

SPAIN UNDER GUARD.

RIOTING IN THE PROVINCES CONTINUES.

IN DREAD OF REVOLT.

Day and Night Cavalry and Infantry Patrol the Streets and Public Buildings—Republicans and Carlists Leaders Say They Can Hold Their Supporters in Check No Longer.

MADRID, May 6.—The troops are held in the barracks ready to march at any instant against the mob of the revolutionists. Cavalry and infantry patrol the streets from nightfall to sunrise. All the public buildings are crowded inside with foot and mounted police.

In the rest of the kingdom the precautions, though less visible, are equally strict because the court and the government apprehend graver movements still if a fresh reverse occurs in Cuba or to the fleet.

The chief fear is of a popular revolution, which everybody can see is brewing. The civil authorities in Madrid got so alarmed at the attitude of the Republicans and Carlists that they frankly told Senor Sagasta they could not answer for order much longer.

If national feeling runs too high against Senors Sagasta and Moret, who really are in the most danger, the queen probably will ask Marshal Campos to form a sort of government for the defense of the monarchy. The old marshal has told her that he will be ready to do so directly she sends for him. So the days of the Sagasta cabinet are numbered.

The situation in the provinces is unchanged and everywhere the dissatisfaction is growing, especially over the price of bread. Acts against authority are becoming more and more overt. At Caesars, capital of Ester Madura, the populace marched into a railway station to prevent the export of provisions and overpowered the soldiers on guard, capturing fourteen loads of wheat flour.

In the town of Augilas, in the province of Murcia, a mob mostly composed of women, burned the store houses and offices.

This morning a mob of about 8,000 striking miners made a tumultuous demonstration at Murcia. They shouted, "Death to the thieves!" "Down with the taxes!" and attempted to set fire to the railroad depot and other buildings and then began a movement towards Carthagena. A strong force of troops, however, prevented the rioters from moving on the port. A number of men were wounded. Disturbances are also threatened at Carthagena, where martial law has been proclaimed.

Similar scenes have occurred at Oviedo and Leon and at a number of other towns where factory hands have struck work. The strikers are parading the streets, demanding cheap bread and are stoning houses.

Missouri Wins in Debate.

COLUMBIA, May 5.—The joint debate last night between the University of Missouri and the University of Nebraska was won by Missouri. The question discussed was, "Resolved, That the Annexation of the Hawaiian Islands Would Be Beneficial to the United States." Missouri had the affirmative. Missouri was represented by George H. English, Lee Higley and A. V. Coppidge. Nebraska by Mr. Taylor, Mr. Kimpley and Mr. Hawfby.

A Naval Surgeon in Disgrace.

WASHINGTON, May 6.—Frederick W. Ocott, past assistant surgeon, attached to the United States steamship Mohican at Honolulu, was convicted by a general court-martial of drunkenness, neglect of duty and violation of naval regulations regarding the ship's medical journal, and sentenced to lose six months in his grade and be suspended from duty for one year and a half on shore duty pay.

Advice Sent to Dewey.

WASHINGTON, May 6.—Anticipating early communication with Commodore Dewey Secretary Long sent to Hong Kong yesterday a long cablegram containing instructions for the future guidance of the American naval officer. This message, it is believed, related to the plans made by this government for immediately dispatching troops to his assistance should he deem such action necessary.

New "War Risks" Written.

LONDON, May 6.—War risks on stocks at Lloyd's to-day include small premiums on the possibility of war complications between France and the United States or between France and Great Britain. No significance is attached to the matter, but business of that character has actually been done.

Took the Whole Family.

KANSAS CITY, Mo., May 6.—Chief Hayes was ordered this morning to arrest Thomas Keeper, a cook of this city, for sloping with the wife of J. M. Whitley of Independence. Keeper ran away last night with Mrs. Whitley, taking with him the entire Whitley family of five children.

Son of President Hayes a Major.

CLEVELAND, Ohio, May 6.—Troops A, B and C, First Ohio volunteer cavalry, left for Columbus to-day. Among the officers is Webb C. Hayes, son of the late President, who is an acting major.

OUR NEW ISLANDS.

Philippine Exports to This Country Average \$1,000,000 a Month.

