

AN AMERICAN PARTY.

Patriotic Citizens of Chicago Form The Independent American Citizens' Party.

Declaration of Principles, Platform and Resolutions Adopted at a Mass Convention Held in Central Music Hall.

We believe the time has come when all who love our nation and its institutions and are true to its flag, in order to be faithful to their obligations as citizens, must take concerted action as a free and independent voting bloc in the arena of politics...

We believe that a crisis is upon us which threatens the overthrow of popular government; that a military ecclesiasticism such as marked the medieval ages, supported by the imperialism of dishonestly acquired wealth, has gained control of our political machinery...

Our flag, too, is dishonored at home and abroad and our institutions are attacked, our legislative bodies are corrupted, our courts of justice are intimidated and used to clear the guilty and condemn the righteous...

We believe the present to be the right time and Cook county the right place in which to raise a standard representing faith in American institutions, purity in municipal, state and national government...

ONLY TRUE AMERICANS WANTED. We believe the time has come when in order to meet the danger that threatens our institutions America should be ruled by those who by birth or honest adoption have become citizens...

We recognize the fact that there is an awakening abroad among honest citizens born of the spirit of patriotism which demands attention. Protection for American institutions, for the nation's flag and honor and for its educational system has become a living issue during the last few years...

We believe the time has come when the American citizen who is true to the vital principles which underlie our system of government must break away from the political bossism and corrupting intrigue which control the two old parties in national, state and municipal politics...

We believe that partisan politics is undermining our institutions to such an extent that the virtue and morality by which only popular government can subsist are no longer known quantities among party leaders. This, the very foundation of American liberty, is disappearing and the great governmental machine destined by the patriot fathers as a means by which our free and humane institutions should be perpetuated from generation to generation is being turned into an engine for their destruction...

HOODWINKED BY BAD PROMISES. We believe that honest citizens, men who desire to perpetuate a government of the people, by the people and for the people, have been grossly deceived and hoodwinked from time to time by cunningly designed platforms and fair promises made by party leaders and manipulators...

We believe that the time has come when, in justice to ourselves as true and independent American citizens and out of regard to the fathers of our institutions and with respect to the graves of the heroes who laid down their lives to protect them and preserve

us a nation and an unsullied flag, we should arise in our might as one man, casting off the chains of partisanship, and rebuke and punish the political wire-pullers, the treacherous ring bosses and professional hoodlums who run the partisan machines of both the democratic and republican parties for their criminal dishonesty, in the conducting of public affairs. And, further, that the parties which they have corrupted and demoralized should be relegated back into that oblivion from which they have sprung at the people's command. They have become the tools of a foreign and un-American balance of power which openly avows its purpose to be the overthrow of our liberties, and hence have ceased to be virtuous and moral channels through which the true citizen can exercise his franchise without the moral taint of treason. Furthermore, they have become instruments by which their respective bosses have by corrupt means perpetuated their power for official aggrandizement and dishonest gain. In them the people have been blindly led to endorse administrations and leaders who have betrayed the sacred trusts bestowed upon them, and who have catered to a dangerous and unconstitutional controlling power in whose interests legislation has taken place, to the neglect and damage of the true citizen.

EITHER PROTEST OR BECOME CRIMINAL. We believe that to longer suffer without organized protest political scoundrels to reward themselves for their treason to our institutions by the dishonest spoils of office would be to endanger our self-respect and destroy our American manhood. Our knowledge of partisan machine political maladministration compels us to either oppose and stand on guard or become partakers with the political criminals whose business is treason against the people's rights and liberties.

We believe the present to be the right time and Cook county the right place in which to raise a standard representing faith in American institutions, purity in municipal, state and national government and protection to the magna charta of American independence among the people, that they may gather about American principles and help to bring success to honest issues by exercising their voting franchises for the election of honest representative men, whose love of country is greater than their partisanship, men who are pledged to stand by our institutions and the principles which they involve, such men as would rat or suffer defeat than gain victory at the expense of liberty and by conniving at treason, men who are Americans by birth or honest adoption and whose franchise can neither be bought nor sold, representatives who will represent the American people and not a foreign prince.

We believe no standard will be more acceptable to the great mass of true American citizens who have in response to the call of patriotism thrown off partisan shackles and hoodwinks than that which bears a name which expresses the independence of the American voter, and that is the independent American citizen's party.

Platform. CIVIL SERVICE. Civil service reform should be extended to all grades of public service—town, city, county, state and nation. Fitness and not partisan or sectarian service should be the essential tests, fidelity, efficiency and true Americanism the only sure tests of office. The spoils system, by which lucrative offices are doled out as a reward for un-American and ecclesiastical support to political parties, is a dangerous enemy to our institutions and good government.

