Rapid Trapair Underground. New York, May 30 .- The first substantial move toward solving the great problem of rapid transic underground Wednesday when the commission gave to the public their long expected report outlining the system, construcn and route. If this report meets the approval of the common council, and if the road is built as directed, the local traveling public will have good reason to congratulate itself. The one great feature is that it will be centrally located under the grand artery of travel where it will meet the demands of the countless thousands who impatiently wait daily to be swished from one end of the island to the other. The starting point will be at or near the South ferry, and following under Broadway to Fifty-ninth street it will continue under the boulevard to 163th street, and then under Eleventh avenue. At or near Manhattan avenue a viaduct will be built and another will cross Spuyten Duyvil. Thence to the city limits the road can be built on a viaduct or through a tunnel, which may be advisable on careful examination. The entire distance is eighteen miles. The motive power must be electricity or else romething equally as safe. While the report suggests that two tracks may be above and two below, the far tracks will undoubtedly be built on one level. which will surely give more satisfaction to those de iring a transfer. The report was unanimously adopted.

The Cofferville Dynamite Explosion. TOPERA, KAN., May 23 .- The reports

of three wings of the legislative com mittee appointed at the last session to investigate the Coffreyville dynamite explosion have been made by the goverpor. Then there is a general statement signed by all the members of the committee. The explosion occurred during the campaign of 1888 and resulted in serious injuries to the wife and daugh ter of Express Agent Upham. It was charged on the republican party by members of the union labor party and by the republican party was charged on the union labor party and the National Order of Vidette, a secret political organization which then existed, mostly within the union labor party. The report of the alliance, or people's party members finds that members of the republican state central committee had guilty knowledge, if not more, of the dynamite plot and points to C. A. Henri who was appointed assistant labor commissioner, who was there in the employ of the committee, as the party who worked it up. The other reports de not sustain this one. Senator Carroll the democratic member, says no one has been proven guilty and no good has been done. A large amount of money has been expended.

New York, May 30 .- The Sun says: dioceses in the country have practically voted for or against the consecration of Blahop-Elect Breoke. Of these sixteen dioceses have given their consent and air have withheld it. Dr. Brooks requires at least eleven more in his favor before the necessary majority will be obtained. Dr. Brooks' friends are confident that be cannot fail to win, but it is not an absolute certainty yet that he will get the necessary vote. Several standing committees in western and southern diocesse have met since De Brook's election was announced, but they have not taken up the question of his consecration. Several diocesse were heard from yesterday and all but one of them voted for consent. The Church-man of this week has several letters from clergymen championing Dr. Brooks One writes that Dr. Brooks' presence at the installation of Lyman Abbott, and his union rervice with a Unitarian minister, simply indicates the preacher's ardent love for his own church.

In Regard to the Mormon WASHINGTON, May 28 .- When the

preme court at its last term upheld the constitutionality of the Edmunds law. by which the property of the late corporation of the church of Jesus Christ of Latter Day Saints, otherwise known as the Mormon church, was escheated to the United States, it found itself in a somewhat embarassing position. The doctrine of escheat was quite unknown in this country and no purpose considered laudable and proper of a similar nature to that for which the property was formerly used was known to which the property could be devoted. The court therefore, instead of sending its legree down, withheld it, a strong incination being conveyed of the desire of cover. the court that a ngrees should by law direct the disposition to be made of the headquarters of the Union Pacific property. Stage Drivers strike Continues. Paris, May 28.—The strike of stage drivers continues and is causing much reitement. Enormous crowds of people surround the depets of the omnibus company, around which there is trong guard of police and troops. The company assisted by the police attempted to ran several stages. The strikers first stoned them and then made a charge, driving away the police. The drivers were dragged from the boxes and pounded vigorously and their stages werturned. The efforts of the police ere useless in the face of the overbelming mob. At one time it was bught the troops would be called upbut it is expected they will not be Sered out ounless the situation be thes very serious.

Public sympathy is with the striken sho are out for shorter hours and the instatement of some of their compan as who were discharged because they longed to the union. Many of the ewspapers of the city have opened subscriptsons on behalf of the strikers and their families in order to enable them to successfully push their fight.

A committee of five was than sppointed to consider the constitutionality f the action proposed, to report to this amembly at their earliest convenience. The standing committee on the board of home misseions reported through Dr. Raymond of Albany. He thought the church needed a great missionary axakening. The speaker gave a glance at northwest New England and at other divisions, especially emphasizing the need of foreign population. The reporshows total receipts for the year of over \$958,000. One hundred and thirty-five churches were built during the year a' a cost of \$42,500 and church debts wen paid to the amount of \$ 41,000. The membership in the churches increased until their total reached 156,000; total in the Sunday schools, 178,000. The year closed with debts amounting to \$98,000 which were caused by a falling tion by the local authorities of the seed off in legacies. Great progress in the work of evangelization was reported from all over the country and the need of more workers was evident, especially in the newly settled portions of the west In the new mine and stock raising states of Montana and Idaho there were great inducements for good workers, and in the swiftly growing towns of Washing on there was an imperative need for more men. In Utah, Wyoming and Colorado there had been good progress In New Mexico there were opportuni ties to reap large barvests. In all but four southern states South Carolina Georgia, Mussissippi and Louisiana-the board has missionaries. Considerable progress had been made among the Mexican and Indians and Mormons.

Recommendations were made in connection with the overture asking that each presbytery be idvited to select delegates who shall constitute a special committee on home missions within the bounds of each presbytery, also urging the board to push Sabbath work among the foreign populations.
