## A QUARTER BLOCK

Will be covered by Bennett's Building when the annex, work upon which will be begun at once, is completed. The building will be extended clear down to Fifteenth Street and will have a frontage of 132 feet on Capitol Ave., and 104 feet on Fifteenth Street.

We expect to move into the new store about April 1st, and we're going in with an entire new stock—nothing from the old store goes into the new. We realize that this is an awful dull season in which to close out a big stock like ours—but we know a way to do it. We've brought into requisition a power before which all obstacles in merchandising melt as dew before the noon-day sun—it's the power of price, and it's making itself especially felt in our Furniture, Crockery and Departments. Remember everything in these lines must positively be closed out at some price—any price—and if you need anything of the kind, or if you expect to need anything within a year, it will certainly pay you to look these goods over.
