Onions—per lb.	4
Beans—per lb.	4
Coal—per ton	4 50
Wood—per cord	3 50
Lumber—native—per m. ft.	15 00

Corrected every Thursday.

—Corn at 50 cents a hundred at Turner's.

—Prunes, prunes, 18 pounds for \$1 at C. R. Wells'.

—The celebrated Anchor, patent brand of flour at C. R. Wells'.

—Go to Dr. Clary, Chadron, to get your eyes, ears and throat treated.

—When you want a good square meal go to the Northwestern hotel.

—Best vinegar in town at 30 cents per gallon. C. R. Wells.

—Go to Dr. Clary, specialist in eye, ear and throat diseases. Office in Central Block, Chadron, Neb.

—The Northwestern hotel always takes good care of its guests. A trial will satisfy you that that is the place to stop.

—If you need anything in the way of Eye, Ear or Throat treatment, go to Dr. Clary, specialist, Chadron, Neb.

—It would be a good plan if the walk ordered down last summer was completed along the west side of main street, before the spring rains begin.

—For comfort and good living go to the Northwestern hotel when in Harrison. Everything is done that can be to make it pleasant for those who stop there.

—The popularity of the Northwestern hotel has been gained by the pains taken to please guests of the house. People like to go where they are well taken care of.

—THE JOURNAL has received some special material for printing horse cards, etc., which are to be exposed to the weather. They will last during the entire season, and rain will not wash them down. When in need of anything in that line call and see us.

—E. A. Weir informs us that he intends to fence 275 acres of his land east of town, put down a well and erect a windmill so as to use it for pasture purposes. Being so close to town it will be very convenient for people in Harrison who desire to keep cows.

—The social at the residence of H. T. Conley on last Thursday evening was well attended and a pleasant evening spent. The valentine reading was a feature of the evening which caused much merriment and the taffy-pulling created a good deal of fun.

—A. W. Mohr received a carload of goods and stock last Saturday. There were some excellent horses in the lot, which Mr. Mohr took to his farm north of town. They were brought through by that gentleman's father-in-law, who we understand contemplates locating in Sioux county.

—On last Thursday the fine roller mills at O'Neill were destroyed by fire. The loss is estimated at \$100,000. The mills must have been a good investment for they will be rebuilt at once. If a mill of that size pays at O'Neill there is no question but a good return on the money invested in a mill at Harrison would be realized.

—In speaking of the arrest of the man charged with stealing a house in Andrews precinct in our last issue an error occurred so that it appeared John A. Pratt. It should have been simply John Pratt. John A. Pratt is a resident of Antelope precinct and was not at all connected with the affair, nor is he a relative of the party arrested.

—On the evening of Feb. 12 the many friends of County Superintendent Southworth and wife gathered at their home to spend the evening in social enjoyment. The time was pleasantly passed in conversation, games, dancing, etc. Some delightful music by Messrs. Rands and Lockwood was one of the most pleasant features of the occasion, and all went home well pleased with the evening's entertainment.

—In the replevin suit of Riley vs. Rands, the defendant took a change of venue from J. W. Hunter to D. W. Woody, and the case was set for hearing on Monday. On that day the attorney for Riley, asked and obtained a continuance until some time in May. By the way the case is being handled it is evident that there will be but little left of the value of the cattle after the attorneys and costs in the case are paid.

—Good flour at 90 cents a sack at Turner's.

—14 pounds of extra C sugar for \$1, at Wells'.

—C. R. Wells is receiving new goods daily.

—18 pounds prunes for one dollar at Turner's.

—14 pounds dried apples for one dollar at Turner's.

—12 pounds granulated sugar for \$1 at C. R. Wells'.

—When you want a nice clock call on Griswold & Marsteller.

—California canned goods at 25 cents per can at C. R. Wells'.

—12 pounds granulated or 14 pounds C sugar for one dollar at Turner's.

—I cannot, I will not, I shall not be beat in low prices. Respectfully, C. R. Wells.

—A choice family flour \$1.15 per sack, no better for the price sold.

