—The ladies of the W. C. T. U. have arranged for a grand rally on Tuesday, Oct. 28th, at the church. It is hoped that the people from the country, as well as those in town, will turn out. Let us see the capacity of the house tested. Extra seats can be secured. May every lover of the home be present.

Mrs. S. C. D. Bassett, Pres.

—The necessity of some step being taken to organize a cemetery association is again called to the attention of the people of this locality. It is right and proper that the ground be laid off in lots and blocks and arrangements made for marking the little "silent city of the dead" a beautiful spot. There would be little expense attached to the organization of an association and then proper action could be taken. Let some of those who have relatives buried there take hold of the matter so that an organization can be perfected and when spring comes the ground can be fenced and some trees planted and other improvements made. When once established people who expect to make this their home will purchase a lot and proceed to improve it. Do not wait for each other, but let some one make a start to get an association organized.

—T. O. Williams is putting down wells in Wyoming.

—Satterlee, Walker and the *Herald* now have full possession of "rotten row."

—Dr. Shafer reports the arrival of a great, big boy at the home of A. M. Taylor on last Sunday.

—A light snow accompanied by a high wind visited this locality Monday morning. The white flakes melted nearly as fast as they fell.

—The dance at the court house on last Friday evening was a very pleasant affair. The attendance was not as large as on some occasions, but enough were there to make it interesting. Other parties of like nature will probably be quite frequent during the winter.

—It will be remembered that the gang and its organ last fall made the hardest fight against Judge Barker during the campaign and the result was that Barker received the biggest vote of any man on the ticket. Taking that as an indication, Conley will be elected by a hand-some majority.

—Remember that Haines, the photographer, will remain but a few days longer and if you want anything in his line you should call at once. If you want a picture of yourself or family, you should take advantage of this opportunity, for his prices are exceedingly low.

—The gang organ says that Conley is in the hands of his friends and that his friends are to be pitied. There is one thing certain, and that is that Conley will never prove a traitor to those who nominated him, as did D. P. Davis, the "advisory" member of the *Herald* Publishing Company, two years ago.

—It is reported that George Furnival, who murdered five persons in Nance county some years ago, has been captured in Mississippi. A man's crime usually overtakes him, no matter how he may dodge. Should the report prove true, it is likely that the perpetrator of the cold-blooded murder of five persons will pay the penalty of his crime.

—At the recent county institute four scholarships were offered as prizes by the Iowa State School of Shorthand, of Kellogg, Iowa. The following are the names of those to whom the prizes were awarded and the grades in which they excelled: A grade, Miss Eva E. Connor; B grade, Miss Anna Price; C grade, Miss Addah Arner; D grade, Miss Minnie Crane.

—Some one broke into the harness shop of H. A. Cunningham last Thursday night and took a cinch off the finest saddle he had in the shop. The entrance was effected through the window at the rear of the shop. This is the first case of burglary in this place that we have heard of for some time. A few petty thefts from cellars, barns or like places have been reported occasionally. If some one is going to burglarize people had better look to the protection of their property.

—The last issue of the *Herald* contained a card signed by F. L. Simons, the gang candidate for commissioner, denying the statement that he intends leaving the county if not elected, and he clinches the statement with the regulation argument of the gang "law." It will be but a few days until Mr. Simons will be defeated, and what follows will prove whether THE JOURNAL was misinformed or not.

—The report from White River is that Dan Klein says he is going to do all he can against Conley until election and then leave the county. It is safe to say that the influence of such men will not be sufficient to injure Conley to any great extent. It is men who have about the same amount of interest in the future of the county who are making the most of the fight against Conley.

—Some of our farmers complain of the treatment received at the hands of the threshers. It is said that for a time they charged six dollars a setting where there was not sufficient to make that amount at the regular rate per bushel, but after the cream of the work was done so that no other machine would come in, they put the price up to ten dollars a setting, and no one can blame the farmers who had to pay the increased price for kicking.

—A man was tried for murder a few days ago at David City and the jury acquitted him. A minister of that place took occasion to criticize the verdict severely in a sermon on last Sunday, in which he stated that such verdicts would call out Lynch law. There are sometimes cases which are so handled by the courts, or delayed on one pretext or another until patience ceases to be a virtue and in their wrath they proceed to deal out justice without any red tape, but plenty of rope, and it is a noticeable fact that a lynching has the effect of hastening the steps of justice in case of crimes in that locality, and greatly increases the certainty of punishment for violations of the law.

C. S. Scott and John Slade are in Custer county for a few days.

W. R. Smith went down the road last Monday evening.

C. E. Gowey was in town the first of the week and called at our office.

H. A. Cunningham expects a visit from his father in a few days.

E. L. Pigg, the independent candidate for representative for this district, is in this vicinity looking after his political fences.

E. M. Carrier came down from Custer City last Friday and remained until Monday. He says work is plenty in that country.

C. E. Holmes, cashier of the Bank of Harrison, returned on Tuesday from an extended trip through the Black Hills country.

R. W. Windsor and wife, of Alliance, came up last Saturday for a visit. Mr. Windsor has not yet recovered from his severe attack of mountain fever.

Frank Tinkham called last Saturday and gave us some cash on subscription. His partner, Jack Krieger, intends to go to Washington to spend some months, leaving Mr. Tinkham to look after their stock and farming interests in Sioux City.

W. A. Nelson came down from the hills last week, and having obtained a leave of absence from his homestead, took his family with him to spend the winter at Custer City. He says all the Sioux county boys in that locality are doing well. THE JOURNAL goes to him each week to keep him posted.

J. A. Brill intends to put in the winter logging at Arner's mill. He will likely take his family to that vicinity to enable him to live at home.

J. W. Arrest will begin the erection of a new house on his farm on Running Water, in the near future. He expects to have it ready for occupancy before cold weather sets in.

Rev. Rorick came up last Saturday and filled his appointments as announced and returned to Hay Springs Monday. Mrs. Rorick is improving and they will move here in about two weeks.

A strong effort is being made to induce Gov. Thayer to pardon John R. Polan, of Plattsmouth, now serving a life sentence in the penitentiary. The man was first sentenced to be hung and the sentence was commuted to imprisonment for life. It has developed that Metteer, the man Polan killed, had seduced the wife of the latter, and persuaded her to desert her home, but that fact was not shown at the trial. The governor should not hesitate to grant a pardon when asked for under such conditions. No man ought to be punished for avenging himself on the destroyer of his home. That is a crime which the laws fail to reach and when a wretch intrudes and destroys a home, the injured party certainly ought to be justified in meting out swift and terrible vengeance on the destroyer.

On Account of Short Crops.

The state board of educational lands and funds met on last Monday and adopted the following as a relief measure for western farmers whose crops failed them the past season:

"WHEREAS, There are at present a great number of leases delinquent in payment of semi-annual interest, and WHEREAS, It would be a hardship to force the payment at this time, therefore be it

"Resolved, That the commissioner of public lands and building be and is hereby instructed to delay the preparation of the list for the forfeiture of all delinquent school land leases until the further order of this board."

—At a recent meeting of the school board it was decided to divide the school into two departments and employ an additional teacher for the primary grade. This step is considered necessary on account of the large and increasing attendance. It is the proper thing for the board to provide the best educational advantages that circumstances will allow. The fall term of school closes this week and the winter term will begin on the first Monday in November. Miss Conner has been retained and will have charge of the higher department. They also instructed the treasurer to proceed to collect the funds yet due from John Thornton, the former district treasurer.

Every family should be provided with a bottle of Ayer's Cherry Pectoral. It is a specific for colds and coughs.
