THURSDAY, OCTOBER 3, 1899.

Republican State Convention.

The republican electors of the state of Nebraska are requested to send delegates to the several counties to meet in convention at the opera house in the city of Hastings, on Tuesday, October 25, 1899, at 8 o'clock p. m., for the purpose of placing in nomination candidates for one associate justice of the supreme court, and two members of the board of regents of the state university, and to transact such other business as may be presented to the convention.

The several counties are entitled to representation as follows, being based upon the vote cast for Hon. Geo. H. Hastings, presidential elector, in 1896, giving one delegate for each county, and one for each 100 votes or major fraction thereof. This paper gives only those counties in north Nebraska from Madison west.

Antelope	10	Keya Paha	5
Box Butte	6	Knock	4
Brown	5	Pierce	4
Cherry	6	Sheridan	8
Dawes	9	Sioux	3
Holt	14		

It is recommended that no proxies be allowed to the convention except such as are held by persons residing in the counties from which proxies are given.

WALT M. SEELY, L. D. RICHARDS,
Secretary, Chairman.

C. W. McClune has retired from the editorial work of the Crawford Times, and has gone east.

A terrible railroad wreck occurred on the New York Central last Thursday night causing the loss of twenty-five lives.

The district court docket of Douglas county contains 1,911 civil cases and at least fifty criminal cases. There is some law practice for the attorneys of Omaha.

Harvey Smith was convicted of murder in the second degree, in Wheeler county last week, and received a sentence of twenty years in the penitentiary.

The prohibitionists of the second congressional district have called a convention to be held at Hastings on the 11th inst., to place in nomination a candidate for congress.

A detail of fifty thousand troops was made to occupy the line of railroad between Berlin and St. Petersburg over which the war was to pass. It cannot be a very pleasant life that august personage is living.

Montana's output of gold, silver and copper in 1898 amounted to \$40,000,000. This puts her at the head of the list of mining states and territories on the continent. Butte is now the greatest mining camp in the world.

Gov. Thayer has issued a proclamation calling for the election of a successor to Judge Groff in the third judicial district. It is not likely that an appointment will be made for the short time between now and the election.

Dun's review of trade indicates a steady increase of business all over the country. Manufacturers are showing more life as a greater demand for their goods becomes apparent and a season of general prosperity is predicted.

William Walter Phelps presented his credentials as minister to Germany last week. The reception he received was a high compliment to the United States and indicative of the good feeling between this government and Emperor William.

The conference of American nations at Washington this month promises to be a grand success. An arrangement has been made to give the delegates a railroad trip of over five thousand miles. The train will require a crew of thirty-six men, and as it stands ready to receive the party will represent a cost of \$150,000.

The prospects are excellent for a grand kick being made by the English people against the manner in which the finances of the country are conducted. It is quite probable that a change will be made before many years in regard to the matter. The people of England are becoming tired of supporting a horde of aristocrats in idleness and luxury.

The race troubles in the south continue in various localities. This question will have to be met and settled by national legislation sooner or later. It is certainly a problem worthy of the best efforts of the greatest statesmen of the times. The almost daily reports of murder occurring between the whites and blacks is certainly calling for adjustment.

Judge Hopewell, of the 3rd district, impelled the grand jury recently summoned in Douglas county, and they are now hard at work on questions of crookedness of contracts let by the county board. In giving his instructions to the grand jury the court impressed upon them the fact that it was their duty to either indict or clear parties charged with crime or fraud, as that was the only way to do justice to the people and the accused.

The constitutional convention of Wyoming adjourned last Monday having performed all the work for which it was called. The prospects are that it will not be long until the territory will be admitted to statehood.

The indications are that in the congressional contest in the second district Laws has attained the highest point possible, and is now losing strength. The outcome is very uncertain, but the prospects of Senator Norval are good.

The W. C. T. U. advertised for bids for the location of a state temperance temple. The structure will be four stories high and is to cost somewhere from \$50,000 to \$75,000. The bids were opened at Norfolk on Tuesday, Oct. 1, 1899.

The firm of Gibson, Parrish & Co. of Chicago, recently asked that a receiver be appointed as there appeared to be a clerical error in their books of \$39,000. It has been found that their book keeper, instead of having made an error had taken that sum of money and skipped. Some time ago the store of the firm, together with its books, was destroyed by fire and the members of the firm now believe that the embezzler also set the fire in order to cover up evidences of his dishonesty contained in the books.

Captain Kellogg, of the Osage, declined to command the vessel on the trip to Haiti with Minister Fred Douglass as a passenger. It has been suggested as a good plan for the secretary of the navy to issue an order compelling Kellogg to go to Haiti as Mr. Douglass's body servant. It is certain that he could learn a good deal by associating with Douglass. The minister to Haiti will be taken to his field of labor in a manner befitting his station, and Kellogg will receive the censure he so richly deserves.

