L. J. Simmons, Editor.
Entered at the Harrison post office as second class matter.

For some time past the quarters occupied by THE JOURNAL have been uncomfortably crowded and the proprietors determined to get into some place large enough to accommodate the increasing business. In order to do this they recently purchased the lot and building adjoining the Bank of Harrison on the north and have removed their office and material to that place. THE JOURNAL now occupies the room formerly used by M. Bruck as a shoe shop and also the room north of it, which makes them very pleasant and comfortable quarters, and will give THE JOURNAL boys a better chance to get out the best paper in northwestern Nebraska. We are pleased with the manner in which THE JOURNAL is received and the substantial encouragement the people are giving the paper and hope to merit a continuance of the same. The people of Sioux county may rest assured THE JOURNAL will continue to improve as rapidly as the development of the county will warrant, and shall strive to hold a place in the front rank of journalism.

Remember our combination offer as advertised in another column, and call and drop two dollars into our till and get two papers for the price of one.

We invite all to call and see us in our new quarters and get acquainted with us and then you will know better what kind of people we are.

If you have any items of news that would interest the readers of THE JOURNAL, do not hesitate to send it to us. We want all the news we can get.

Elsewhere in this issue appears a call for a meeting of the people interested in advancing the welfare and prosperity of Harrison and Sioux County. It will be noticed that the call is signed by a number of the leading citizens of this place and no one to whom the paper was shown declined to put his name down. Every one in the place, without a doubt, would have signed it but it was not thought necessary to burden the call with more than enough to show that it was backed by the general public. The meeting is to see if better roads from the valley cannot be secured; to take the initial steps for forming a county agricultural society and to discuss any and all matters, that may properly come before the meeting, for the advancement of the commonwealth. As this is the first meeting it is hard to predict what action will be taken, but it is fair to presume that a general public meeting will be called at an early date, at an hour which will enable the farmers to be present and participate in the deliberations. The matters which will come before these meetings are of vast importance and it is hoped that all will take a proper interest in them. To those who live too far distant to attend we would suggest that they send in written communications containing their views on questions of special interest to them. Any such communications addressed to THE JOURNAL, until a secretary is elected, at least, will find its way to the attention of the meetings. Now is the time to act and let us act all together. Let nothing stand in the way of an earnest, united effort for the general good. If we expect to prosper as we should this is the way to get the matter started. Don't wait for some one else to make the start, but put your shoulder to the wheel and push the chariot of prosperity and wealth all over the limits of our county. The reports of the growth of other places is all the evidence needed of what can be accomplished by united effort and let us profit by the example of others.

A few days ago a man in Fremont, by the name of Benj. Josephson, fell to beating his wife, and after being all pounded up the woman drew a revolver and shot the brute. Officers soon arrived and arrested the woman and physicians were called and cared for the man. When in jail the woman expressed regret for her act, and the man became very penitent when he found his wife was in jail. The result was that the woman was released from custody and went home to take care of her husband. This is the Josephson family that figured in the Haddock murder trial at Sioux City some time since.

The editor of this paper received a personal letter from a friend, a few days since, in which the writer stated that he had recently visited Congressman Laird at Atlantic City and found him almost a well man. The reports concerning Mr. Laird have been very conflicting and it will be welcome news to his many friends in this part of the state to know that he is practically well. Since the visit mentioned Mr. Laird has returned to his home at Hastings, Neb., to remain a short time.

Last year the value of the corn, oat and wheat crop of Nebraska was estimated by the agricultural bureau at about fifty million dollars. The prospects are that this year the crop will be even greater.

The state militia is taking steps for holding the regular annual encampment as directed by law. The great cut in the appropriations rather dazed the militiamen but they appear to be rallying from the shock and getting ready for doing what the law says they shall.

Congressman Dorsey is reported as saying that Gov. Thayer will be a candidate for re-election, and the Governor says that Dorsey seems to know more about it than he does himself. The indications are that there will be a long list of candidates for that position when the time comes.

Lincoln set to work to have a big 4th of July celebration and the result was highly satisfactory. When the people and business men of Lincoln take it into their heads to do something for the town every one takes hold in earnest and the result is that success crowns their efforts. In unity there is strength.

A party of fifty composed of members of the state press association and their wives left Omaha last Saturday for the long talked of trip to Puget Sound. They will have a pleasant trip and return to their homes better prepared than ever to furnish the best newspaper service any state in the union enjoys.