MONEY. Money should consist of gold, silver and greenbacks. All paper money should be issued by the government directly to the people in the form of national greenbacks and certificates of deposits issued from a system of postal savings banks, in sums of \$10 and upward, thus giving the people the same advantages now conferred by the government upon national banks. All moneys issued by the United States should be a full legal tender for all debts, both public and private. The purchasing or debt-paying powers of any dollar coined or issued by the United States should be made and kept the equivalent of that of any other dollar so coined or issued.

IMMIGRATION. Our immigration law should be so changed and immigration restricted that it will protect our citizen laborers from the evil influence and unequal competition of pauper and criminal labor, which, through the instrumentality of European propagandist societies and the subtle assistance of their ecclesiastical agents here, are rapidly supplementing our free and enlightened American citizens in every line of industry, and by their illiteracy and the superstitious, un-American influence which control them are becoming a menace to our liberal institutions.

TRUSTS AND MONOPOLIES. The concentration of wealth in the hands of the few means the impoverishment of the many, and as a consequence their enslavement; therefore, the vigorous prosecution and abolition of all trusts now existing in violation of state and United States statutes is demanded, and the further suppression of all trusts and combines, such as the sugar trust, the cordage trust, oil trust, the whisky trust, etc., which are designed to enrich the few at the expense of the many, and which are in their nature and results contrary to the spirit and genius of our national institutions, laws and government.

TARIFF. A tariff for protection, honestly administered, is necessary for the encouragement of our infant industries. That the calamitous

financial results occasioned by the frequent partisan agitation and changes in the tariff may be avoided, there should be appointed a non-partisan commission on tariff composed of representatives from the different branches of business and labor, whose duty it shall be to regularly recommend to congress such changes in tariff laws as will preserve and protect the people in contentment and prosperity, and maintain the government, and thus take out of partisan politics this economic question which has no proper place there.

PUBLIC FUNDS. Public funds, secured from the taxes and burdens bearing the heaviest upon the common people, are being diverted from their legitimate purposes and used for the corruption of political partisan voters and political machine organizations. By strong legislative action we should demand of our public officers, who are entrusted with the public funds, an honest and scrupulous care of the people's money and compel them to pay into the public treasury every dollar of interest earned on all such public funds. That all religious and sectarian conflicts between our citizens may be avoided and public funds be properly applied there should be no appropriation whatsoever of any public funds to any sectarian institution of any kind whatsoever, and all church property should bear its just proportions of taxation.

LABOR. Labor existed prior to capital, and is therefore independent of capital. The conflict between labor and capital will be closed only when labor emancipates itself from the rule of professional agitation and machine politicians. Capital and labor are absolutely necessary to each other. The rights of each will ultimately be best served by an honest ballot, and not by the aid of the bayonet. Capital is the fruit of labor, and its surest safeguard is in the loyalty of labor to its fruits. There should be a system of effective legislation which will insure by arbitration the rights of labor and capital alike and secure justice to employer and employe.

UNITED STATES SENATORS. In order to conserve the rights of the people and insure a continuation of a government based upon the "Vox populi, vox Dei" sovereignty of the people and keep them in direct touch with the legislative department of government, United States senators should be elected by the direct vote of the people.

PUBLIC EDUCATION. As the quality of a republican form of government is either good or bad according to the intelligence of its people we demand that all national, state and municipal non-sectarian public schools and institutions of learning shall be protected from all sectarian interference, and that no sectarian school or institute of learning shall at any time nor under any circumstances receive public money for their support, nor shall any sectarian school or institute of education be at any time declared a public school for the purpose of drawing public moneys.

PUBLIC CHARITIES. We demand that all institutions of charity which receive public moneys must be non-sectarian and under the complete control of the nation or state, and that no sectarian institution of charity shall receive support by grants of public money or land or their equivalents.

CITIZENSHIP. No foreigner coming to this country should become a citizen until he has had a continuous residence of not less than five years in the country, and has foresworn his former allegiance to prince or potentate who claim temporal sovereignty, be he a civil or ecclesiastical sovereign, nor shall such naturalized foreigner be permitted to exercise the voting franchise until he can read in the legal language of the country the Constitution of the United States, the Declaration of Independence, and the Constitution of the state in which he resides.

COUNTY AND CITY. The independent American citizen's party pledges itself that if its nominees are elected the gambling dens and cesspools of vice which have been permitted to run riot under the reign of both parties when in power, in defiance of law and public morality, will be suppressed so far as it lies in the power of the county officials so to do. We believe a law should be passed which would compel the recognition by the mayor and chief of police of the complaint of any ten reputable citizens who at any time may charge that unlawful business of a criminal and demoralizing character is being carried on within the city limits, and which would, in case the said officials refuse or neglect to investigate according to law such charges and if sustained shall take measures to abate such unlawful and criminal business be sufficient ground for an action in impeachment of either or both of said city officials.