WASHINGTON, May 6.—The understanding at the state department is that Consul Oscar F. Williams, our representative at Manila until the recent war began, is now aboard the flagship Olympia in Manila harbor, having accompanied Commodore Dewey from Hong Kong, so that advice may come from him to the state department as well as from Commodore Dewey to the navy department. A mail report from Consul Williams reached the state department recently under date of Manila, February 28, last. It gives a full description of the Philippine islands, their resources, growth of American trade, etc., and will be incorporated in the next volume issued by the bureau of statistics of the State department. Mr. Williams' report says:

"Local and European authorities estimate the area of the Philippine islands at 150,000 square miles, and their population at 15,000,000.

"The island of Luzon, on which the city of Manila is situated, is larger than New York and Massachusetts, and has a population of 5,000,000, and the island of Mindanao is nearly, if not quite, as large. There are scores of other islands. An idea of the extent of the population of the Philippines may be formed when it is stated that the six New England states and New York, New Jersey, Maryland and Delaware have 10 per cent less area and population."

He says the exports to this country average \$1,000,000 a month.

WAR IS COSTING DEARLY.

This makes a total of \$137,312,184.39, to which is added 10 per cent, making the grand total as above.

The Continental Press.

LONDON, May 6.—The Continental press notices a broadening political ambition of the United States, coupled with the increasing friendship between Great Britain and the United States, with ill-concealed aversion. Intervention rumors are again in the air.

Admits Autonomy Is a Farce.

MADRID, May 6.—In a striking speech in parliament Romero Robledo, leader of the Weylerites, said Cuban autonomy was a farce, and called on all classes of Spaniards to defend the king and fatherland against Spain's international enemy.

What the Powers Don't Like.

LONDON, May 6.—None of the powers like the idea of the United States becoming a near neighbor of Japan, and the fear of further American victories is likely to give a cohesion in which the powers hitherto have been sadly lacking.

Don Carlos Proves Loyalty.

LONDON, May 6.—According to dispatches from Brussels, Don Carlos declares he will not provoke a revolutionary movement. On the contrary, he will prevent a Carlist agitation while war continues.

Europe to Protest.

More Rumors of War.

LIMA, Peru, May 6, via Galveston, Texas.—The Chilean-Argentine question is rapidly assuming an acute stage. The Union of Valparaiso says: "Chile wants a settlement and offers peace or war, one of the two, sharp. Argentine must choose."

Will Prevent Exportation.

LONDON, May 6.—A Madrid special says the cortes will prohibit the exportation of corn, flour, rye, maize and potatoes. It will also suppress the import duty on them.

NO NEWS FROM DEWEY.

ABSOLUTELY NOTHING AS YET FROM MANILA.

NAVY MEN INDIGNANT.

Angry Over the San Francisco Dispatch Which Said That Dewey Had Lost Two Hundred Men—Cable Company Says No Dispatch Has Come From Manila Since Monday Morning.

WASHINGTON, May 6.—The officials of the navy department, from the secretary down, are thoroughly indignant at the character of the stories coming from San Francisco as authentic accounts of the engagement of Commodore Dewey at Manila. One in particular excited indignation, that ascribing to Admiral Kirkland at Mare Island the receipt of a telegram from Commodore Dewey describing the terrible mortality on his own fleet resulting from the battle of Manila.

Captain Crownshield, chief of the navigation bureau, declared that it was utterly impossible for news from the fleet to come in any such fashion, and added that, as the department's facilities for the receipt of information from Commodore Dewey's squadron were superior to those of any individual, it was utterly improbable that they could receive news before the department itself. Such dispatches as that complained of, he said, were cruel and senseless and inflicted great misery upon the wives, mothers, daughters and other relatives of the brave sailors of the fleet, who are anxiously waiting to hear from them.

VALLEJO, Cal., May 6.—Admiral Kirkland stated to-day that the report that he had received a message from the navy department at Washington saying that 200 men were killed on the cruiser Baltimore was untrue. The admiral said he had received no word from Washington and knew nothing about the fight at Manila, except reports already published.

LONDON, May 6.—The officials of the Eastern Telegraph company, when questioned to-day regarding the report that a dispatch from Commodore Dewey had reached Washington, said: "Neither President McKinley nor any one else has received a message from Commodore Dewey."

Such a message, it is explained, must necessarily be transmitted over the lines of the Eastern Telegraph company, either from Manila or Hong Kong. The company knows of no communication emanating from Manila since the cable was cut. The company has been watching all points for Manila intelligence, being anxious regarding the safety of its staff and property.