C. R. Wells.

—In the matter of the men arrested in White River precinct as mentioned in our last issue, a change of venue was taken by the defendants from Justice McIntosh to Justice Maine, and on Saturday they were dismissed by him.

They were at once arrested again on a charge of assault and battery and taken before Judge Barker. A continuance was asked and granted until Wednesday.

At that time a jury was asked for by the defendants and in the afternoon the hearing was had. The jury returned a verdict that the charge was not sustained by the evidence and the men were released. There is no question but that Shay was pretty well pounded, but it could not be proven who did it and so there was nothing for the jury to do except to find as they did.

—A letter from Arthur Weir, who is at Newcastle, to his brother, E. A. Weir, of this place, states that the B. & M. surveyors are at Newcastle with instructions to make a permanent survey for a line to Buffalo. That would indicate that the B. & M. means to make the Newcastle line an important one and as it passes through a portion of Sioux county our people will be certain to receive some benefits therefrom. The indications are also good for the extension of the Elkhorn line passing through Harrison, and also for the closing of the gap between the Elkhorn and the U. P., and those will both have a tendency to help this section of the country, and will make this one of the most important lines of road in the state, as it would make direct railroad connections between South Dakota, Nebraska and Colorado.

—J. F. Post began to sow wheat last week and already has a pretty good acreage in the ground. Others are preparing to begin seeding in the near future, and the indications are a large amount will be raised the coming season. This brings the mill question up again. A letter was received by THE JOURNAL from Mr. Thomas stating that his brother, who was to be associated with him in the mill here should he decide to locate, was not in favor of a steam mill, so that the prospects of getting him to erect a mill are not very good. Now is the time to see if some one else cannot be found who wants to go into the milling business. With coal as cheap as it is here and the excellent quality of wheat grown in Sioux county there is no question but that a steam mill at Harrison would prove an excellent investment.

—On last Saturday an unusually large number of farmers were in town and a good deal of business was done. Before night, however, the supply of water in the public reservoir became exhausted and it remained so until Monday. There appears to be something radically wrong in the methods adopted to keep a supply of water on hand. The weather has been so that the pump could be run at any time and a supply of wood was on hand so that there was no excuse for letting the supply become exhausted. It would be a bad state of affairs if a fire should break out when there was no water, and every property owner should urge that plenty of water be kept on hand all the time. Then it is a bad plan to let the supply of water become exhausted so that the farmers cannot get water for their teams. When a farmer comes to town from five to thirty miles distant it is not very pleasant for him to find that he cannot get water for his team and he does not feel like spending his money with the merchants. It is to the farmers that the merchants must look for their trade and if they do not treat them right they will only come here when obliged to and it is to the interest of all that every effort be made to induce the farmers to come here. If the parties who have the contract to run the pump do not fulfill their contract let them drop the work and let some one else take hold of it who will do so. This town has no cinch on the trade of the farmers and care must be taken or many of them will cease to come here. It is about time that a change was made in the matter of keeping a supply of water on hand.

PERSONAL.

D. P. Davis returned from his trip north last Friday. He reports his son, John, improved in health.

A. Wannfried, representing the Western Newspaper Union, was in Harrison last Friday.

Thos. Devenport was up from White River yesterday as a witness in the assault and battery cases.

C. R. Wells made a business trip to Chadron last week.

J. B. Bradley was in Harrison on Monday and made a pleasant call at our office.

Commissioner Green was in Harrison on Monday and made a pleasant call at this office. He is confident that the Oregon Short Line will build across the south part of the county this season.

D. H. Griswold returned on last Saturday from his trip east. He says that after spending some days in Iowa he has made up his mind that he would rather take his chances in Sioux county than in any of the places he visited. He purchased a large stock of hardware and farm implements while away.

Word has been received from Mrs. U. W. Hester who left last week for Greenfield, Iowa, accompanied by her daughter, Claude, to the effect that they had arrived safely. The little girl has been in ill health for some time and was taken east for medical treatment.

