AN UP-TO-DATE, ABSOLUTELY CORRECT, BEAUTIFULLY ILLUSTRATED

Atlas of the World

Especially prepared to meet the wants of Farmers, Merchants, Mechanics, Clerks, Students, Women, and all who desire a complete work at the minimum cost.

Nearly 70 Comprehensive Maps. 140 New and Superb Illustrations. A Whole Library of Itself, of vital and absorbing interest to every member of the household. Population of each State and Territory, of all Counties of the United States, and of American Cities with over 5,000 Inhabitants.

IT CONTAINS much special information regarding any Nation, Province, State, City, Town or Village desired. The knowledge is rarely obtainable from a school geography, which necessarily has only a few general facts and the location of important cities. Railroad maps are notoriously incorrect and misleading, hence the puzzled truth-seeker, where large libraries are inaccessible, is without relief unless he is the happy owner of a knowledge-satisfying, pleasure-giving People's Atlas. All Countries on the face of the earth are shown. Rivers and Lakes are accurately located. All the large Cities of the World, the important Towns and most of the Villages of the United States are given on the Maps. It gives a classified List of all Nations, with Forms of Government, Geographical Location, Size and Population.

This beautiful Atlas is bound in heavy paper cover, and will be sent to any address upon receipt of 50 CENTS. AMERICAN PUBLISHING CO.

THE PROMISED LAND.

Why the Tourist, Traveler and Student Should Visit Utah. There are two reasons, either one of which ought to be conclusive with every American citizen. First—The trip from Denver to Utah via Rio Grande Western, "Great Salt Lake Route," is the grandest to be found anywhere on the continent. No European trip of equal length can compare with it in variety and grandeur of scenery and wealth of novel interest. Second—You should go because, when you have made this wonderful trip, you will find Utah at the end of it—Utah, one of the world's famous spots, and a land of gold, silver, copper, iron and coal; of lofty mountains and fertile valleys; of vineyards, fruits and flowers. Salt Lake City, the capital, is of great interest on account of its historical and religious associations. Here are Hot Thermal Springs, Warm Springs, Sulphur Springs, Sanitarium, Parks, Drives, Canyons and the most healthful climate on earth. Great Salt Lake, with the new and beautiful Saltair Beach Resort, of Moorish design, has no equal in America. Write to F. A. Wadleigh, Salt Lake City, for copies of pamphlets, etc.

\$200.00 IN GOLD GIVEN.

Of Special Interest to Students and Teachers. R. H. Woodward Company, of Baltimore, Md., are making a most liberal offer of \$200.00 to anyone who will sell 200 copies of "Gems of Religious Thought," a new book by Talmage. This is one of the most popular books ever published. Three editions sold in 90 days. Agents sell 10 to 15 copies a day. An Estey organ, retail price \$270, given for selling 110 copies in 3 months. A \$100 bicycle given for selling 80 copies in 2 months. A gold watch for selling 60 copies in one month. This premium in addition to commission. Complete outfit 35 cents. Freight paid. Credit given. Agents wanted also for "Talks to Children About Jesus." One hundred and fifty thousand copies sold, and it is now selling faster than ever. Same terms and conditions as on "Gems of Religious Thought." Other popular books and Bibles also. They offer special and most liberal rates to students and teachers for summer vacation. During last summer a large number of students and teachers canvassed for their books. Among the list there were 23 who made over \$200, 57 who won the \$200 premium, and 76 made over \$150 for their summer work. Write them immediately.

UTAH—THE 45TH STATE.

The Homeseeker's Promised Land. The territory of Utah entered the Union of States on January 4th, 1896, with a population of about 200,000 people and a climate unsurpassed in the wide world. It is richer in agricultural resources than any other state. It has within its borders nearly all of the known minerals and metals—gold, silver, copper, iron, tin, etc., in abundant quantities. It has, best of all, a health-giving climate, always temperate in summer and in winter. It has hot sulphur springs, and is in fact one large sanitarium. Utah is the ideal place to build a home in which to spend the balance of your days, surrounded by farm and orchard which guarantee all the necessities and most of the comforts of life. There are millions of such homes now awaiting settlement. Send to F. A. Wadleigh, Salt Lake City, for copies of Utah pamphlets. It will pay you to post yourself on the merits of the new state, which has been amply termed "The Promised Land."