WHAT IS SAMPSON UP TO?

Many Unconfirmed Rumors About the Movements of the Admiral.

WASHINGTON, May 6.—No confirmation is obtainable of the various reports concerning the movements of Admiral Sampson's fleet. Persons who, from their official position, might be supposed to share the confidence of the administration, are credited with the statement that the admiral has gone to seize Porto Rico, and this statement is made after conference with the executive. On the other hand, it is asserted with almost equal positiveness, that the fleet has gone to meet the Oregon and bring her in safety to the north. Still another report is to the effect that the admiral has gone to seize Matanzas, to be used as a base of operations.

BOOM IN WHEAT GOES ON.

The Chicago May Price Is \$1.50, and July Tells Above \$1.02.

CHICAGO, May 6.—A new high price for May wheat in Chicago was made this morning. There was an advance of seven cents over night and the first quotation was \$1.57. After a decline to \$1.31 the market advanced to \$1.50. July wheat, soon after the market opened, sold at \$1 a bushel.

Cash prices in Kansas City advanced 15c in some cases, and No. 2 red wheat, just before the close of the market, sold at \$1.23 1/2.

CUBAN CONGRESS OPENS.

Blanco Questions the Sincerity of the United States.

HAVANA, May 6.—The Cuban congress, elected under the autonomist government, was formally opened yesterday with great ceremony. Captain General Blanco made a speech, in the course of which he said that if the declarations of the United States had been sincere, its guns to-day ought to be saluting the first Cuban parliament instead of threatening the lives of the members.

An Ovation to Sigbee.

PHILADELPHIA, May 6.—The big auxiliary cruiser St. Paul, with Captain Sigbee on the bridge, left Philadelphia at 8 o'clock this morning and steamed down the Delaware river to League Island navy yard, where she dropped anchor. The passage of the St. Paul down the river was the signal for an outburst of patriotism.

That Peaceful Indian Territory.

ARLINGTON, Ind. Ter., May 6.—The grand jury since January, 1898, has returned 470 indictments. Most are for larceny and selling whisky.

OREGON IS VIGILANT.

Commander of the Vessel Keeping a Sharp Watch Against Surprises.

SAN FRANCISCO, May 6.—Extraordinary precautions are taken by the officers of the Oregon at every port visited on her journey to join Sampson's fleet at Key West. This is known by a letter received here yesterday from an officer of the ship. It was written at Callao.

Soon as the port is approached, sentries are doubled at every point of observation and all approaching boats are warned off. Frequent soundings are taken, and when a suitable place is found the anchor is dropped. Soon as the anchor cable has finished rattling through the hawser hole, two steam launches, manned by well armed marines, are lowered over the side. These launches then steam in opposite directions around the battleship, never ceasing their constant patrol, night or day, until the anchor is once more weighed.

Throughout the stay in port nobody except port officials are permitted to come anywhere near the battleship, and even these are compelled to show their credentials and explain their business to the vigilant launch crews before being allowed aboard.

Captain Clark is determined, the writer said, to take no chances. His orders are strict and are being carried out night and day, with all the vigilance that well disciplined officers and men can contribute. The men, the writer said, are all anxious for service, and never seem perfectly happy unless the Oregon is steaming at full speed in the direction of the scene of conflict.

PORTO RICO NEXT.

The Spaniards Will Be Driven From This Hemisphere Before War Ends.

NEW YORK, May 6.—The Washington correspondent to the New York Mail and Express wires as follows: "The first chapter of the war of 1898 has been written. Three yet remain. They will be the capture of Porto Rico, the destruction of Spain's Atlantic fleet and the occupation of Cuba. The order in which these three chapters shall be written depends upon the direction in which Spain's warships are now heading. With the fleet vanquished or captured the rest will be easy writing. The end of the war may therefore be said to be already in sight. But after the cessation of hostilities will come the most vital stage of the Spanish incident—the making of the peace. Then will re-enter Secretary Day, from whose domain the incident has temporarily passed. The treaty of peace must now be more than the formal relinquishment of Spanish sovereignty in Cuba. It must surrender also Porto Rico, for while a single remnant of Spain's sovereignty remains in the West Indies Cuba would be perpetually menaced, and we should have this job of purification all to do over."
