FREE COINAGE.

MR. BLAND PREPARING FOR ANOTHER SILVER SIECE

THE FIGHT TO BE BENEWED AGAIN.

The Silver Champion at Work on a Bill Which He Will Introduce as .cos as Congress Meets-Ciaims the Repeal of the Sherman Act Has Not Restored Couffdence_Bland's Views.

WASHINGTON, Nov. 21 .- The indica tions are that the free coinage fight will be renewed at the opening of the regular session. The free coinage men hold that the repeal of the silver purchase law has not restored commercial prosperity, that the position of the silver men in urging free coinage at the late session has been vindicated and that now the Democratic party in congress should devote itself to redeeming the remaining pledges of the last Democratic national convention on the subject of silver and financial legislation.

With this object in view, Chairman Bland of the committee on coinage, weights and measures is preparing a bill, which he, as the leader of the free coinage men, will introduce at the opening of the session. It is further declared by him to be his intention to afford no loophole of escape for those Democratic congressmen who have talked for free coinage to their constituents at home, but voted against it on plausible pretexts, when the matter came up for consideration . in the house. He holds that there is a clear majority for free coinage in the house, if the private declarations of the members to him during the extra session are to be relied upon, "and he surposes now to bring these gentiemen to the crucial test.

The measure which Mr. Bland will introduce is substantially a re-enactment of the law of January 18, 1837. It is the belief of the silver men that this will command greater strength and afford less opportunity for evasion than any other measure which could possibly be presented. The act of 1837 was simple and brief. It provided for silver doliars of 412% grains and deciared that "the dollars, haif dollars, quarter dollars, dimes and half dimes sha i be legal tenders according to their nominal value for any anms whatever

In regard to his position and the plans of the silver men, Mr. Bland said: "I do not see that the repeal of the Sherman law has changed the situation for the better-indeed it appears to have changed it for the worse. The truth is-and the people now thoroughly realize it-the silver purchase law has had nothing to do with the hard times. The hard times came on and they are with us and we

THE LEHICH TIE UP.

All Classes of i mployes on the system Quit Work.

NEW YORK. Nov. 21. - Because of the refusal of President Wilbur of the Lehigh Valley railroad to treat with a committee of employes in regard to grievances, a general strike was ordered Saturday and yesterday all freight traffic at all points on the system was tied up. Only mail trains were ran during the day. The road had expected trouble and had for some time refused perishable freight. The strikers were engineers, firemen, conductors, brakemen and telegraph operators

At Jersey City a force of extra police have been ordered for special duty at the yards of the company. No train on the road has left Jersey City since midnight. Superintendent Rundio says that from present indications no trains will be run during the day, but the company hopes to move some rassenger trains to-night with fully equipped crews.

WILKESBARRE, Pa., Nov. 20-Everything is quiet along the line of the Leigh Valley rallway this morning.

Somebody attempted to tamper with a switch at Port Buckley early this morning, but the Brotherhood men who are on the watch for such things, ardived in time to prevent damage. BUFFALO, N. Y., Nov. 20.-The officials of the Lehigh road here say that they are not attempting to move their full complement of yard traffic at East Buffalo, but have enough switch engines to keep things clear. Six regular freight crews who run between East Buffalo and Suspension Bridge are on duty and handling trains as usual. As to the main line, East time freight, such as fish, meat, and perishable goods, have been moved without delay.

VIGILANTS ON THE STRIP.

Seven Sooners and a Town's Mayor Or dered to Leave-Grave 'Rumors.

NORTH ENID, Ok., Nov. 21.-At Kremlin, Saturday seven sooners were put on a train by a vigilance committee and told that they would be strung up if they ever returned.

At Round point the mayor has been notified to leave by a vigi ance ommittee and two sooners are reported to have been hanged on the Skeleton. seven miles east of here, for driving settlers off their claims.

C. C. Burnes at Rest.

CHICAGO, Nov. 21.-C. C. Burnes, vice president of the National Bank of St. Joseph, Mo., died here this morning. He had come here to be treated for diabetes.