The first action under the new banking law was commenced in the supreme court a few days ago by Attorney General Lease asking that a receiver be appointed for the Bank of Venango, Perkins county. The supreme court issued a decree sustaining the application and the proprietor of the bank was notified to show cause by October 3, why a receiver should not take charge of the business. The auditor, treasurer and attorney general concurred in the opinion that the interests of the depositors were being jeopardized by the condition of the bank.

The report of the Utah commission has been handed into Secretary Noble and indicates that polygamy is slowly but surely being wiped out. During the year ending Sept. 1, 1899, there were 357 convictions for violation of the marriage laws, but those convicted consider themselves as martyrs and are so looked upon by their associates, and it is thought to be no disgrace to be sent to the penitentiary. With the proper work on the part of the commission and encouragement from congress it will not be long until the sin of polygamy will be blotted from the records of the growth and development of the United States.

There is nothing certain about what a railroad company is going to do until they do it, but the indications are that it will not be long until the line of the Elkhorn passing through here will be extended. The company controlling do not, as a rule, stop their lines at points where no outlets can be obtained and that is the condition this line is in at present. Another incentive to build further is the rapid development of the oil regions. A large amount of drilling, casing and piping material passes up the road every few days, and a great deal of money is being expended. The officials of the road are making frequent trips up this way, more frequent than they would unless some important move is contemplated. It is to be hoped that the work of extension will soon begin and that it will be pushed with vigor, for it will give the people of this place better train service and assist to create a market close at home for the products of the soil of Sioux county.

The republican mass convention on last Tuesday was composed of men of intelligence and integrity who had for the object of their assembling, the best interests of Sioux county at heart. It was not a body of men eager to secure office, but of settlers who seek to have the affairs of the county conducted in such a manner as will tend to attract people to come and locate and build up the country as has been done in the older settled counties of the state. The platform of principles adopted are in perfect harmony with the principles laid down by the platform of the republican national and state platforms of 1896, and comes out boldly for a free ballot and a fair count, the right guaranteed to them by the laws of the nation and state, and the principles if carried out cannot but result in great good to the interests of the republican party and to all the residents of the county. There was no ranting or ranting upon dead issues but the work of the convention was done in a manner which indicates that those present were thoroughly in earnest and determined to have a straight republican organization in Sioux county and when the returns are counted on the 5th of November it will be determined that the labors of the convention were not in vain.

The Sugar Beet Industry.

On his return from North Platte Deputy Labor Commissioner Jenkins stopped at Grand Island to ascertain what progress had been made in the investigations of sugar beet industry that are being carried on by H. N. Oxnard and brother. Mr. Jenkins was informed that the advantages of Nebraska as a sugar producing state were unexcelled and the question whether beet sugar could be produced profitably in the state was settled. The investigations that have been made indicate that the saccharine matter in the beets amounts to 15 per cent.

School Report.

School report for district No. 7, (White River) for the month ending Sept. 13, 1899. Number of pupils enrolled, 15; number of days all pupils attended, 203; average attendance, 11; number of visitors 2. The following pupils were not absent during the month: Cora Kemp, Willie Miller and Fannie McIntosh. MARTHA CADY, Teacher.

Boggy Items.

There was a hop on east Boggy and a good time was had. Mr. Cassett has gone to Newcastle to work. J. Bowser has been to Crawford on special business. James Arnsburger and A. Rands have gone after a saw mill south-east of Chadron 15 miles. It will be set on west Boggy. Loutzenhiser has cut and shocked all of his corn.

Story has fenced his claim and all arangers are cut off from the timber. There is some business for the road commissioners. The old highway is shut up and no way left to travel except by opening gates. To go around is impossible. War is declared.

Glean Items.

School has commenced in district No. 19 with Miss Mable Robinson as teacher. John Shay has been running a hack at the encampment. Pete Shuff is repairing our school house. M. H. Green has commenced to haul wood to Ft. Robinson. W. H. Johnson is living on the McDonald farm. S. W. Kemp is stacking his millet. John Fry is building a house and getting ready to move on his claim. The Sunday school still continues to flourish in district No. 1. J. W. Frazier has built a new house on his claim. Banker Hall has fenced in the lake ranch claim. A. Reed is staying at S. W. Kemp's. A. E. Gates is still haying. Everybody has cut their corn and are talking about husking their pumpkins. I. Jewett's saw mill has been moved to S. W. Kemp's place. Joe Lecker is wearing an eight by ten smile these days over the arrival of a bran new girl at his house.
