THE NATIONAL GUARD

THE ANNUAL REPORT OF MAJOR-GENERAL SCHOFIELD.

Special Attention Paid to the Question of Descriptions—Recommendation for Increased Rewards for Their Capture—Our Sea Coast Defense—Proceedings Against Alien Labor—Needs of the State Militia.

The Report of Gen. Schofield.

WASHINGTON, D. C., Sept. 15.—The annual report of Major General Schofield, commanding the army, has been made public.

He says: "The causes of misconduct, which lead to desertion from the army, are numerous; they have been sought for diligently for years, and many of them have been removed."

One of those is naturally the discontented disposition of men who are led by that feeling alone to seek a change from the monotony of bread winning in any civil pursuit...

FREE AND FAIR DIVY.

THOSE WHO WANT THEM 'LE EARTH WILL NOT GET IT.

The Sioux Reservation Must Be Given That All Who Want Land Will Have an Equal Chance—Proceedings of the Farmers' Congress—The World's Fair—Confession of "Black Bart," the Murderer.

Trouble at Fort Pierre. PIERRE, S. D., Nov. 14.—The Fort Pierre Herald, which was received here last night, contains a strong and earnest appeal. He says: "We are in a deplorable condition, and go on to state that a company of soldiers with bayonets in hand, together with a number of squaw men and a band of redskins, had arrived on the ground. The Herald was printed in the evening, and this news, coming in this fashion, is startling to the people in this city, who were unaware that matters had come to such a pass."

It is undoubtedly the outcome of the recent rumors from the government headquarters of orders promulgated, as was the case in settling Oklahoma, preparatory to giving every one an equal chance to cross over when the proclamation is issued opening the land. This is the policy of the government, as in Oklahoma, and the authorities will see that every settler has a chance with his fellow to get on first. Trouble has been expected on the mile square for weeks, and the people of Pierre are awaiting with intense anxiety for news from the other side. A big storm is blowing and no means of knowing the true state of affairs are at hand, but judging from the copy of the Herald which arrived just before the storm commenced, things are truly in a deplorable condition, with the prospect that the troops now there have instructions to put every man and his family off at once.

It is supposed that the immediate cause of the trouble was the quarrel between the citizens of Fort Pierre and intending settlers on one side and the squaw men on the other. These quarrels were becoming brutal and ruinous, and were caused by the avaricious greed of the squaw men and the intense hostility entertained by the settlers against them. The government authorities have become disgusted with the state of affairs and have judged from the article in the Herald, ordered the whole outfit to clear. It is probable that there will be some loss of life, as the squaw men are a dangerous class, and being backed up by their dusky redskin wives, will fight desperate battle, and the soldiers, too, will be loath to leave their homes, as many of them have lived on the reservation around Fort Pierre for many years suffering untold hardships in the hope that when the reservation was thrown open their pains and suffering would be rewarded, and to this have to leave their homes and lands just at the time when they hoped for their reward, and especially at this time of the year, with no place to go and no means of subsistence, will have a tendency to make them desperate and bitter. In fact they are all driven over this way the citizens of Pierre will do all in their power to provide food and shelter for them, although it is probable there is bound to be much suffering.

WANT A WORLD'S CONGRESS. CHICAGO, Nov. 14.—The committee called the world's congress committee for 1892, issued to-day an announcement in which they set forth that the crowning glory of the world's fair of 1892 should not be alone the exhibit then to be made of the industrial achievements and mechanical victories of man, but that something higher is demanded by the enlightened spirit of the present age. In connection with the world's fair they say that a congress of all peoples and all nations and tongues should be convened, the object being to bring about a real fraternity of nations and unite the enlightened people of the whole earth in a general co-operation for the attainment of the great end for which human society is organized. Among the great themes that such a congress would naturally consider are the following:

First—The ground of a national union of languages, literature, domestic life, religion, science and a civil institutions of the different peoples.

Second—Immigration and naturalization laws and proper international privileges of alien governments and their subjects or citizens.

