The western farmer proposes to have something to say about extortionate railway freights, when certain corporations seek to earn fat dividends on stock watered several times its actual cost. Thus the "Farmers' Alliance" of Minnesota has submitted a declaration to the railroad commissioners making the point that, as the average cost of single track railroads in the state does not exceed \$20,000 a mile, hence rates for freight and passengers should cover only a reasonable interest of the actual cost, together with operating and maintenance expenses. Again, the Alliance submits that there should be no discrimination in railroad rates, in favor of large cities and against small places; also that the shipper must have the right to choose his market and route to market, without the arbitrary dictation of any railroad company. The farmers recognize the great value of railroads, and are willing to assist in earning a fair rate of interest on capital actually invested. They do object to any system of railway tariff based on an attempt to earn dividends on fictitious capitalizations.—American Cultivation.

HOW TO RUN A NEWSPAPER.

1. Get the news and all the news and nothing but the news.
2. Copy nothing from any one's publication without perfect credit.
3. Never print an interview without the knowledge and consent of the party interviewed.
4. Never print a paid advertisement as news matter. Let every advertisement appear as an advertisement—no sailing under false colors.
5. Never attack the week, the defenseless, either by argument, by invective, or by ridicule, unless there is some absolute public necessity for so doing.
6. Fight for your opinions, but don't believe they contain the whole truth or the only truth.
7. Support your party if you have one, but don't think all the good men are in it and all the bad ones outside of it.
8. Above all, know and believe that humanity is advancing, and that there is progress in human life and in human affairs, and that as sure as God lives the future will be greater and better than the present or the past.—Chas. A. Lamm.

Do you know that I have known men who would trust their wives with their hearts and their honor, but not their pocket-books—not with a dollar? When I see a man of this kind I always think he knows which of these articles is the most valuable. Think of making your wife a beggar! Think of her having to ask you every day for a dollar, or two dollars, or for fifty cents. "What did you do with that dollar I gave you last week?" Think of having a wife who is afraid of you. What kind of children do you expect to have with a beggar and a coward for their mother?—Ex.

Hunter is permitted by the rules of the U. S. Land office, to take final proof and testimony in contested entries of land cases.
