### Into the Reservation.

CHAMBERLAIN, S. D.Feb. 11.-The loud report of a cannon yesterday was the signal for the boomers to enter the Sioux rence. reservation in accordance with the pres ident's proclamation. Hundreds of teams with great loads of lumber started on a dead run across the river, and the hundred or more Indian police, placed as a guard to prevent any premature invasion, stood dazed and helpless as they viewed the great and irresistible rush for the reservation. A. most novel sight was the moving of a large building.under which had been placed many heavy timbers and wheels. This, like the other wagons, was pulled across the river by galloping horses. There were a number of smash-ups in the rush, but as yet no fatalities have been reported. Houses are being erected tonight by the light of lanterns and the morning sun will shine on a score of new houses, many of them grouped in the new town on the west side of the river.