C. L. Tubbs contributed to the welfare of THE JOURNAL last Thursday.

Arthur Adams was in Harrison a few days the first of the week.

—For farm loans go to S. H. Jones.

—Farms bought and sold by S. H. Jones.

—We need some wood on subscription at once.

—The cold weather of this week has put a stop to farming operations.

—The social this evening will be held at the residence of E. D. Satterlee. All are invited to attend.

—Mrs. J. A. Snyder has received a nice stock of fancy goods and notions which she is selling very cheap.

—When you want a farm wagon, plow, harrow, or anything else in the implement line call on Griswold & Marsteller.

—We have the biggest stock of hardware, implements and furniture shown in Sioux county. Come in and look us over. GRISWOLD & MARSTELLER.

—There were several flashes of lightning, accompanied by thunder on Tuesday evening. According to the old German adage that is an indication of a good crop this season.

—The ball on last Friday evening was a very pleasant affair. A fair number were in attendance and all had a good time. It is to be hoped that such balls will be held frequently.

—The latest business venture is the fancy goods and notion stock recently opened by Mrs. J. A. Snyder. It is quite probable that other new business enterprises will be opened in this place in the near future.

—The gold excitement has been running quite high about town for a few days and a majority of the men have a sample of quartz which they have picked up somewhere and a number of tests have been made. A good many believe that there is gold in paying quantities to be found within a few miles of Harrison and it does not look at all unreasonable. It is claimed that the Hat Creek basin was at one time covered with water and the Black Hills formed the north boundary and the pine ridge just north of Harrison formed the south boundary of the body of water. With all the mineral wealth found in the Black Hills it would be strange if some valuable mineral deposits were not hidden in the hills on this side. We understand that a number intend taking mining claims in the near future and will begin active operations in a few days, so it will not be long until it will be known for certain what is to be had in the gold fields of Sioux county. It is to be hoped that the most sanguine hopes of the gold hunters will be realized.

Bodare Bads.

County Superintendent Southworth made a trip to Indian creek on official business during the storm last week.

We have a new settler in the valley. Dr. Merideth, of Crawford, seems to have located him. The tenderfoot shows himself quite gamey, having jumped Mat Riley's claim. Mat considers himself lucky as he has the privilege of living with the jumper for an indefinite length of time.

A. B. Southwick has rented his farm to F. M. Smith, and removed to Crawford to engage in breeding fine hogs. Success to the old sailor.

The commencement exercises of the Bodare school will take place next Saturday night. A pleasant time is anticipated.

J. Meinhardt went to Crawford Monday. C. B. Hollingsworth visited at S. B. Coffey's last Saturday.

Some magnet in the Indian Creek country has attracted H. H. Stee; thither.

DON CARLOS.

Notice to Taxpayers.

The undersigned will be at Montrose on Saturday of each week prepared to receive taxes from Montrose, Five Points and Antelope precincts.

MARTIN GAYHART,
County Treasurer.

Dissolution Notice.

Notice is hereby given that the partnership heretofore existing between M. Gayhart and John H. Gayhart, under the firm name of Gayhart & Son, is this day dissolved by mutual consent. John H. Gayhart retiring. The business will be continued by M. Gayhart, who will pay all indebtedness, and to whom all accounts are payable.

M. GAYHART,
JOHN H. GAYHART.

Montrose, Neb., Jan. 27, 1890.

Best Line to the East.

The Burlington Route B. & M. R. R. is running elegantly equipped passenger trains without change from Newcastle, Wyoming and Crawford, Nebraska, direct to Lincoln, Nebraska, making connection at that point with their own through trains for Denver, Cheyenne, and all points west, and for Kansas City, St. Joseph, St. Louis, Omaha, Peoria, Chicago, and all points east.

Remember this is the only line by which you can take sleeping car from Crawford in the evening arriving in Lincoln and Omaha the next afternoon, and in Chicago, Peoria and St. Louis the following morning.

For further information and tickets apply to nearest agent of Burlington Route B. & M. R. R.
