School Question May Disrupt the Canadian Government.

hould the Combined Forces Defeat the Measure it Will Mean Immediate Dissolution and an Appeal to the Country.

OTTAWA, Ont., Jan. 1 .- The sixth and last re-sion of the reventh parliament of Canada opens tomorrow. The proceedings of the first day will be limited to the opening ceremonies. After these both houses will adjourn until Tuesday next, when the debate will be commenced upon the address in reply to the speech from the throne. It is likely to develop a spirited discussion, for Liberal hopes run high as the result of recent victories in the by-elections. Interest centers, of course, in the is-

sue of the Manitoba school question measure, which is to be submitted to parliament, dealing with that subject. The division upon the remedial bill, as it is called, will certainly be the great event of the session. The question is already being asked: "Will the government be able to carry it through the house?"

Against the bill will be ranged the solid strength of the opposition, including the McCarthyltes, reinforced by Clarke Wallace, chief of the Oran order, and many other Conservativ who have broken with the governme on this question. Should these ford successfully combine to defeat measure, as they likely will, it w mean the defeat of the governme immediate dissolution, an appeal to t country, and the probable return the Liberals to power. In any eve the final session of the present parl ment is bound to be a memorable o

Earl Aberdeen will devote seve paragraphs of his speech from t throne at the opening to-morrow t reference to his tour of the northwe and British Columbia. His exceller will dilate upon the mining develo ment in British Columbia, the advancement of the Indians under the tutelage of the interior department, and the necessity of keeping up the northwest mounted police force.

In regard to the fast Atlantic steamship service and the Pacific cable scheme the governor will say that the government has learned with satisfaction that it is the intention of the British secretary of state for the colonies to appoint a committee to consider a proposed Pacific cable to connect Canada with Australia. Parliament will no doubt share the gratification with which the government welcomes these announcements as affording further evidence of the desire of her majesty's government to draw closer to each other and the mother land the outlying BOBT. Parliament will also be informed that the commissioners appointed by Great Britain and the United States for the purpose of delimiting the boundary be tween Alaska and Canada have concluded their labors and have signed a joint report for presentation to their respective governments. Parliament will also be asked to consider measures for the extension and development of our trade in agricultural products with the United Kingdom and other markets

7

The speech from the throne will contain also a reference to the bountiful harvest, the improvement in trade, and the recent satisfactory increase in the revenues. Measures will be promised to increase the parliamentary representation of the northwest territories and to amend the copyright laws.

So serious is the threatened split in the Conservative party over the policy of introducing a federal act to impose separate schools upon Manitoba that the impression is abroad to-night that no promise of such legislation will be made in the governor's speech to-morrow, but I am assured his excellency will make definite announcement of the introduction of a remedial bill.

Immediately after the prorogation of parliament he will say: "The government communicated through the lieutenant-governor of Manitoba with the governor of that province in order to ascertain upon what lines the local authorities of Manitoba would be prepared to promote amendments to the acts respecting education in schools in that province, and whether any arrangement was possible with the Manitoba government which could render action by the federal parliament in this connection unnecessary."

Regret will be expressed "that the advisers of the lieutenant-governor have declined to entertain favorably these suggestions, thereby rendering it necessary for the federal government in pursuance of its declared policy to Introduce legislation in regard to this subject."

Send me a silver dime, and I will send your name and address to over 30 of the leading patriotic and other reform papers, and you will receive sam-ple copies of each for reading and dis-tribution. J. H. PADGETT, Ennis, Texas. ORANGE PRINCIPLES.

On behalf of the Loval Orange Lodge of the United States of America."and with a view of correcting the false impression that tes are endeavoring to convey to the minds of men who are unacquainted with Orange principles, are these few statements

The Loyal Orange Institution is a brothe hood and sisterhood, bound by three tice-Justice, Truth and Righteousness. It has no hidden aims

It is Fraternal and Benevolent-assisti and protecting members while living and their widows and orphans when they are removed by death.

It upholds the right of private judgment-the untrammelled freedom of opinion; be-lieves the public schools are an essential eguard of the state, and should be kept free from ecclesiastical or sectarian contro and that persons disloyal to the governmen -who hold a mental allegiance to the pope of Rome-should be rigorously excluded from teaching therein.

It believes primary allegiance is due to the government which protects the lives, liberties and properties of its citizens, and that ecclesiastical authority should not under any circumstances, be permitted to meddle in the affairs of state, and that coorciou of a citizen in the exercise of his or her right of franchise, under the guise of religious or spiritual authority should be pun-ished as a crime against the state.

That it is the duty of every citizen to de fend the lawfully constituted authority and institutions of our country against corrupt and inimical influences, as well as against armed assailants, to the end that our giorious freedom be protected and transm

unimpaired to posterity. It encourages habits of frugality and in dustry among its members, and is proud to ast that Orangemen seldom be

ublic charge or accept pauper bread. It believes in the restriction of immigration and the extension of time for the natur

alization of citizens, and that the public ands shall be held for actual American citisens who become settiers. The Loyal Orange Institution of the

United States of America has certain requirements for membership: That a man shall be an actual American

citisen, having complied with the laws of the United States with regard to naturalisation and without a mental reservation.

That the applicant shall be a Protestant, and also that his parents and wife shall be

That he shall be thrifty and successful in his business; honorable and truthful in his dealings with his fellowman, and shall be known as a law-abiding citizen.

known as a law-abiding citizen. That he will endeavor to give his children or any children under his charge at least a good common school education, being care-ful to avoid all popish doctrines, and That he shall be in sound health at the time of making application. It makes no difference where a man was born, so long as he meets the foregoin requirements. These are the qualifications required o every applicant to the order, and we do not think that any patriotic American order can offer a bester array of urinciples and teach-ings.
