Untaxed Property in the United States

The property owned by the Roman Catholic church is set down at \$118,000,000; Lutherans, \$34,000,000; "Reformed," \$19,000,000; Jews, \$10,000,000; Friends, \$4,500,000. Presbyterians, \$95,000,000. The value of the property of Methodists, Baptists and Episcopalians is not yet given. But, already, the property used for worship alone owned by one hundred different denominations amounts to \$463,000,000. The three bodies named will add at least \$200,000,000 to this aggregate. This does not include parsonages, mannes, colleges, orphanages, Christian associations, etc. The extent to which the people tax themselves for religious purposes is very remarkable, and is a proof of the vitality of religion.

IOWA AIDS RUSSIA

Dr. Hubbell, Red Cross Field Agent, Makes His Report.

MANY HUMAN LIVES WERE SAVED

American Food Reached the Famine Stricken People in Good Time—A British Steamer Taken in Charge by the Rush—A New Schooner.

WASHINGTON, Aug. 5.—Dr. Hubbell, the general field agent of the American Red Cross society, has made a report of his work in Russia distributing the cargo of Iowa corn sent over in the ship Tynthead as follows: Before its arrival at Riga the cargo had been apportioned for distribution to eighty-two different persons, in as many different places, who were doing practical relief work in the famine districts. Also before the arrival of the ship the field agent had purchased 80,000 bags to enclose the grain before shipment to the interior in order to save waste in handling and to facilitate distribution. Those in charge of the relief committee requested the care-witch committee and the people of Riga that no public demonstrations be made in its reception, as the demonstrations given at the reception of the former relief ships had been sufficient to show their sentiments of gratitude for a relief that might follow. On arrival of the Tynthead, the governor, city officials, representatives of the Red Cross and the czarvitch committee, with the American consul, met them. He speaks of the workmen who unloaded the vessel in the highest manner. These men worked night and day without sleep for three successive days. The cargo filled 307 Russian cars. In one of the five compartments of the ship the corn was slightly heated. The bakers seemed so successful in using the corn that one would think they had always been accustomed to it.

The agent passed through at least ten of the famine stricken provinces, in most of which he found fair prospects for this year's crop. The typhus was found to be diminishing but smallpox was appearing and cholera begun its work in the southern provinces. He speaks very highly in praise of numbers of persons who were employed in relief work who refused fees and estates and individuals that expended money individually in quiet ways for relief. The vigorous measures of many local governments have done much to avert the suffering that must have followed without such aid while the general government has done, in its aggregate appropriations amounting to \$75,000,000, what no other government has probably ever done under such circumstances. Those who have been active in relief work say that without relief the sufferers must have perished by the thousands, but the aid reached them in time.

Cruiser No. 11. New York, Aug. 5.—The steel twin-screw cruiser No. 11, which has been undergoing construction at Harrison Loring's City Point works, is packed for launching and dredgers are busy employed deepening the water at the end of the ways to allow the vessel free and easy access to her element. As she sits on the ways she presents a beautiful appearance. Her smooth sides and symmetrical lines attract the eyes of all connoisseurs in naval architecture. The launch will take place on or about the 11th inst. at 1 o'clock, and as no attempt will be made on the part of the Loring's to make the occasion one of ceremony, a gala time is anticipated by the general public, this being the first war vessel launched in Boston since 1875.

A British Steamer Seized. SAN FRANCISCO, Aug. 5.—Advices state that the sealing schooner Winifred of Victoria, B. C., was captured in Bering Sea July 30th by the Rush and taken to Unalaska. Forty-five skins were confiscated. The steamer St. Paul arrived at Unalaska July 15, bringing Peter Verina, the only survivor of the three hunters who were left on St. Matthew's Island last year to hunt foxes and bear. The other two lost their lives early in May in making a trip to Hall's Island in a small boat. These are the men whose rescue the navy department ordered.

The Iron Hall. INDIANAPOLIS, Aug. 5.—The executive board of the Order of Iron Hall was engaged in secret in checking up the books of several officers for evidence on which to base counter affidavits to those which accompanied the complaint for a receiver. One member expresses himself as well satisfied with the progress made and the final outcome. Supreme Justice Somerby sent out a large number of circulars in answer to inquiries about the condition of the order, saying that the Iron Hall was solvent and that he was able to meet all charges against himself.

No Smallpox in Winnipeg. WINNIPEG, Man., Aug. 5.—Winnipeg citizens are indignant at the action of Governor Burke of North Dakota in raising a quarantine against Manitoba owing to the smallpox scare in the west. There are no cases in Winnipeg and the five that exist in Gretna, near the boundary, are convalescing. No new cases have occurred within ten days there. The statement telegraphed abroad that passengers will be stopped at the boundary is utterly without foundation, as trains from St. Paul come through to Winnipeg as usual.

Wheel Records Broken. SPRINGFIELD, Mass., Aug. 5.—The world's mile bicycle record was lowered to 2:11 flat by George Taylor, of the Manhattan Athletic club, in a time trial at Hampden park. The three-quarter mile world's record was also lowered and Zimmerman's world record for the half mile was lowered.

Big Yield of Wheat. ST. PAUL, Minn., Aug. 5.—It is estimated that the yield of wheat this year in Minnesota and the Dakotas will aggregate 125,000,000 bushels. If the weather holds good 10,000,000 bushels may be added to this amount.