Third—The most efficient and advisable means of preventing or decreasing pauperism, infamy and crime, and of increasing productive ability, prosperity and virtue throughout the world.

A number of other subjects to be placed before the proposed congress are also mentioned. The committee suggest a plan of action regardless of the location of the world's exposition.

BLACK BART CONFESSES. MILWAUKEE, Nov. 16.—A special from Beasomer, Mich., says that Riemund Holzlay, "Black Bart," on trial for the murder of Banker Fleischbein, of Belleville, Ill., and for the robbery of the Gogebic stage, took the stand in his own defense to-day and made a confession.

He admitted that he robbed the Milwaukee & Northern train six months ago; that he held up a Wisconsin train at Cadott, Wis., a month later, and that he lay in wait for the Gogebic stage and shot Banker Fleischbein. Holzlay claimed that he several years ago was hurt by a fall from a horse, and since that time has been subject to "spells," during which he did not know what he was doing. He said it was during these "spells" that his various crimes were committed.

He had several of these spells since his capture, and probably had a dozen or more since he was injured. Holzlay said he remembered the day he was arrested and who arrested him. He could not tell why he held up the stage. Holzlay says he does not remember who was in the Gogebic stage. He did not remember seeing Fleischbein or the driver, and failed to identify the watch and pocketbook said to belong to Fleischbein. He claimed he had never seen Fleischbein's name on the pocketbook until his attention was directed to it by Howell.

The prosecuting attorney frustrated the prisoner somewhat when he said: "Why did you carry two guns, knowing you were liable to have one of these

spells at any time and shoot. Holzlay seemed amazed by the directness of the question replied: "I carried the revolver myself from wild animals in and did not like to leave where, as I might not find it."

Holzlay was the only witness for the defense, and when he concluded the defense rested.

THE PAN-AMERICAN JOURNAL. PHILADELPHIA, Nov. 12.—The journey of the international tourists being practically completed the Associated press representative yesterday sought from a representative an expression of his feelings on the subject.

He said his attention had been fixed upon the industries with the objects necessary to reconstruct there is a great deal of construction in his country, the commerce of this country will improve if American make known their production, listing agencies in that country increase of communication, cheapening of the price of publication will largely contribute to result. He believes in the construction of a railroad through the cas and thinks its advantages considerable.

General Peraza, of Venezuela, in the journey the delegates to the practical solution of many of the countries. It is the conviction of the delegates that the main in development trade is the lack of good communication.

"The trip," said General Peraza, "has proved this much that vious opinions regarding languages as barriers to a perfect standing between the Americas are discredited by the facts."

Minister Romero, of Mexico, resided for over twenty years in England and has traveled through the country, spoke of the wonderful growth of the west, and had a sharp eye for the subjects where in the subjects which difference will discuss. He thought deal has been gained by calling attention of the people of the States to the resources of the countries of the hemisphere, in the inter-continental railway is feasible and will be long detaken.

Delegate Castellanos, of Ecuador, said increased commerce was absolutely necessary should advocate such a form standard of money is. The international railway would pleasure be aided by his country opening of the Nicaragua canal, a great boon to San Salvador other republics of the south.

Delegate Zelaya, of Honduras, had been most impressed by extraordinary energy of the people of the United States, who never seemed to work and whose ambition knows no bounds. He thinks prosperity is largely due to the development of the iron industry and raising things in which he thinks the States unquestionably ahead of a nation. He strongly favors a national railway.

Will Work for Chicago. CHICAGO, Nov. 16.—Resolutions passed by the Illinois state legislature to the effect that the members of the board, realizing responsibility resting upon them, a limited time for preparation of world's fair, to be held in Chicago 1892, will from this time forward their personal efforts and the able means at their disposal in the duty of the board, and by appointing by the general assembly, to that an exhibit within the duties of their department, about representative and entirely owing to the intelligent enterprise and industry of the people of the state, properly installed on the ocean ferred to.
