Attorney-Editor Walker knows all the the courts.

The democratic state convention has been called to meet at Grand Island on September 17th. There are to be 516 delegates. A large gathering to meet simply to put up candidates to be defeated.

Editor-Attorney Walker says he is trying the county officials before the tribunal of public opinion. His success in trying cases in the courts has probably led him to take this course and as he has lived in Sioux county for seven years, during which time he has established his reputation, his statements, unsupported. go-for naught.

George W. McKay, the Kansas alhance judge, issued an order a few days ago for the arrest of a sheriff for obeying an order of the supreme court. Steps have been taken for the arrest of McKay for contempt of the supreme court. It was acknowledged all the time that McKay was not very great on law, and it now looks as if he was not possessed of good horse sense.

The crop reports from Europe, Asia and all foreign countries, as a rule, indicate a small yield and a reduced acreage. Efforts are being made to make as good a showing as possible in order to keep the price down until dealers can purchase a supply. But the fact is established beyond question and the result will be that the farmers of the United States will not only reap a good harvest but they will also get a good price for what they have to sell.

The railroads have decided to grant the request made and run harvest excursions this fall. That is good news to the people all over the state of Nebraska. Now is the time for people to get a hustle on themselves and tell their friends and relations in the east to come out here on a visit and see what this country can produce. The dates of the excursions will likely be announced in the hear future. The crops this year will take if she sends anything but a Kinkaid bear inspection and all there is to do is to delegation to the convention. Such organizations are a good thing and should be kept up. This is an age of organization and a great deal of good can be accomplished by concerted action, and there is no doubt that this association will prove beneficial to the newspaper fratermty of northwest Nebraska. He has not the practical knowledge that Judge Kinkaid has acquired in the four years he has so ably and so satisfactorially filled the position.
