He is 99 years of age. The n mber of pensioned widows of the wir of 1812 is 1,998. On account of t e Indian wars 1,568 soldiers and 3,-39 widows are pensioned. For service affairs of the people and they were told to proceed with tax levies, to start in the Mexican war there are enrolled 9,204 soldiers and 8,179 widows. June 30, 1899, the total number of pensioners was 991,519, being 2,195 less than on the same date in 1898.

The commissioner reports the work it, far better condition than at any time since April, 1897, and it is be lieved that further progress will be ettained by the systems instituted in the different divisions.

the fact that order No. 225, issued June 9, 1893, which provided for a readjustment of rates of pensions previously granted under the operation of order No. 164, is still in force, but he states that no revision of rates under said order has been made under his administration.

During the year 107,919 claims of all classes were rejected in the bureau. A careful analysis of the causes of rejection of so many claims is given, showing that a large percentage of rejections occur in which additional allowance of some kind is claimed.

A full and detailed explanation as to the causes of delay in the adjustment of claims is presented, from which it appears that in nearly every case of unusual delay the fault lies with claimants or their attorneys and not with the bureau.

In order that the present complex system of pensioning may be simplified and to secure a more uniform practice at the future the appointment of a commission on the revition of the laws, rules and regulations is recommended.

Legislation is suggested extending the benefit of the acts of June 27, 1890, to persons who served in the confederate army and afterward voluntarily enlisted in the union army or navy prior to January 1, 1865, and were honorably discharged.

last night when the First regiment arrived from San Francisco, The citi-zens of Lincoln and all the state for 100 miles on either side of the line of travel of the regiment testified by their presence in immense crowds to the pride the state feels in the regiment as a whole. It remained for Lincoln to show last night that she has a personal and possessory pride in Company D, the company which went from the capital city.

The crush of men, women and children at the state house was a new experience to even those who stood at the depot Tuesday night and who thought that the feelings of the people had been then and there given full vent. For an hour before the time set for the opening number of the pro-

gram the corridors of the state house were filled with hundreds, anxious to get within seeing or hearing distance of the stands from which speeches were to be made. To not more than one in a hundred who came was this a possibility, and still the crowds waited, overrunning the state house lawn and waiting in the vain hope that somebody who had been favored with a good place would leave it and permit others to come in.

Quotas of Sints Filled.

WASHINGTON, Sept. 1.--Adjutant General Corbin said today that there were less than 100 appointments of volunteer officers yet to be made and they belonged mainly to the states of Wisconsin, California and Ohio. The quotas of the other states are practically full. The president has made a small list from which the remaining regimental appointments will be made and it is expected that the result will be announced in a few days.

Analous to Enlist.

ST. LOUIS, Sept. 1 .- Both the army and navy recruiting offices in St Louis are besieged daily by applicants for enlistment and the officers in charge are securing all the men they need. Naval Lieutenant West tonight sent eighty-three men and boys on a special train for the Mare Island navy yard. The men and boys in this contingent were enlisted as landsmen and apprentices, respectively.

These brass fittings weigh from eight to ten pounds each. that the steel amounted to about 180 for the thief. The loss to the company is considerable more.
