SIX millions of dollars went from the city treasury of Boston last year into the hands of Roman Catholic office holders of that city, and yet there are Protestants who maintain that this country has nothing to fear from the encroachment of Rome.

BETTER late than never. Chili, Paraguay, Uruguay and the Argentine Republic have abolished the parochial schools and established non-sectarian public schools. This is a move in the right direction, and will tend to lessen Rome's pernicious influence in those countries.

THE Grand Army of the Republic at the national encampment held at Pittsburg last week adopted a resolution urging the teaching of patriotism in the schools of the country and placing a flag on every school-house and in every school-room. A committee on patriotic teaching was also added to the standing committee.

On the second page of this issue will be found the full text of the declaration of principles, the platform and the resolutions adopted by the independent American citizens' party, September 12. A careful perusal of the same will repay any American citizen, and convince him that Chicago Americans have returned to first principles. May the new party live and prosper.

OUR friends in the Sixth ward are fortunate this year in having two good men out for the school board. Mr. Deegan and Mr. Froom are the gentlemen being pushed forward by their friends. Mr. Deegan is employed in the U. P. headquarters, and Mr. Froom is the associate editor of this paper. A man who has labored on this paper needs no introduction to the Sixth ward republicans or the friends of the public schools in this city.

THE only simon-pure republican paper of this city goes into convulsions because Hon. T. J. Majors attended the re-union of old soldiers at Bennington the first of this week, and was seen in company with Mr. Herman Timme. Now why should not Mr. Majors assoclate with Mr. Timme? Timme is a representative German and a republican. Probably the editor who hates Majors also hates the Germans, or is afraid he cannot hoodwink them into voting as he wishes and desires to have it understood that a decent man cannot associate with our German fellow citizens without losing his dignity.

BRYAN'S CANDIDACY.

That W. J. Bryan will be the choice of both the populists and the democrats in the next legislature for the position of United States senator very few people will attempt to controvert. But that should not be so. Bryan should not be folsted upon the people. His record at Washington does not justify the blind enthusiasm which his words produce. While there as congressman from the First congressional district he accomplished nothing that would benefit his constituents. He did act, however, in a way that should cause him to be censured by every American citizen no matter what his political affiliations. He voted to appropriate over \$400,000 of public money for sectarian uses. Voted to place nearly half a million dollars in the hands of alien Roman Catholic priests with which to convert the Indians, not into good American citizens, but into obedient Roman Cathlies. And this money was voted out of the national treasury without any warrant of law, and contrary to the wishes of a large majority of the people of this state.

But this is not the only reason we say Bryan should not be the choice of the democrats and the populists in the next legislature. We have a better one. He is to be the champion of ecclesiastics, otherwise we cannot account for the presence in this city of a horde of Roman Catholic priests a few days before the democratic primaries, for their secret meeting at night in the basement of Creighton college last Tuesday evening, or for their activity in going from house to house Thursday afternoon while the democratic primarles were being held. This is not guess work with us. We saw it with our own eyes. of the delegates whom Bryan states were for him for United States Senator, more than two thirds of the number bear Roman Catholic names. The list as published below-except that from the First ward, and Bryan claims three of them- is the same one which appeared in Mr. Bryan's paper, the World The following is the list referred to

P. A. They state that "those names and addresses were committed, as a sacred trust, to the keeping of but two men, Mr. Gestefeld and the secretary of the board." and "whoever secured them must have taken them from a register in the possession of either one of these men, and which had no right to be out of their possession."
