Letters have already begun to come making further inquiry in regard to Sioux county, as a result of the exhibit at the state fair.

The buildings on E. A. Weir's place have been moved to a new location near the windmill. His barn back of the Ranch Supply House has been moved and other buildings will be changing places soon. C. S. Scott and J. A. Brill are doing the work.

In another column we publish the proceedings of the meeting of the democratic county central committee and also the call for the democratic county convention. Such courtesies are extended to any organization which has no paper in the county.

The county convention of the W. C. T. U. was in session on Tuesday and Wednesday under the conduct of Mrs. C. M. Woodward, state organizer. Mrs. S. C. Bassett was elected president of the county society, and Miss Minnie Smith was elected delegate to the state convention of the W. C. T. U.

The ladies will give a "Pink Tea" at the church on to-morrow (Friday) evening. A pleasant time is assured and all are invited to attend. The proceeds are to go to establishing a public circulating library for the people of Harrison. The object is certainly an excellent one and should have the assistance of all.

On last Monday articles of incorporation were filed in the office of the county clerk of the Niobrara irrigation and improvement Co. The incorporations are residents of Hemingford and that is the chief place for transacting business. They intend to open an irrigation ditch beginning at the east line of Sioux county on the Running Water, or Niobrara and use the same for irrigating the land in Box Butte county. The plan is a good one provided the using of the water of the stream does not conflict with the laws. Some claim that the stream is not wide enough to allow it to be tapped but if that is the case the company may have a fault called on their work.

At The State Fair.

On last Saturday the committee who went to Lincoln in charge of the Sioux county exhibit at the state fair arrived home. They were all pretty well tired out but felt highly pleased over the result. The county exhibit did not secure any prize, but it attracted a great deal of attention. When it is considered that the exhibit was arranged and gotten up in two weeks, while the other counties had been putting in time and money for months, there is no reason for any one to feel led because no prize was received.

The hops from Sioux county took first premium and the cabbage grown by Leo Back took second premium. The log house and big pine log was a revelation to thousands and thousands of people even of this state who did not know that there was any such timber in the state. A great many inquiries were made by parties who were looking for locations. One man stated that he was there to find out all he could as he wanted to locate forty families in some "free home" district. Another said he had a little colony of twelve families who desired to come west and secure government land, and these are a beginning of the number who were really interested. The amount of stuff sent down was about all that could be accommodated in the log house.

It required a great deal of work on the part of those in charge to get the house up and the exhibit in shape. The stuff was donated by the committee to the Home of the Frigidless, of Lincoln and the log house and big log remain on the fair ground as the property of Sioux county, and the managers of the fair are very anxious that the people of Sioux county arrange to be on hand next year and build an addition to the house and fix up the structure now there and fill all with the produce of Sioux county.

The attendance at the fair was larger this year than ever before, and it is a low estimate to say that one hundred thousand people saw Sioux county's exhibit while on the fair grounds. An unusual effort was made by people seeking homes in the west to attend the fair and the amount of good which Sioux county will derive from the effort made cannot be estimated.

The committee state that the treatment received at the hands of the management was all that could have been asked. It was necessary to put up the 337 for the car of logs before it left Harrison, and Sec. Furnas made his word good and refunded it to the committee out of his own private funds.

The entire enterprise was a grand success and demonstrated what can be accomplished for the good of the county when the effort is made. Now let every one who desires to see the county settled up so that the land will become valuable and business increase, begin at once to prepare something for the exhibit next year. The result will be that every bit of property in Sioux county will increase in value and there is no way to make valuable except by getting people to come here to live so that the land will be in demand.