Whereas, It is a fact that at several of the state conventions of the democratic party there have been resolutions adopted denouncing all secret political orders, and especially the American Protective Association, and thereby in fact declaring that they were opposed to all patriotic orders; and,

Whereas, The populist party in convention assembled has also at different times and places, by resolutions or otherwise, declared itself opposed to such organizations as above mentioned; and,

Whereas, Several leaders of the republican party have by public utterances expressed themselves as opposed to such organizations; and,

Whereas, No political party, up to date, has in any way shown a disposition to defend such patriotic associations by word or act; be it therefore, Resolved, That we, the Independent American citizens party in convention assembled, hereby indorse any and all patriotic associations, political or otherwise, which have any or all of the following sentiments embodied in their declaration of principles, to-wit: Protection to our constitution and laws. Protection of the stars and stripes. Protection to the free public school system of our nation; radical revision of the naturalization laws; restriction of emigration; absolute separation of church and state; no public funds for sectarian purposes and be it further

Resolved, That a copy of these resolutions be mailed by our secretary to each of the patriotic newspapers throughout the entire United States.

HISTORY MADE BY LUCK.

Many Notable Events Have Occurred Because of Trivial Occasions. Dr. Lafferty, of New Orleans, recently delivered a lecture on "Lee's Lack of Luck." The doctor told how two English snobs, at a restaurant in Paris, by their sneers drove Murat out of service as a waiter and through this accident Murat became marshal of France and king of Naples. Samples of lucky accidents were numerous in ancient and modern history and there were also many examples that went to show how many of the ancients believe in good luck or good fortune. Napoleon had lost Waterloo through the mere accident of bringing on an attack of sick headache through eating onion and lamb against the advice of his physician.

In 1896 a quarrel between Conkling and Blaine decided the presidency of the United States many years afterward, when Blaine ran against Cleveland. Abraham Lincoln, after being a member of congress, desired to secure a clerkship in Washington, but he was defeated by Justin Butterfield. He was disappointed, but had he not been defeated he would have spent his life in obscurity instead of becoming president of the United States.

Oliver Cromwell was once on board a ship bound for America, but he was taken back by a constable, and the result was that he became one of the greatest men England ever knew. Ulysses Grant would not have been a military man had it not been that his rival for a West Point cadetship had been found to have six toes on each foot instead of five.

The great silver mine, the "Silver King," had been discovered by the lucky accident of a prospector throwing a piece of rock at a lazy mule.

ROME'S SENTIMENTS.

"The state has no right to educate; and when the state undertakes the work of educating, it is usurping the power of the church."—Bishop—McQuaid. Protestantism has not, and never can have any rights where Catholicity is triumphant.—Catholic Review.

"We are purely and simply Catholics, and profess an unreserved allegiance to the church, which takes precedence of, and gives rule to, our allegiance to the state."—Catholic World. "Catholic votes should be cast solidly for the democracy at the next election. It is the only possible hope to break down the school system."—Toledo Catholic Review.

"The Roman Catholics of the United States owe no allegiance to any principle of the government, which is condemned by the church or pope."—Tablet.

Rev. J. Hogan, of Kansas City, Mo., says: "That the sacraments are to be refused to Catholics unworthy of the name, who in the education of their children patronize the public schools."—Judges of Faith, page 103.

"It will be a glorious day for the Catholics of this country when under the blows of justice and morality our school system will be shattered to pieces. Until then modern paganism will triumph."—Cincinnati Catholic Telegraph.

"Foxe's Book of Martyrs" should be in everybody's library. You can get a cloth-bound volume of nearly 1,100 quarto pages for \$2.50. It is worth double this price to any student of history. Send your orders to American Publishing Company.

A Chance to Make Money. I have had wonderful success selling Dish Washers. Have not made less than \$8 any day, and some days \$15. Nearly every family buys one. They are cheap, durable, and do the work perfectly. You can wash and dry the dishes for a family in two minutes, without touching your hand to a dish. I believe any lady or gentleman, anywhere, can do as well as I am doing, as I had no experience. Anyone can sell what everyone wants to buy, and every family seems to want a Dish Washer. Write to the Iron City Dish Washer Co., E. E. Pittsburgh, Pa. They will send you full particulars and help you as they did me. I do not write my experience boastfully, but because I think it a duty I owe to others in these hard times. MARTHA B.

We are Catholics first and citizens ext.—Bishop Gilmore.

Education must be controlled by Catholic authorities, even to war and bloodshed.—Catholic World.
