THE GOOD WIFE KNEW IT.

Experience of a Drunkard Who One Day Broke the Enslaving Habit. New York Sun.

There is a retired cobler living in Angelica who deserves the respect of his countrymen for moral courage.

Ten years ago he was, and had been for a long time a confirmed inebriate -not a periodical spreer, but a genuine soaker, warranted not to draw a sober breath from sun to sun. Occasober breath from sun to sun. Occa-sionally the fumes of the whisky with which be plied himself would clear away from his befogged brain and at such times his mental equilibrium would wrestle with the problem of total or even partial abstinence, to be utterly wrecked at the sight of his haunts or the first faint call of his system for the stimulant which long use

had rendered peremptory.

One day, however, a halt was called, and this is the way he tells of it:

"I was on my way to the barn when I saw a small snake in my path. I kicked it with my boot and it turned to a bit of crooked twig which I snap ped in my hand and threw away. thought nothing more of the matter until I reached the barn, when directly before me a second snake twisted across the boards. With a quick spring I seized it, and it proved to be a whiplash. A sudden horrible fear made me faint and weak. I sat down on the lower rung of the ladder leading to the loft and wiped the cold sweat from my forehead.

'Snakes, by Jerichol' I exclaimed; 'that means business.'

"Then I stared straight ahead at a cornstalk, that soon began slowly to wriggle and curve. With bursting eyeballs and all the strength of mind possessed I forced that corn-stalk back from the animal to the vegetable kingdom, and then I staggered feebly out into the open air. Heaned against a fence, and, for fear I should see more of those horrible twisting things, I clung to a post and closed my eves

"Time is called, Jim,' I said to my self, 'whisky and you part company to-day; and soberer than I had been for many months, though with no more strength than a baby, I manag-

ed to get back to the house.
"There was a fight though! I didn't tell my wife, for I had made a good many promises that hadn't held water, and I thought I'd go it alone for awhile. I got up in the morning after a terrible night, with the thirst of ... chased fox upon me. Water wouldn't quench it, and I bried milk, I crept into the milk room, slipped a straw into the edge of a cream-colored pan, and sucked out the milk until only the cream was left, lowered smooth, and unbroken to the bottom. Then I tackled another and another, until the fierce craving was somewhat dulled It was a household mystery what be came of the milk. No cat could lap it. my wife said, and leave the sides and cream untouched, and where did it

"I let them talk, for the struggle was too sore and fearful to be spoken of. and I went on drinking the milk.

"The road from my house to m shop lay by the groggery. When I left my gate in the morning I took the road, and on a dead run, as if pursued, I made the distance. I ran hard all the way home to dinner, and back after that meal, never, in fact, trustor myself to walk, or even take to the side-walks for months. The cure was slow. I keep all the brakes hard set yet. A single glass of hard cider would undo the work of all these years, but you can bet that glass doesn't touch my lips while the memory of those little crawling black reptiles stays with

me." "And did your wife finally learn what became of the milk?" he was "Yes," and his voice broke. "Itold

her on her deathbed. " 'Jim, dear,' she said, when I had finished, with her hand clasped in mine-'Jim, dear, I knew it all the time.'"

Wolverines Are Ugly Customers

Few Washington people know what a wolverine is. They know that Michigan is called the Wolver ines state and that Michgan people are called Wolverines. But they have little or no idea why the state was so named or what the nickname means. The state is named after an animal

that used to infest, and still frequents, the dense woods in the northern part of the state as well as in the woods of northern Wisconsin and crat. Canada. This animal is the wolverine, or, as the varieties of him found in northern European countries are called, the glutton. They are savage beasts, these wolverines are, and they play sad havoc with cattle of the Michigan farmers. They are like a cross between a wolf and bear. The tail and the temper resemble The tail and the temper resemble those of a wolf, but in strength and size and savageness they much re-semble a bear. They are less clumsy than bears, though, and they can climb trees. Many a hunter has walked under a tree up in Michigan without looking for a wolverine the tree first, and the wolverine in dropped down on him from one of dropped down on him from one of the lower limbs, and before the next morning had eaten him up, buckskin breeches and all, even to the heels of his hunting boots. They are ugly looking beasts, the only pretty thing about them being their bushy tail, a foot or so long. Their claws are longer and sharper than bears,

and their teeth just as sharp. Altogether the animal is a very unpleasant sort of one to see outside of a cage. They are so savage and of a cage. They are so savage and so wary and suspicious that it is almost impossible to catch them alive, and so they don't have them in circuses and zoological gardens, and most people den't know what they are. They are so savage that hunters don't care to hunt them, and so the wolvering has things about it no the wolverine has things about his own way where he lives. —Wash-ington Critic.

Lost a Decent Burial
