### Time Table.

East leave Harrison at 2:51 P. M.

County warrants bought at the bank of Harrison.

Do not fail to call on THE JOURNAL if you want a nice job of printing done.

What have you in the agricultural line to help make up the exhibit at the state fair?

How much will you give toward defraying the expenses of a county exhibit at the state fair?

Always remember that Conley, Kelly & Pollard are always ready to make you a loan on the most reasonable terms.

Don't forget that THE JOURNAL is prepared to do all kinds of job printing in neat and tasty manner, on short notice.

Quite a party went from this place to the canyon last Sunday to enjoy the view and scenery. They report a pleasant time.

Lost—On the road from town to Mr. Foster's, a silver case, open faced watch, etc., will please leave it with Mr. Griebell and receive suitable reward.

Sheriff Pfost has acquired the residence property of Judge Hunter and we understand the latter will remove to the farm obtained from the former, which lies several miles north of here.

The ladies of the church had partial services for a social on last Tuesday evening, but owing to the sickness among the children, and the recent death, it was postponed to an indefinite date.

J. E. Marsteller has been busy for some time improving his residence, on his farm just north of town. He now has a neat and comfortable home, and it adds much to the appearance of his property.

Why not re-organize the land? There are some among the new-comers who are used to playing in a land and they would help matters out. If Harrison does not get up a hand soon it will certainly be behind the times.

We have heard talk to the effect that more school room is needed to accommodate the children here. That is always the case in Nebraska towns. It keeps the school boards rustling to furnish school room for the children.

We have heard some talk of county division during the past few days. As near as we can learn the scheme has no following except among a few office seekers and some who seem to think they might get a county seat town located on their land.

The bills allowed Murphy & Whitney at the last meeting of the county board were appealed within the time fixed by law. The appeal was made by G. Guthrie, and the matter will come up in the district court. There was no appeal made in the case of M. J. Carroll.

A. W. Mohr was hauling the lumber for a new house from the Buffalo Gap Lumber Co's yard last week. It will be quite an improvement to his locality as it is to cost \$800. A much better class of houses are being built this season than ever before on the farms of Sioux county.

Look over your crop and pick out some wheat, oats, barley, flax, potatoes, pumpkins, or anything else you may have that is of good variety, and give it a little extra care and get it in shape to make as fine a growth as possible for the purpose of putting it in the Sioux county exhibit at the state fair.

Sheriff Pfost showed us a sample of oats Tuesday that we believe will average with those produced in any county in the state. Sioux county farmers have no occasion to feel blue, even if the crop is not quite equal to that of last year. Good farming will do much to improve the results as yet obtained from the tilling of the soil of Sioux county.

On last Saturday the bond in the impeachment case against E. D. Satterlee, as county attorney, was filed. It is signed by over forty resident taxpayers. It is to be hoped that the county board will set an early day for the hearing. If the charges are not sustained the bond should be cleared from the defendant and if the charges are sustained the office should be declared vacant.

On last Tuesday a party consisting of Thos. Reidy, Ed. Weir, Nelson Pollard, Mrs. J. T. Weir, Miss Maud Markoe, Mrs. H. T. Conley, Miss Emma Weir and Mrs. R. K. Post went to Van Tassel on a fishing excursion. They had excellent luck and brought home a large number of fish and when the division of the catch was made THE JOURNAL was kindly remembered, for which the party has our thanks.

Now is the time to subscribe for THE JOURNAL.

Small Sioux county exhibit at the state fair!

Do not fail to take advantage of our combination offer.

Summer hats and trimmings, at cost, at Mrs. Loutzenhiser's.

Rosa & Thompson has added a fine line of cigars to their stock of goods.

We are still on deck and ready to make you the best terms in the matter of a loan on your farm.

COSLEY, KELLY & POLLARD.

E. A. Bigelow brought us a sample of wheat raised on his place four miles northwest of town, which is as nice as one could wish for. The heads are of good length and well filled with good, plump kernels.

M. Brock has purchased the leather stock of his competitor, and is again in control of the entire boot and shoe making interests of Harrison. He has got a trust formed and he is president, stockholder and manager.

We are informed that some of the native grasses mature early in this month and the settlers should see that they have good fire-guards around their buildings and stacks, or else the results of much hard labor may be consumed by a prairie fire.