Mr. Burnes was elected mayor of Atchison, Kan, in 1884 and removed to St. Joseph on the expiration of his term of office and had occupied the position of vice president of the bank ever since. In 1880 he ran for congress against John A. Anderson in the Second Kansas district, but was de feated. Great Storm Unmage in Japan. SAN FRANCISCO, Nov. 21-Steamship advices from Japan are that the great storm and flood in that country October 14 did the following damage: In Saga, houses destroyed 4,830, other bui dings destroyed over 5,000, killed or drowned, 63; missing, 128; in Oita, houses destroyed 440, other buildings 398: killed or drowned 115, missing 61; in Okayama, 3,207 houses washed away, 6,842 houses practically destroyed, 47,459 buildings partially destroved, 644 drowned, 444 wounded

CHICAGO, Nov. 21. -Prendergast, the slayer of Mayor Harrison, whose trial is set next week, is not pleased at the defense his attorneys have decided on. "They propose to enter a plea of insanity" said he. "I shall object to that. I want to acknowledge the commistion of the crime and plead and prove justification."

"In what way will you prove justification?"

"The broken promise to make me corporation council. And then there are other things. But it will all come out at the trial. I'm very much displeased with the idea of entering the plea of insanity. I'm not insane. I was justified in the shooting The was justified in the shooting way the newspapers handled the story was amusing and also displeasing. They called me crank, lunatic, crazy, insane and a lot of other things. And the pictures—some of them were simply horrible. I'm not insane and dont want that kind of a defense."

A FATAL INITIATION.

A Boy 12 Years Old Meets Death Under Peculiar Circumstances.

SPRINGFIELD, Ill., Nov. 21 .- Charlie Willis, 12 years old, was shot and killed last night whi e being initiated into a secret society composed of youngsters whose ages run from 13 to 15 years. The society was called the "S. S. S.," the letters standing for Seven Secrets' Silent Shades. The boys' minds had evidently become inflamed by blood and thunder literature, had a cave in the outskirts of the city, the walls of the retreat being hung with pistols, old muskets, a few swords and other warlike arrangements.

The entire S. S. S. S. was arrested. but most of them declined to say anything concerning the killing, as to do so was contrary to their oaths. Some of them, however, were frightened into telling enough of the occurrence to enable the coroner's jury to bring in a verdict of accidental death.

Fire at Baldwin, Kan.

BALDWIN, Kan., Nov. 21.-Last night about 13 o'clock fire was discovered in the second story of M. I. Crosby's hardware store, and before sufficent aid could be had three two-story buildings and two one-story buildings were destroyed. The losses are is follows: Levi Bodwell, three buildings, \$2,000; no insurance; J. C. Miller, furniture and undertaking, \$3,000; insurance. \$2,000; M. I. Crosby, hard-ware, \$1,500; insurance, \$500; R. W. Bailey, shoemader, \$500; no insurance; J.L. Mosley, building, \$700; insu ance, \$600; J. M. Starr, barber, and W. A. Hyde, jeweler, loss from removal of goods, \$300. This, with damage to other buildings, makes a total loss of \$8,500.

Counterfeit Tickets Received.

CHICAGO, Nov. 21.-Counterfeit railway tickets to the amount of over \$160,000 have been honored in the last four weeks by the Baltimore and Ohio, Erie, P ttsburg and Western, Nickle Piate and other roads. There was absolutely nothing on the face of the tickets to indicate they were counterfeit. They were accepted without question by conductors, passed readily by the ticket counters and entered as a legal issue by the various ticket au litors. The tickets are the most perfect counterfeits of any kind ever issued.

CIVIL SERVICE REFORM.

The People's Party the Only One Which Can Heally Carry It Out.

The true inwardness of this "reform" administration is fast developing. Mr. Cleveland has announced a policy which amounts to the formal abandonment of all the civil service reform pledges he ever made. According to Good Government, the organ of the civil service reformers, he will hereafter wash his hands of all responsibility for any but a few great appointments, leaving all the rest absolutely to the discretion of the heads of departments. This announcement, which is borne out by the list of scandalous appointments already made. is entirely in keeping with Josiah Quincy's abject confession at the Massachusetts Reform club dinner that the administration had found it impracticable to carry out the reform theory and decided to give it up.

