Beans—per lb.	4
U. S.—per ton	1 50
Wood—per cord	1 50
Lumber—native—per m. ft.	15 00

#*# Corrected every Thursday.

—For farm loans go to S. H. Jones.
—Get something ready for the state fair.

—Harness made to order out of No. 1 oak leather, at Cunningham's.

—The new house of G. Guthrie is being lathe ready for plastering.

—Our thanks are extended to J. M. Daniels for a fine watermelon which he brought in on Monday.

—Call and see the complete line of harness, saddles, whips, lap-dusters, etc. at the harness shop.

—A son of H. Wusserberger, near Montrose, is reported dangerously ill with mountain fever.

—A good exhibit at the state fair will increase the value of every bit of property in Sioux county, so it is to the interest of all to assist in the work.

—On Tuesday THE JOURNAL was at the residence of John Pratt, on the C. L. Tubbs place on Monroe creek, and to see the corn, potatoes, pumpkins and other products makes all idea of crop failure disappear.

—SEASONED LUMBER: We have a good supply of seasoned lumber constantly on hand at our mill on West Boggy. 10 and 12 feet \$10.00; 14 and 16 feet \$12.00 per thousand feet. J. E. ARNER.

—Be sure to bring the best corn, oats, wheat, potatoes, tomatoes, cabbage, melons, and every thing else you have to help make up the exhibit to the state fair.

—J. H. Cook has taken his Hambletonian stallion, Mendonian, 7929, to Crawford where he will be put in training for a while. This is one of the finest horses in the northwest, being valued at over five thousand dollars. Sioux county will soon have a reputation for the fine stock grown there.

—Eli Smith brought in a willow of this year's growth, the main stalk and limbs of which made an aggregate length of 9 1/2 feet. If that does not indicate that the soil of Sioux county has producing qualities we should like to know what is necessary to demonstrate the fact.

—For the Corn Palace at Sioux City agents of the Fremont, Elkhorn & Missouri Valley and Sioux City & Pacific Railroads will sell excursion tickets at one fare for the round trip. Inquire of any agent or write to Mr. Jonas M. Cleveland, Sec'y of Sioux City Corn Palace, Sioux City, Iowa.

—C. L. Brooks and Frank Demasig will bring in the big pine log to be taken to the state fair. It is said to be over three feet in diameter. It is safe to predict that no other county in the state will show its equal. Logs of that size are scarce in Nebraska outside of Sioux county.

—The reports from over the county in regard to articles for the exhibit at the state fair are better than any one supposed they would be. All that is needed is to get the stuff together and Sioux county will make a showing highly creditable, and the result will be that all will be benefitted thereby.

—There are about ten loads more of logs and trees to be hauled from the canyons to get all the stuff for the log house here. Any one who has a team should take time enough to get a load up. The committee will tell you just where you can find the logs and you can thus help give Sioux county a boom.

—C. E. Holmes, as member of the committee on grasses and grains for the state fair exhibit, received some valuable assistance from Rev. J. M. Bates who was here last week. We venture to predict that no county exhibit of wild game will be in better shape than that from Sioux county.

—A special excursion train of "home seekers" from Canada, will attend the state fair. Another from in and about Washington, Ill., will take it in. Also, one from Peoria, the same state, will look the fair over. A delegation from the Illinois state board of agriculture will come over and see how our management runs a great fair and exposition.—State Journal.

—Have you selected any thing to help make up the exhibit at the state fair?

—Bring in a sample of the native grasses which grow in your locality to help make up the state fair exhibit. Bring a good lot of it.

—Don't be at all backward about bringing something for the state fair exhibit. The committees want all they can get.

—The boys on the Boggy should be careful when they enter a melon patch after dark, for it is hard to tell just where Daniels and his musket are located.

—E. A. Biglow brought in a sample of potatoes Saturday that do not indicate that they are a failure in this locality. They were simply planted under and had no cultivation at all.

—Sioux, the far away northwestern county in Nebraska, has arranged to erect a building of native pine on the state fair grounds and fill it with exhibits from that county. There is enterprise for you.—State Journal

—A son arrived at the home of C. H. Andrews on last Saturday night. All parties concerned are doing well. As it is the first-born, Mr. Andrews cannot be blamed for carrying his head a little higher than formerly.

—Another suit for damages done by stock to crops was heard in the county court on Monday. Jacob Henry was plaintiff and D. W. Woody, defendant. The court awarded damages to plaintiff in the sum of \$38, the costs to be paid by defendant.

—We understand that MacLachlan & Cook, the new proprietors of the Ranch Supply House, contemplate the erection of a business building of dimension sufficient to hold the stock of goods they expect to carry. That will be a gain for the town.

—The premiums offered for the best county collective exhibit are cash prizes of \$250 and champion silver medal, one hundred copies, one year, of the *Nobles for Farmers*, and one special prize of \$25 for the best and largest collection of native grasses. Certainly that is worth a little effort on the part of each citizen of Sioux county.

—S. H. Jones has leased E. A. Weir's farm just east of town, for a term of years. The houses are to be moved to the west end of the place, and the place will be occupied this winter by L. Gerlach the well-known clerk of the Ranch Supply House.