What C. A. Potter Says.

OMAHA, Neb., Aug. 31, 1895.—The Howard Medicine Company.—Gentlemen: I desire to say to all who feel the strength of their manhood slowly slipping away, whose ambition is at its lowest ebb, whose mind is beclouded, and the senses dulled, when you feel dyspeptic, and lose your self-respect, that your blood is out of order, and all you need is some of Howard's Vegetone Blood Powder to tone up your system. It will act almost instantly upon the blood; you will feel the renewed life and vigor coursing through your system; you will feel the old-time grip in your hands; your mind will be as active as ever; your friends will observe the flag of health flying in your face, and you will feel like a new being. I have not felt so well for five years as I do since taking one package of your Blood Powder, and I feel as strong and active as ever. I weigh 15 pounds more than ever in my life. The change is so marked that it is the subject of comment when meeting my friends. I recommend Howard's Vegetone Blood Powder to be, as I believe, the greatest blood-purifier on earth.

Performing a Burglar.

A man named Frank March recently broke into a doctor's house in Camberwell, England. The doctor happened to be in and he at once hurled a bottle containing peppermint at the intruder. March, who was seeking money, got nothing but a scent. It clung to him when he was taken before the Lambeth magistrate. The odor of the peppermint had been the clue that led to his arrest. The circumstantial evidence against him is, literally, strong, as the Camberwell doctor never dilutes his peppermint. The housebreaker will set up the defense that peppermint is a pleasing perfume and that he cannot therefore be considered in bad odor.—New York World.

Dr. Kay's Lung Balm

For coughs, colds, and throat disease

THE WIZARD AND THE WHIP.

He Performs Some of the Most Marvelous Tricks With It. A decided sensation has been created in Vienna by a man who probably stands alone in this world in his particular line of performance, says Tit Bits. This gentleman's name is Piskslug and he is an Austro-Hungarian by birth. He is an expert, or rather a phenomenal artist, in the use of the whip.

The first thing he does is to take a long lashed, stout handled whip in each hand and, with orchestral accompaniment proceed to crack or snap them at a terrific rate. The sound made by his whips in this manner is graduated from a noise like a rifle report to the soft click of the billiard ball. It makes a curious sort of music and serves to show how he can regulate the force of each stroke.

More interest, however, is evinced when he seizes a vicious looking whip with an abnormally long lash. It is provided with a very heavy handle of medium length. This is his favorite toy and what he can do with it is really wonderful. He first gives an idea of what fearful force there lies in a whip lash in the hands of an expert. A large frame, over which is stretched a calf or sheep skin, is brought on the stage. This is marked with dots of red paint. The man with the whip steps up and swinging the lash around his head lets fly at the calf skin. With every blow he actually pulls a piece right out from the leather, leaving a clean cut hole.

HOW TO TREAT PIANOS.

Half the Instruments in this Country Catch Winter Colds. Half the pianos in this world catch winter colds exactly as we do, says the New York Mercury. They get hoarse, or have a cough, or a stiff note, or some similar complaint which cannot be cured by home remedies, but require tedious and expensive doctoring. In order to prevent these avoidable ailments it is as well to know how to take care of the Piano. Each spring-cleaning housewife who is having the domestic piano "put to rights" during her present upheaval of the household should very carefully observe the instrument. A piano should be kept in a moderately warm room where the temperature is even, say 60 or 70 degrees, the year round; not cold one day and hot the next. The instrument should not, however, be too near the source of heat. It should be kept closed and covered with a felt cloth when not in use, particularly in frosty weather.

Always place the piano against an inside wall and a little out from it. When tuning or repairing is necessary employ a responsible and expert workman. Do not allow children to drum on it. A professional musician may expend a like amount of strength upon the keyboard but if the right keys are struck much less harm is done than when children amuse themselves. Avoid littering the top with bric-a-brac, as it affects the tone of the instrument.

A well-known maker recommends that the case be frequently wiped off with a chamolis skin wrung out in tepid water. Where the case is very highly polished and dark this is absolutely necessary and little else will serve to remove the dust which settles in the fret work.

To remove finger marks and blue mold, mix thoroughly two tablespoonfuls of salad oil and one tablespoonful of vinegar. Rub on a little of this mixture with a soft rag and polish with a woolen cloth.