It certainly begins to look as if Mr. Cleveland's second election to the presidency were going to prove disastrous to his personal reputation, but so far as the country is concerned, it is no doubt on the whole a good thing that the Democratic administration has dropped the mantle of hypocrisy on this subject of civil service reform. While the Republicans are not likely to be quite so frank about it, the record of Harrison's administration ought to be as conclusive as a confession that Republican platform professions mean no more than those of the Democrats.

Both the old parties have now become atterly discredited with the people on this issue, and their platform writers might as well save themselves the trouble of composing any more lies on the subject. Meanwhile the popular indignation with the spoils system for and by which the old parties stand grows year by year more intense, and the demand for a pure civil service which shall take and keep the offices "out of politics" becomes more resolute and determined. Are the people to be beaten by the politicians in this plain issue between them? If not, to what agency shall they turn, seeing that both the old parties mock them? Must they not turn to the new party? We believe that the present situation of the civil service reform movement offers a great opportunity to the People's Party, and one which they would be most unwise as well as unpatriotic not to make the most of.

The Omaha platform contains a proviso that railroad employees under government ownership should be brought under the classified civil service, and this demand is an implied proviso in ali control over public services. Our party, on account of the prominence in its pro-hour per H. P Write for catalo propositions for the extension of public positions, is necessarily pledged to the most rigid doctrine of a pure civil service absolutely removed from politics, and in making that plank a prominent and leading feature of our platform we should strictly carry out the logic of our

from them; but the People's Party is not under bonds to the politicians or office seekers. It alone is in a position honestly to promise to take the offices out of politics and to keep that pledge when it comes to power. There is no element from which a reform party like ours could expect any help that would be alienated by a radical reform position on this question, while it would attract to us a multitude of the best people in the country and complete the moral prestige of our cause. The logic of events, we are hopeful, will so confirm this reasoning that we shall see prominent in the next national platform of the People's Party a plank declaring that "all nonelective public officials, excepting a limited number of heads of departments, should be appointed and promoted for merit only and hold office during good behavior."-New Nation.

have simply got to go through a pro-cess of liquidation before good times can come again and that was necessary whether we repealed the Sherman law or not. This ranic, like all other panics, finally reached a point where the people got afraid of the banks and afraid of each other and there has got to be a general liquidation and blotting out and beginning anew. The repeal of the Sherman iaw will only tend to make liquidations harder for the debtor class of people, because it contracts the currency and leaves the business interests of the country without a sufficient volume of money to supply a growing population and development of industries. It was thought that European capital would be invested here more readily by the repeal of the silver purchase act than by letting it stand. But it seems that even in that they have been greatly disappointed. There seems to be now less confidence in Europe in our financial conditions than before. They are sending no money here and continue to draw away ours. If the gold basis which we have here now tends to contract currency, it is making the times harder everywhere The contractiou of the currency and a go d basis will tend to make a sharp demand for gold in Europe as well as here and will injure our producers by causing lower prices for everything we send to Europe. This also makes lower prices here, and hence since the passage of the repeal act, wheat an cotton have gone down in the market lostead of going up. If deck hons s, saloon and mizzen mast we can reduce the tariff very largely were consumed and the deck rgo of so as to make trade easier and freer, the exchange of our commodities abroad will tend somewhat to relieve trol and the ships parted company. the farming interests of this country. Hence I think we should immediately impose a large income tax and greatly reduce the duties on imports.

"We expect to undertake to pass a Ozark and Willard hotels and did free coinage bill before congress adjourns." continued Chairman Bland, "What success we will decisively. have is very uncertain My position is that we should repeal now all of the She man laws on silver and have the haw of 1887 re-enacted and thus put silver back to where it was before he put his hand on it. Pennoyer's Proclamation.

