabbe, treasurer; W. A. Wilson, clerk; J. F. Roberts, judge; Miss Lillian Stoner, superintendent; F. H. Ingersoll, coroner; A. J. Wallingford, surveyor.

Went Through the House. ASHLAND, Neb., Sept. 11.—While the family of J. H. Piper, who lives southeast of town, was visiting in Getzra, some men, supposed to have been tramps, went through the house and made way with a large amount of booty, including a good revolver and a quantity of jewelry, valued at about \$50.

An Unfortunate Accident. LINCOLN, Sept. 11.—A. H. Nauen, bailiff of the supreme court, met with an unfortunate accident yesterday.

Home Hints. A ripe tomato is an excellent thing to remove ink stains from paper or linen.

For a burn, take sweet oil and limewater, equal parts; mix and keep the burn well covered with it.

All traces of mud can easily be removed from black clothes by rubbing the spots with a raw potato out in half.

It is said that nothing is better than coal ashes for use in scouring steel knives and forks and tinware. They should be sifted twice, the second time through a fine wire sieve.

Chemists say that it takes more than twice as much sugar to sweeten preserves, sauces, etc., if put in when they begin to cook as it does to sweeten them after the fruit is cooked.

For painful sore feet caused by excessive walking, long standing or constant movement, as in the use of the sewing machine, a dusting powder of equal parts of precipitated chalk and tannin, or the tannin alone, will be of much service.

TIME FOR EVERYONE.

HOMESEEKERS WILL ALL BE ABLE TO REGISTER.

LITTLE GOOD LAND IN THE WEST.

Largely Made Up of Sand Mounds—Booming Town Site Schemes—Arkansas City Will Be Empty—Sunday Services to Be Held in Every Town in the Strip—Cherokee Allotments.

ARKANSAS CITY, Kas., Sept. 11.—Special Land Agent Swinford passed through here last night to resume charge of Guthrie. He has inspected the registration booths all along the northern border and found everything ready for operations Monday morning.

Special Land Agent Poe, who was also in the party, said that while there was a little good land in the west, the bulk of it was mounds of sand, good for nothing except possibly grazing for Texas cattle.

Strict embargo has been placed upon the strip, and from now on no one will be allowed to enter for any purpose. The troops have a number of indiscreet boomers under arrest, and they will be held in camp until after the strip opens, forfeiting their rights to register and make the run.

The confirmations of the Cherokee allotments caused a good deal of satisfaction among the Cherokees and their friends. Those who have made arrangements to dispose of their land to townsite companies will now go ahead and perfect their deals.

The Willow Springs Town Site company has commenced to boom things. They are going to consolidate with the other companies if possible and secret conferences are going on all day. If they succeed, they will have the biggest town of the kind ever organized.

Several townsite schemes are being worked to locate towns inland on the rich bottom lands along the Cherokee river. There are two companies who will run for a site from here and one from Winfield. They are all after the same site, and it is a good one, as a branch of the Missouri Pacific will be built south of this town.

At 12:05 p. m. on Saturday, the 16th instant, there will not be enough people left in Arkansas City to form a corporate guard. It is astonishing to learn of the number of people who are going to run for either a claim or a town lot—everyone from clergymen down to the men who do chamber work in the livery stables.

The housewives are suffering for servants, all the hired girls in town are going to try and get a claim as a bait for a husband. The police will leave the town except the city marshal and the jailer, who is too old to go away. Several of the police have been mounted lately and these will have an opportunity to get used to the saddle.

The Rt. Rev. Bishop Brooke of Oklahoma will hold services through his clergy in every new town in the strip on Sunday morning after the run. Preparations will be made to have the services held in large tents if possible, but if they are not procurable open air services will be held.

CORN CROP IS IMPAIRED. A Fall of More Than Ten Points in Condition Since a Month Ago. WASHINGTON, Sept. 11.—The September report of the department of agriculture shows a decline of over ten points in the condition of corn to 76.7 from 87 in the month of August and 93.2 in July.

The condition of wheat, considering both winter and spring, when harvested was 74 against 85.3 in 1892. The general average is the lowest since 1885 when it was 72. The reported conditions for the principal wheat growing states are: Indiana 88, Illinois 60, Wisconsin 80, Minnesota 65, Iowa 85, Missouri 61, Kansas 42, Nebraska 55.

There has been a further decline in the condition of oats during the past month, the general average standing at 74.9 against 78.1 in August. In September, 1892, it was 78.9. The condition of rice is 83, barley 83.8 against 84.6 in August. The returns of the condition of tobacco on September 1 are less favorable than those of August 1, standing at 73.3.

The condition of potatoes is 71.8, a decline of over 14 points since the August report. No Letters for a Bond Concerned. NEVADA, Mo., Sept. 11.—Postmaster "ingles has received orders from Postmaster General Bissell not to pay out any money through his office on orders or give out registered letters to the Guarantee Investment Company, and to return such letters and orders to remitters. This company is to move its Nevada office to St. Louis to-night.