The matter of a road up the canyon is not yet settled, as the surveyor's report has not yet got around. The people, both in the valley and in Harrison should get themselves in shape to take hold of the matter in earnest when the proper time comes.

Last week a barrel of fine apples were received by Mrs. H. T. Conley. They were grown on the farm of her father in Cass county, Neb., and were as nice as can be produced anywhere. The owner and his family are under obligations for a share of the delicacies.

W. E. Patterson, of THE JOURNAL has built a new house on his claim just west of town, to replace the one recently destroyed by fire. He will do the most of his living there for a while, and it is to be hoped that this house will stand until he has proven up on his land.

Specimens of wheat, oats and barley can now be seen in various places of business in Harrison which are the best evidence of the fertility of Sioux county soil that can be found. If a collection of such products was exhibited at the state fair it would be the best advertisement that could possibly be made.

No definite trace of the escaped prisoner has been found. The first of last week Otto Tietzo missed a supply of provisions from his house each day, the edibles being taken during his absence. After this had gone on for a couple of days the foraging ceased and the next day a horse belonging to a man by the name of LeBack was missing and it is surmised that McNab had been secured in the timber near Mr. Tietzo's house and rode the horse away when he changed his stopping place. Cards have been sent out, but no word of his capture has been received.

The Fremont, Elkhorn & Missouri Valley R. R. and the Sioux City & Pacific R. R. "The North-western Line," will sell tickets from all stations on their lines at one fare for the round trip for the National G. A. R. Reunion at Milwaukee, Wis.

Comrades and others desiring to charter sleepers should make their arrangements at once. Through coaches will run from important stations to Milwaukee via Chicago without change.

Call on J. C. Northrop, agent, Harrison, or write to J. R. Buchanan, G. P. A., Omaha, Neb., for further information.

Considerable work has been done along Main street during the past few days. The dirt has been removed from the sides of the street to the center, and the water will in future flow along the sides of the street, instead of wandering at its own sweet will all over the public highway. While this does not appear to be the best way to dispose of the matter it is a start at working the streets and will probably be followed up by more work in the future, and after a while an engineer can establish a grade and then the errors can be corrected. It is to be hoped that care will be used so as to have as few errors as possible to correct as that is something no one likes to do, for it is making a double expense for the taxpayers to meet.

Died.

HART.—At the residence of her parents in Harrison, on Friday, July 26, 1889, of a pneumonia, Martina J., daughter of Mr. and Mrs. A. Hart, aged 9 years.

The death of this little one was quite sudden as on Thursday she was up town and appeared to be almost well, but that night she became worse and sank rapidly until Friday evening when she breathed her last. The remains were taken to Montrose for interment on Saturday.

The bereaved parents have the sympathy of all in their sad affliction.

Prof. Bruner and Prof. Weber, of Lincoln, are at work in the county in the interest of botany and entomology. They remarked that Sioux county ought certainly make an exhibit at the state fair for there are natural productions here of which no other county in the state can boast.

Warbonnet.

Smoky days.

Cut your wheat.

John Dahnke has a fine crop of oats.

A. W. Mohr is building an \$800 frame house. This looks a little suspicious?

A. J. Adams is building a \$100 log house. Does it look a little suspicious?

FROM ANOTHER CORRESPONDENT.

Warbonnet, July 28, '89.

Ed. JOURNAL.—Allow me to congratulate you upon the success you are making of THE JOURNAL in the line of a good, clean newspaper, although I hear considerable complaint on account of the non-appearance of "facts of record" as they appeared occasionally under the old management.

The political pot has not commenced to boil in this section yet, but a slight vapor arising from the same indicates that ere long it will reach the boiling point; and that fact causes me to write a few lines to inform the readers of THE JOURNAL how the straws are leaning here.

The ring must be at a loss for an issue this fall to obscure the all important and coming issue of "a free ballot and a fair count." From all indications there must have been a council held by the Grand Mogul on the divide and his co-workers, and the conclusion arrived at that nothing would do so well to attract attention from other matters as the war cry of county division: hence, the Sage of Clare is abroad in the land on his usual petition route and the cure-all offered is "County division, boys, county division." But, if I mistake not, county division is not what the tax payers are after, but an economical administration of county affairs, a just and honorable set of county officials, and fair play—with one county, until such time as there shall be population and taxable property enough to justify two counties.

ANTI-CORRUPTIONIST.
