If you need anything in the way of Eye, Ear or Throat treatment, go to Dr. C. H. Andrews, Chadron, Neb.

Don't forget that THE JOURNAL is prepared to do all kinds of job printing in a neat and tasty manner, on short notice.

A progressive euchre party occurred at the residence of E. D. Satterlee on Monday evening, and those attending report a good time.

A letter was received a few days ago from Mr. Thomas, the mill man, but he had not decided on any plan of action at the time of writing.

WANTED—500 good posts wanted on subscription for which we will allow 10 cents apiece. A good chance to get THE JOURNAL without any outlay of cash.

On account of the prevalence of the influenza in the community, the contest for the Demorest prize medal has been postponed until Tuesday evening, January 21st.

The books of the Buffalo Lumber Co. will remain at the lumber office of G. Guthrie for a limited time for settlement and it is to the interest of all owing them to call soon.

Remember THE JOURNAL clubs with almost any paper in the United States and when you want anything in the line of papers or periodicals call and see us and we can save you some money.

The snow continues to fall occasionally, and the settlers prospects brighten as the snow deepens. Good crops are almost certain for the coming season, and a year of prosperity is bound to follow.

To those who have promised to bring us wood on subscription we would say that it would be very acceptable just at present, and we will be glad to have as much as our friends will bring us as soon as possible.

The JOURNAL acknowledges itself under obligations to Mrs. Wm. Schultz for some fine beef and sausage. There is no class who enjoy good things to eat better than western printers, and consequently the above good things were highly appreciated.

The Harrison orchestra, consisting of Dave Bartlett, John Biunt and W. E. Patterson, went to Lusk last evening to furnish music for a ball. It is needless to say that the people of Lusk were highly pleased with the services rendered.

The weather has been quite cold and some more snow has fallen. Today it is considerably warmer so that the snow is beginning to melt. It is to be hoped that it will go off slowly so that the moisture will settle into the ground rather than run off the surface.

January 12, 1890, was the 30th anniversary of Geo. Walker's birth, and notwithstanding the fact that the date fell on Sunday a number of friends assembled at his residence to help him celebrate the event. The result was that the day was spent in a very pleasant manner.

The influenza still has its grip on a number of people in this locality. Some have recovered and others are just coming down with it. No one has been seriously ill with that alone, although Mrs. McDowell has been suffering from a complication of diseases as a result of an attack of the malady. Judging from the reports the disease is not so severe at this altitude as at other places.

On last Friday Sheriff Reidy went to Crawford and brought back D. A. Howard, the manager of the jubilee singers who were here last week. He was tried before Judge Barker under the statute relating to beating hotel keepers, and the court found him guilty and fined him \$25 and costs. As he had no money he will have to board it out. C. E. Holmes prosecuted the case and E. D. Satterlee defended.

Mr. William T. Price, a justice of the peace, at Richland, Neb., was confined to his bed last winter with a severe attack of lumbago; but a thorough application of Chamberlain's Pain Balm enabled him to get up and go to work. Mr. Price says: "The remedy cannot be recommended too highly." Let anyone troubled with rheumatism, neuralgia, or lame back give it a trial and they will be of the same opinion. 50 cent bottles for sale by C. H. Andrews.

A good example of what can be done in this portion of the country in the way of improving a farm with a little money is the case of J. W. Scott. He came here a few months ago and now has a house, stable, sheds, stable lot fenced and the posts set clear around his place and a cross line of posts, ready for the wire, and in all he has expended less than \$100, all the rest having been accomplished by his own labor. Will some one tell us where there is a place where a settler can do as much as that with so small an investment of cash?

On last Sunday a severe storm passed over the east and southern part of Nebraska and extended down as far as St. Louis, Mo., at that point, as well as the rest of the territory covered by the storm, it was severe enough to be reported as a blizzard. The people of Sioux county can look with pity on the residents of these portions of the state while such storms prevail, free from most of the severe weather which their neighbors have to endure. If your friends want to be almost free from severe storms tell them to come to Sioux county to live.

We wish to urge on the farmers of Sioux county the importance of beginning in season to prepare for exhibitions next fall. Our county ought, by all means, to have an agricultural society organized by that time and hold a county fair and an exhibition should be made at the state fair without fail. If a little pains is taken in preparing the ground and putting in the seed, much better results can be had, and a much more creditable showing made both at the county and state exhibitions. It would be a good plan if steps were taken at an early date for the organization of a county agricultural society. Who will take the lead in the matter?

C. H. Andrews, druggist, desires to inform the public that he is agent for the most successful preparation that has yet been produced for coughs, colds and croup. It will loosen and relieve a severe cold in less time than any other treatment. The article referred to is Chamberlain's cough remedy. It is a medicine that has won fame and popularity on its merits and one that can always be depended upon. It is the only known remedy that will prevent croup. It must be tried to be appreciated. It is put up in 50 cent and \$1 bottles. For sale by C. H. Andrews.

A vacancy has occurred in the trusteeship of school district No. 9, and the director, S. L. R. Maine, has issued notices calling a meeting of the electors of the district, to be held at the school house in Harrison, on Monday, January 27, 1890, at 2 o'clock, p. m., to elect a person to fill the vacancy. There is no question but what everyone in the district should be present. There is no matter of more importance to the people than the conduct of the public schools, for it is there that the foundation is laid for the future well-being of the community and it is necessary that good, intelligent and honest school officers be elected to look after the interests of the rising generation. It is to be hoped that all interested in the public school matters will be present at the meeting called.

The county commissioners met in regular session on Tuesday, all the members being present and they are still in session. The most of the time thus far has been occupied in checking up the books of the county treasurer preparatory to turning the same over from the old to the new treasurer. This is about completed and the board will soon turn their attention to other matters. There is a great deal of important business to be transacted and the board will no doubt be in session for some time yet. The disposition of the board appears to be in accord

with the general wish of the people, to go to the bottom of the affairs of the county and let the people know in just what shape matters stand. We understand that a large number of petitioners have gotten up for various things, but it is to be hoped that the people will not attempt to crowd them upon the board too rapidly. There is a great deal of work to be done and it can be done more rapidly if new business is not piled up ahead of them. It was found that there had been no county attorney appointed according to law and the board appointed George Walker to fill the vacancy. On another page appears the record of the proceedings had at the last meeting, and the doings of the board during this session will appear in the next issue of THE JOURNAL.