Governor Pennoyer of Oregon has before shown bimself a man of courage and independence, and his Thanksgiving proclamation, free from the meaningless platitudes usually going to make up such documents, and containing a plain statement of the actual condition of the people of his state, is worthy of its patriotic, Christian author. Here is the proclamation:

I do hereby appoint the fourth Thursday of the present month as a day of Thanksgiving to Almighty God for the blessings he has bestowed upon this commonwealth during the present year.

God has indeed been most beneficent to our state and nation. And yet unjust and ill advised congressional legislation having made gold alone a full legal tender money has so dwarfed and paralyzed business that the unties of Providence are now denied to hundreds of thousands of people within the national domain, who not only are without employment, but also without the means of procuring food, raiment or shelter.

While, therefore, the people of Oregon return thanks to God for his goodness, I do most earnestly recommend that they devoutly implore him to dispose the president and congress of the United States to secure restoration of sliver as full legal tender money, in accordance with the policy of the fathers of the republic, whereby our industries may be revived and honest tollers of the land may procure their daily bread, not as alms, but as the reward of their labor, Salem, Or., Nov. 1.

An Awful Responsibility.

During the last 80 years wealth has increased in our nation at the rate of \$250,-000 per hour or \$70 per second. Yet we are suffering all the baleful consequences of hard times, the people are in a state of destitution, and 5,000,000 tramps fill the land. Bad laws have produced this condition. By whom were they made? Both Democrats and Republicans are equally responsible for the evils now oppressing the people.-Southern Mercury.

The state of Colorado increased its Populist vote about 10 per cent. Colorado is more solidly Populist than ever. A little local Republican victory in Arapahoe county indicates nothing. The goldbugs of Denver are on top, but the silver men in the state control the situation .- Denver Road.

"We are abandoning the old system of lighting the cars with kerosens lamps, and more than half the coaches have already been equipped with the most improved and the safest system o lighting known in this country or Europe. With the new Pintsch lamp there can be no possibility of danger from explosion or otherwise, as the apparatus is all out side and under the car, and in the event of mishap, the fixtures become detached and the gas escapes into the air."

The brilliant Pintsch light, the fines car-illuminant in existence, now in use on the Union Parific System fulfills all the requisite conditions so happily noted by Mr Lonow .

HIGH CARNIVAL AT ST. LOUIS. THE METROPOLIS OF THE MIS-

SISSIPPI VALLEY AGAIN PRESENTTS A

Programme of Fall Festivities That For Brilliancy and Variety Outshines the Carnival Cities of the Old World,

Paris, the most magnificent city on either continent, has for ages held the proud title of "the premier, carnival city of the world" However during the last ten or twelve years an American rival of no mean pretensions has contested for that high hooor, and today St. Louis holds what Paris so reluctantly rainquished, the title o' "the carnival city of the two continents."

Not content with the successful exhibitions of previous years, the Autumnal F-stivities Association has arranged a programme for 1893 that in brilliancy and variety will be diffi ult to improve upon. The first of the great attractions, the St. Louis Exposition, will throw its doors open to the public September 6th and continue until Oct. 21st. The world-renowned Sousa's Band has been engaged by the management, which in its if is a sufficient inducement to crowd the magnificent building during the concest.

Special attention has been paid to the street illustrations, and on the evening of August 12th, 17th, 24th, and 31st, Septe ber7th, 14th, 21st and 28 h, and O tober 3d, 5th, 12th and 19th, the most magnificent display yet attem to I will greet the eye of the for una e v sitor, electricity playing a prom neu part. The evening of October 3d une Veiled Prophet and his followers will parade through the princ pal thoroughfares, and immediately after the gr at ball which has received considerable prominence throughout the world, will be hald.

The 33d great St. Louis Fair end Zoological Gardens, October 2d to 7th, will be the crowning week of the carnival easen. This institution has no. peer, and is known in every land where the footprints of civilization exist. The Missouri Pacific Railway and Iron Mountain Route bring distinctly St. Louis lines, and having at all tim s the interests of the city is mind, have made a romarkably low round true rate from all points on the outire system to St. Louis and return during the fostivities.
