## Insect Speed.

severely wounded on August 30, 2354. For a long time his cycsight The rapidity with which insects travel is quite estonishing, often exceeding the speed of the swiftest race horse. was endangered by the misfortune, but he recovered and resumed his The common house fly is computed to make 600 strokes per second in ordinary flight, advancing twenty-five feet, but this rate may be increased to six or position in the army. In 1857 he was shipwrecked while proceeding to China. He took part subsequently seven times as much. Leuwenhold tells of a dragon-fly which, in a menageric about 100 feet long, succeeded in avoidin the supression of the Indian mutiny, and was engaged in Hindostan during 1858 and 1859. In 1860 he ing a swallow; and in a recent curious race at a Westphalian town, between served in the Chinese war, and was present when the forts protecting Peking were captured. Our threata dozen bees and a dozen pigeons, the first bee finished the distance of three ened difficulty with the British miles nearly a quarter of a minute in advance of the first pigeon. The nale of the silk worm moth is said to travel more than 100 miles in a single day.

#### Shorthand 2,000 Years Old.

According to a paper read before the recent meeting of the Labrary association, shorthand has flourished more or less for 2,000 years. Cicero's famons writer, Tiro, is known to have had rivals in his own time, and Casar's tents in dictating several letters simulta-neously while traveling still remain un-equalled. But shorthand, as now understood, is the product of the present century. It is computed that the liter-ature relating to the subject would fill no fewer than 13,000 volumes, and England alone has given birth to 307 differ-

### A Mile Trip by Elevator.

cut systems.

Some one has suggested that, instead covered. imitating the idea of building a tower hig or than any other for the world's fair of 1872, the original idea be adopted of excavating a deeper hole in the earth than has yet been made. The small village of Schiadebach, in the seat of the chair, containing three bath notes of 1,000 rouldes each, 800 roubles in gold, a receipt from the bank, dated 1867, for 6,500 roubles, and sev-eral bonds. The chair has been in the eral bonds. The chair has been in the possession of the present owner for some years, and was looked upon as a useless piece of old furniture. —London Globe Germany, now claims the deepest hole yet bored, measuring about 5,735 feet in depth and completed in six years at a cost of \$52,500. As this is merely a unall bore hole, however, it furnishes little indication of the extent of the undertaking of opening a pit for pas-

senger elevators to a depth of some 6,000 feet, as proposed. A Forage Famine.

## CHICAGO, Oct. 30 .- The Farmers' Re-

view says reports from its correspondents show serious absence of fall pasturage for cattle, except in Ohio, Missouri and Kentucky. The states suffer-ing most are Illinois, Wiscousin and Minnesota. The Review adds that farmers have a serious question to meet. Where cattle are fit for the market they ment in Natal, South Africa, and in 1879, was appointed High Commis-It is stated as probable that large numbers of animals not ready for the block will have to be forced on the already low market at a loss. A Curious Suicide. COEMYANS' JUNCTION, N. Y., Oct. 30.he contributed towards the set- A man sat down on the West Shore railtlement of the questions relating road track, at Canavoliarie, at 3 o'clock vesterday afternoon. As the express advanced from 1874 to 1876 train came thundering along the wheels took the man's head off clean without mutilating it or the body. The head fell sixty feet away. Papers in the man's pockets showed that he was Amos P. Browne, of East Windsor, Mass. There was also a postal card from N. E. Bert, of Swift River, Mass., offering Browne a position. The suicide was

Organisms of the Soil,

It is now regarded as a settled ques-tion that the nitrogen of the atmosphere

is fixed in the soil for the use of vegeta-tion by the action of the microbes, and

that no soil is destitute of these germs It is suggested that the greater devel

opment of the microbes by farm-yard manures may explain the apparent su-

periority of such fertilizers over artifi-cial manures theoretically as good.

He who steals my purse, steals trash, but he who wantonly purloins my bottle of Salva-tion Oil steals something that enriches him indeed and leaves me bankrupt, a victim to aches and pains, a sorrowing woeful citizen, until I can slowly creep to the nearest drug store.

and murmured something, which was not unheard, about his partner being the worst whist player as well as the worst verse maker in the world, to which partner, that I was sitting opposite to a gentlemen." "My dear friend," ob-served the other, cooly, "your aspira-tion is gratified, for, whether you are indicated as a statement of the second seco

## Wooing the Goddess Fortune.

Boston (Mass.) Herald, Oct. 1. South Boston hits it quite often, oftener than is generally supposed. Several times have the great capital prizes of the Louisiana State Lottery been sent over to the peninsula to be distributed among the citizeus of that locality. The latest favored gentleman at the court of good fortune was Mr. John H. Havey, who resides on West Fourth street, and who does business at 304 West Broadway. Mr. However, is a comparative for a way for a first street in a strength of the stre and who does business at 304 West Broadway. Mr. Havey is a popular citizen of the South Boston district, where he has lived as man and boy for 35 years of his life. He was a holder of a 20th of the second capital prize drawn at the last drawing of the Louisiana State Lottery, and he received \$5,000 in crisp drawn by the number he held was \$100,000, and as there were two other holders of twen-twieths in Boston, a total of \$15,000 came to this city as prize money to gladden the hearts of the holders of lucky aumblers. Mr. Havey is not a constant buyer of tickets in bickets without expecting to draw anything.

A brush between two artists should result in a draw.

A Minneapolis man has invented a perpet-ual motion machine.

that they seem to cause inconvenience and in only four or five out of 300 birds examined did death result in consequence of lesions produced by the para-sites. In those cases the symptoms were identical with those observed in victims of malarial fever.

"O to be dead and done with the trouble

<sup>60</sup> to be dead and done with the trouble That tills each day with a dreary pain." This is the moan of many a woman Who thinks she can never be well again. "It were octer for me and better for others If I were dead." and their tears fall fast. Not so, not so, O wives and mothers, There's a bow of hope in the sky at last, and it tells you that the storm of disease which has spread its shadow over you will give way to the sunshine of renewed health. If you are wise and try Dr. Pierce's Favorite Pre-eription. It can and will cure all female weaknesses and derangements, and no woman who has not tried it need despair, for a trial will convince her that it is the very thing she needs to restore her to the health she fears needs to restore her to the health she fears forever lost.

To cleanse the stomach, liver and system bons a letter of congratulation on the generally, use Dr. Pierce's pellets. 25 cents.