—It does not matter what you have that shows the productiveness of the soil of Sioux county, it all helps make up an exhibit. The more the better. Bring it in and give it to the committee. It is a duty to the general prosperity of county and none should hesitate to do all they can to help the matter along.

—Last week Mrs. S. C. Bassett moved into her new house and on Saturday evening a number of her friends took her by surprise and gathered there to spend the evening. The time passed pleasantly in social converse, interspersed with vocal and instrumental music and the party returned to their homes wishing Mrs. Bassett a long and pleasant residence in her new home.

—It will take two cars to transport the exhibit for the state fair to Lincoln. The work on the log house is progressing in good shape. The committee will need a number of teams to get trees from the canyons suitable to put around the building after erected. If you can assist in this matter, report to the committee which is composed of Thomas Reidy, David Bartlett and C. L. Brooks.

—The fusion gang outfit held the adjourned session of its convention on last Tuesday. The total number of delegates present were nine, of which three were from Bowen precinct; three from Bodarc precinct; and one each from Five Points, White River and Warbonnet precincts. J. P. Davis was nominated for county attorney and F. L. Simons for county commissioner. Simons was a candidate for the nomination before the republican convention and received three votes, so that counting the votes he received in both conventions he got all told, twelve votes.

—An addition has been made to the proprietors of the Ranch Supply House. James H. Cook having associated himself with Hugh W. MacLachlan, and the business will now be conducted by the firm of MacLachlan & Cook. Mr. Cook is wellknown to the people of Sioux county, being proprietor of the Agate Springs stock farm and has been a resident of the county for a long time. The financial standing of the Ranch Supply House under the former ownership was excellent, and the new addition to the firm makes it one of the strongest, financially, in the northwest. The intention is to greatly increase the quantity and variety of goods carried, so that the people will be able to buy just what they want, and by buying in large quantities, they expect to be enabled to sell their patrons first class goods at low figures. Harrison is to be congratulated on its new business acquisition.

—A daughter was born to Mr. and Mrs. C. F. Slingerland on Tuesday.

—A son made his arrival at the home of Mr. and Mrs. William Moore on Wednesday.

—O. M. Kemm, the independent candidate for congress, is expected here to speak some day next week, but the exact date has not been learned.

—This may not be a good year for potatoes, but yesterday we took one from a lot on sale at the Ranch Supply House which weighed one pound and fourteen ounces, and there were plenty more which were nearly as large. They were grown by Alex Steele.

—It may be legal but it looks peculiar for the sale of property taken under chattel mortgage filed in the office of the county clerk of Sioux county to be advertised for sale in Dawes county, and if the parties taking the property would look it up they might avoid getting their "foot in it."

—It would be a good thing had arrangements been made to have some of Sioux county's fine stock at the state fair. To have it known that such horses as A. W. Mohr's imported Percheron and other draft horses are owned in the county and that at the Agate Springs stock farm, J. H. Cook is raising standard-bred trotting horses, would certainly attract the attention of men interested in good stock.

—In another column appears a call for the board of county commissioners to meet on Saturday, September 6th for the transaction of county business. There are a number of vacancies in the road districts in the office of road overseer and it is essential that they be filled. A number of claims which have been passed upon will be taken up for re-consideration in accordance with the action of the board at its last meeting.

—The result of the habeas corpus proceedings which were pending at the time of our last issue, was that the prisoner was released. She was re-arrested in White River precinct and again held to the district court by the justice of the peace. On Tuesday another habeas corpus proceedings was heard in the county court and the prisoner released. As soon as released, Mrs. Shay left town with intention of leaving the state, and if that done there will be no more trouble in the matter.

—In the second case County Attorney Walker did not participate, the prosecution being conducted by E. D. Satterlee.

—The *Herald* makes a crack at Attorney Conley because he would not sign a petition to the district judge asking that no jury be called for the September term of the district court for Sioux county. The fact of the matter is that Mr. Conley is retained in more cases now on the docket than all those who signed that petition put together, and a large number of the cases are for jury trial. If an attorney desires to have his cases deferred it is all right for him to favor no jury, but when an attorney wants the cases in which he is employed tried in order that his clients may know the result, it is but right that he should want a jury. Perhaps the editor of the gang organ does not want a jury to pass upon his double primary work of a few weeks ago.

—Gov. Furnas writes that they will furnish a large flag to put on the Sioux county building at the state fair and "whop it up" for Sioux county in every way possible. The exhibit contemplated by this county is attracting attention all over the state and the result will be highly beneficial. It is only a few days now until all must be ready to ship. Do not let an opportunity go by whereby you can assist to make it as attractive as possible, bring something, either wild or tame. Wild fruits, either on the vine or put up in glass, will make a feature which will attract the attention of the ladies. Pumpkins, melons, squashes, cucumbers, and everything else should be on hand in abundance. Do not delay. But get at it at once.

