THURSDAY, SEPTEMBER 13, 1889.

Republican State Convention.

The republican electors of the state of Nebraska are requested to send delegates from the several counties to meet in convention at the opera house in the city of Hastings...

The several counties are entitled to representation as follows, being based upon the vote cast for Hon. Geo. H. Hastings, presidential elector, in 1888...

It is recommended that no proxies be allowed to the convention except such as are held by persons residing in the counties from which proxies are given.

John T. Paulsen, state senator from Douglas county, died at his home in Omaha a few days ago.

Some idea of the business done at the Chadron Land Office may be had from the statement that since it opened on July 1, 1887 to date there has been paid into the office \$565,000, and the district is not half settled up yet.

The Gordon Republic has passed the first mile stone in its existence and appears to have enjoyed good health.

During three days recently the treasury department purchased \$13,000,000 of government bonds. If the national debt is being decreased at the rate of \$26,000,000 per week it will not be long until a noticeable reduction is made.

The English government has declined to take part in the Behring Sea fisheries controversy, and the result will be that Canada will have to take care of herself in the matter.

Gov. Thayer has gone east after Mrs. Thayer who has been seriously ill. During his absence the office is looked after by Lieut. Gov. Meek.

Dr. Kelly, of the Norfolk insane asylum, is again in trouble. He is accused of corruption in the purchase of furniture for the use of the hospital.

Steamships first crossed the Atlantic ocean in 1838 and the trip took nineteen days from England to New York.

The feud between the Hatfields and McCoys, which has caused much terror in Kentucky for some years, is thought to be ended by the sentencing of Wall Hatfield to the penitentiary for life.

It is reported that the Russian oil fields are giving out. In that event the United States will have to furnish the principal portion of this great commodity for the consumption of the world.

The senate committee is hard at work investigating the dressed beef business. It is to be hoped that laws will follow that will make the packing of beef which has been at all exposed to disease, practically out of the question.

The druggists of Iowa are kicking against the laws of the state as being too stringent. At present the druggists have to put up a bond of \$1,000 in order to be allowed to sell intoxicants as medicine.

During the encampment at Camp Crook the Omaha Bee is sending out most excellent reports of the doings there. The work is being done at the camp by W. E. Annin, than whom there is no better man for the place in the west.

John L. Sullivan has announced his intention to run for congress on the democratic ticket in one of the districts of Boston. Whether he is successful or not it will go to make people think more of him than if he continues as a brewer.

An attempt is being made to secure the passage by congress of a law governing bankruptcy. At present each state makes provision for such cases and that causes a great deal of trouble in financial circles.

A kick has been made against the state bank examiners charging \$20 for examining a bank. In some cases it takes four days to get a detailed report of the condition of a bank and the law only allows \$20 to be charged.

Congressman Cox, better known as "Sunset" Cox, of New York, is reported as dying. For thirty years Mr. Cox has occupied a prominent position in politics and has been a member of congress for many years.

We received on last Monday, with the compliments of J. M. Rusk, secretary of agriculture, the department reports for 1888 and 1889 on the manufacture of sugar from sorghum and hope in the near future to obtain the results of experiments with the sugar beet.

In order to make way for a viaduct a large brick and stone building weighing 8,000 tons is being moved a distance of fifty feet in Chicago. The building is full of tenants, all of whom stay in it while it is being transported to another lot.

Quite a commotion has been stirred up by the recent decision of the supreme court to the effect that county clerks must enter the \$400 per annum allowed as clerk of the board of county commissioners on the fee books.

At the meeting of the county board on last Thursday to hear the Satterlee impeachment case the prosecution was assisted by A. Bartow, and the defense by J. B. Jencks, both of Chadron.

The prosecution asked leave to file amended papers, but the board decided to dismiss the case on the ground that a true copy had not been served on the defendant. It is a well established rule of practice in the courts of Nebraska to grant leave to correct errors in papers or service, and it appears peculiar to us that the county commissioners should peremptorily dismiss the case for the reason given.

The following from the Omaha Bee goes to bear out the theory which THE JOURNAL has advocated all along, that the development of the coal, oil and mining regions just west of this county will prove a source of wealth to Sioux county.

An official report concerning the oil regions of Pennsylvania has just been published, and exhibits such a marvellous falling off both in production and stock as to cause the assistant state geologist to express an opinion that the existing oil fields are giving out.

Hon. L. W. Gilchrist has tendered his resignation to Gov. Thayer as representative of the 53rd district. Thus this part of Nebraska is bereft of both senator and representative. The question now is, shall the governor accept the resignation and issue a call for the election of new men to fill the offices for the unexpired term.

The following special to the Omaha Bee from Fremont goes to bear out the position taken by THE JOURNAL relative to the bright prospects for the future of this part of Nebraska. The striking of oil by this company which is composed of prominent men of the state will lead others to invest in the prospecting ventures.

Information has just been received here by the officers of the Consolidated Oil and Pipe Line company that the well now being sunk by the company in the Rattlesnake district of the eastern Wyoming oil fields has struck oil. The officers and stock holders are elated over the information. Reports are also to the effect that the people of that section of the territory and down as far as Chadron are greatly excited over the discovery.

The congressional campaign in the second district is getting quite interesting. The number of candidates has narrowed down to four, although there may be others who believe themselves to be candidates. Those prominently in the field are Senator R. S. Norval, of Seward; Hon. Geo. H. Hastings, of Crete; Secretary of State G. L. Laws, of McCook and Hon. N. V. Harlan, of York.

year elected presidential elector and Mr. Laws is serving his second term as secretary of the state. The first named has been widely known in the state for many years as one of the foremost political workers. He has been earnest and zealous for the success of his party and has never been an aspirant for political honors himself.

The following from the Omaha Bee goes to bear out the theory which THE JOURNAL has advocated all along, that the development of the coal, oil and mining regions just west of this county will prove a source of wealth to Sioux county. If this vast region is developed it will employ a great number of laborers who will be non-producers and they must have the products of the surrounding agricultural districts and therefore Sioux county will have a market close at hand for all the products of the soil.

GEORGE WALKER. Attorney-at-Law. Will practice before all courts and the U. S. Land Office. Business entrusted to my care will receive prompt attention.

C. E. HOLMES. Attorney-at-Law. All business entrusted to his care will receive prompt and careful attention. Office with JONES & VERITY.