Ex-Grainger Van Wyck has recently purchased another piece of real estate in Washington, paying therefor \$5.80 per square foot, the highest price ever paid for residence property in the national capital. He is reported as intending to build a much finer residence thereon than the one he now owns in that city.

We are in receipt of a copy of the official program of the 7th annual Nebraska State firemen's tournament which will be held at Red Cloud July 16th to 19th inclusive. Much work and expense has been expended to make this tournament the most interesting that has ever been held in the state, and it is expected that a good time will be enjoyed by all.

The naval department has decided that the flag containing forty-two stars will not be the legal flag until July 4, 1890. The law says: "On the admission of a new state into the union one star shall be added to the union flag, and such addition shall take effect on the fourth day of July next succeeding such admission." The result will be that all flags used on the government buildings and vessels will have but thirty-eight stars for about a year longer.

In Fall River county, Dakota, the commissioners have been doing a good deal of ring work and the people are getting tired of it and the prospects are that news will come from that place in the near future that the county board is in trouble. The Oelrichs Advocate is showing up the actions of the board in a manner that will cause the members thereof to put on their thinking caps before they get the county into debt much deeper. When officers go about so far the people are pretty apt to call a halt, and that, too, in a way in which the officers will understand.

W. C. Halsey's resignation as general superintendent of the F. E. & M. V. took effect on July 1st and C. C. Hughes was appointed to fill the vacancy. Mr. Hughes has been superintendent of the Black Hills division for some time and his promotion to the general superintendency is a recognition of his ability. Mr. Hughes' place as division superintendent has been filled by the appointment of H. C. Malbanna, of Belle Plaine, Iowa, who has been for several years assistant superintendent of the C. & N., and is said to thoroughly understand the important duties which devolve upon him.

The Shah of Persia has made his much talked of visit to London. The authorities did all in their power to make the occasion one to be remembered, but the people did not look at it as a very grand thing and treated the affair as a huge joke. No attempt was made to decorate except the public buildings and the crowds that lined the streets could find nothing to cause them to cheer, but greeted the distinguished visitor with broad grins and remarks about his appearance. The Shah may have been pleased with his reception, but if he was, he must be easily pleased and in consequence must be a lenient ruler.

On last Tuesday the great fight for the championship of the world occurred between John L. Sullivan and Jake Kilrain. The battle occurred at Richburg, about one hundred miles from New Orleans. Seventy-five rounds were fought when Sullivan was declared the victor. It is reported that a vast amount of money changed hands. This fight ought to settle the fact that Sullivan is the greatest slugger on earth and stop the brutal contests. It seems that such matters grow in spite of all the laws against it. If the laws are not enforced it would be a good plan to repeal them for at present they appear to be but laughing stock.

George O. Jones is making another effort to re-organize the old greenback party. We supposed the rag baby financial delusion had ceased to exist, but it appears that some folks still mourn for it.

North Dakota is seriously considering the advisability of having the legislature of that state consist of a single house elected by a vote of the people. Now is a good time for that young state to try that kind of an experiment.

The bloody Britishers, it is said, have put \$200,000,000 in American investments since the first of the year, and will double the amount before 1890 is ushered in. They want to put it where it will be safe. In other words where it will be protected.

Wisner Chronicle: A gentleman prominent in the politics of the state informs us that Hon. L. D. Richards, of Fremont, will enter the lists for the congressional nomination next year in this district. Mr. Richards is a shrewd politician, a sterling republican, an untiring worker and possesses every desired qualification for an able representative in the National legislature. If he seeks the position he will be a popular candidate and will make things lively in the third district.

Some of the papers are trying to kick up a great row because Gen. C. F. Manderson has been allowed a claim for back pension amounting to about \$4,000. We do not notice that any of them claim that he did not do good service for his country, nor do they set up the allegation that the amount was secured by fraud. If Gen. Manderson was entitled to that amount of pension, we do not know of any law by which he could be defrauded out of his rights, and it is only a narrow minded writer that will attempt to make political capital out of straight business transactions.

The Fremont Tribune has taken a contract, evidently, to boom Secretary of State Laws as a candidate for congress from the second district, to succeed Congressman Laird. We do not see the reason for this. If the republicans of the second district are wise they will continue to send Major Laird to represent them, at least, until the state is redistricted. Then, again, if there is to be a change there are a number of gentlemen, who might be induced to take the place, who have the ability to represent the people fully as well as the gentleman the Tribune favors.