—Some fine specimens of different articles for the state fair exhibit are coming in and others are reported ready for delivering at the proper time. The enterprise promises to be a grand success. All should bear in mind that everything should be here on Saturday except such as are still growing and they should be delivered not later than Monday, but the articles should be reported at the committee meeting on Saturday so that those in charge will know just what to depend on and what they will have to make a special effort to secure between Saturday and the time for shipment. Nothing stands in the way of Sioux county making a grand exhibit if the proper efforts are continued. Some of those interested are devoting their whole time to the work and if each person devotes a little time and energy, success is certain to crown their efforts. There is no doubt of the exhibit being a success; and it is now in order to see how great a point of excellence it will be possible to attain. Let every individual do his best and Sioux county, and every resident thereof will reap a substantial reward.

—Another suit has been commenced by Jacob Henry against D. W. Woody for more damages done to the crops of the former by the stock of the latter. It seems that just before the plaintiff came to Harrison on Monday, a lot of cattle were seen in his field. He, in company with witnesses, started to where they were, and soon saw a man riding rapidly after the cattle. On getting closer, they identified the stock, and when the man who was after the stock got closer it was observed that his face was masked with a handkerchief so that they could not tell who it was. That was a very peculiar proceeding to say the least. There are a few men who entirely disregard the law in regard to taking care of their stock. In the locality where these parties live, feed is very scarce and the people can ill afford to have what they have destroyed, even if they can recover in the courts. The settlers cannot be blamed if they get out of patience with such proceedings. A man cannot continually violate the law with impunity and the people are getting pretty thoroughly aroused and should serious results follow those aggravating the settlers will have no one to blame but themselves. If all would abide by the law there would be no trouble and we hope that all will see that it is to their interest to regard the rights of their neighbors.

PERSONAL.

E. J. Wilcox was in Harrison on Saturday.

L. Gerlach contributed on subscription on Monday.

H. G. Armstrong writes us to send THE JOURNAL to him at Custer City, S. D., where he is located.

Carl Feyerherm was in Harrison on Saturday, having arrived home from the hills on Wednesday.

Hugh W. MacLachlan was at Crawford on business Tuesday night.

Dr. Bryant came up from Crawford Tuesday to attend C. E. Verity.

C. E. Verity is suffering with an attack of mountain fever.

H. H. Russell was in town yesterday. He says that if Sioux county was going to make a stock exhibit at the state fair, he has some cattle which would compare favorably with those from any part of the state.

On Monday evening Rev. I. F. Lusk having closed his work as pastor of the M. E. church, left and expects to be sent elsewhere by conference. During his residence here he was called upon to contend with obstacles seldom encountered, and his friends hope that his future path will be more pleasant.

E. A. Weir took the train on Monday for his destination being Harvard College, where he intends to take a three years' course in the department of medicine. During his long residence here he has proved himself to be a man of good ability, energy and the most sterling integrity. He has many friends here who will always be pleased to know of his success in whatever he undertakes, and his well known thoroughness will tend to make him able to overcome any obstacle he may be called on to encounter.

Still More About Him.

The following is what the *Leader*, of Broken Bow, Custer county, has to say of H. T. Conley, the republican nominee for county attorney of Sioux county:

"Many republicans in this county will remember Mr. H. T. Conley, who formerly practiced law at Ansley, and who moved to Harrison, Neb., about two years ago. Hugh has been nominated by the republicans of Sioux county for county attorney, and while the vote in that county is close, the people there can elect no better man than the republican nominee. For the position he occupies to-day he is indebted to no one but H. T. Conley, and the man who has always had to fight for success, usually acquiesces it. The *Leader* hopes Mr. Conley will be elected."

Cleanse the blood with Ayer's Sarsaparilla, and realize what poor health you have had.

Scrofula cannot resist the purifying powers of Ayer's Sarsaparilla. Sold by druggists.

Now

You can get a farm loan of the Bank of Harrison. Small loans only.

As a Rule,

It is best not to attempt to remedy constipation by the use of saline or drastic purgatives. When a cathartic medicine is needed, the most prompt and beneficial is Ayer's Pills. Their effect is to restore the regular action of the bowels, without weakening them. Being sugar-coated, these Pills retain their medicinal virtues for a long time, and are easy to take.

"I can recommend Ayer's Pills above all others, having long proved their value as a cathartic for myself and family."—J. T. Hess, Leithville, Pa.

"In 1856, by the advice of a friend, I began the use of Ayer's Pills as a remedy for biliousness, constipation, high fevers, and colds. They served me better than anything I had previously tried, and I have used them in attacks of that sort ever since."—H. W. Hersh, Judsonia, Ark.

Ayer's Pills,

PREPARED BY DR. J. C. AYER & CO., Lowell, Mass. Sold by all Dealers in Medicines.

CHAMBERLAIN'S

Eye and Skin Ointment. A certain cure for Chronic Sore Eyes, Tetters, Salt Rheum, Scald Head, Old Chronic Sores, Fever Sores, Eczema, Itch, Prairie Scratches, Sore Nipples and Piles. It is cooling and soothing. Hundreds of cases have been cured by it after all other treatment had failed. 50 and 25 cent boxes for sale by C. H. Andrews, Druggist.

HERE, WE ARE READY FOR SPRING TRADE WITH OUR
