Parties wishing to buy or sell should see the Secretary.

Lands bought and sold on commission.

CORRESPONDENCE SOLICITED
Address,
NEBRASKA SECURITY CO.,
Harrison, Nebraska.

- Hides wanted at the harness shop.
- Plug tobacco for 25 cents a pound at Turner's.
- Eighteen pounds of granulated sugar for \$1 at Turner's.
- We need some wool on subscription and need it at once.
- FOR SALE—A first-class sewing machine, new. Inquire at this office.
- Parties in need of a tanning mill will do well to call at this office.
- Highest market prices paid for grain at the Harrison Lumber Yard.
- Four Pounds of Arbuckle's coffee for 90 cents at TURNER'S.
- Seven choice cigars for 25 cents at TURNER'S.
- The arrival of a son is reported at the home of Commissioner Grove on last Friday.
- FOR SALE—The Harrison House. E. ROHWER, Prop., Harrison, Neb.
- Two applicants for certificates to teach were examined on last Saturday. It seems quite hard to get teachers to fill the schools of the county.

To Subscribers,
THE JOURNAL is now more than three years old and has never urged its subscribers to settle, owing to the hard times with which the settlers have had to contend, but now with the good crops and general prosperity of the people, it is but justice to ask those who are indebted on subscription or other accounts to call and settle. It is a small amount to each individual but in the aggregate amounts to hundreds of dollars, and as we have shared the hardships of the past with you, we desire to share the prosperity of the present with you also. If you cannot settle in full, pay a part of it as it will all help us meet our bills and running expenses. In many cases it has been simply an oversight and we hope that thus calling attention to the matter will bring a prompt response.

THE PUBLISHER.
—Apples 90c per bushel at Turner's.
—Blankets and robes at Cunningham's.
—The indications are that the snowfall this winter will equal that of a year ago.
—A new boy arrived at the home of W. C. O'Connor on last Saturday, which tipped the beam at ten pounds.
—FOR SALE—A barber outfit, complete at Harrison, Neb.
CHAS. PALMER.
—K. P. Lindsey will occupy the Warnke place south of town during the winter as he has not yet got a well on his homestead.
—LUMBER—First-class native lumber and shingles constantly on hand at my mill on East Boggy, 13 miles east of Harrison.
J. E. ARNER.

—The school board has decided to charge non-resident pupils one dollar per term or three dollars for the school year. That is a reasonable rate and no one should object to paying that sum.
—Most people have been busy of late getting up a supply of wood for winter. In most places in Nebraska fuel costs something more than the labor of getting. In this Sioux county has an advantage.
—The road up Sowbelly creek is said to be almost impassable on account of the condition of the bridges. Some repairs should be made as soon as possible as that is one of the main travelled roads into town.

—A new windmill arrived for Fred Betschen last week and will soon be at work bringing water to the surface. Improvements are going right along among the farmers, and when the farmers prosper everyone else does likewise.
—The removal of Mrs. Davis made a vacancy in the Grammarly postoffice, but it has been arranged for S. M. Thomas to take charge of it and steps are being taken to have him appointed postmaster at that place. The office is quite a convenience to the settlers of that locality.

—H. A. Priddy has purchased the blacksmith business of W. E. Moore and will conduct the business in the future. Mr. Priddy is a blacksmith of experience and will give his customers good work. It is not known what Mr. Moore will do, but he will remain here and is not apt to long remain idle.
—The indications are that as much snow will fall this winter as there did a year ago and that means good crops next year. Northwest Nebraska has passed through the hard times incident to the settlement thereof and prosperity now smiles upon those who have withstood the hardships of the past.

—There is some kicking among the farmers because they cannot find as ready a market or get as good prices for what they have to sell as they did in the old settled localities from whence they came. They must remember that this is a new country, and the land on which the produce was raised is not yet so valuable as that in the east. All such matters will adjust themselves in time.
—Messrs. Betschen, Camenzind and Livermore received a new fanning mill a few days ago and will as a consequence have clean wheat to sell and seed grain free from foul seeds which would injure the next crop. If the farmers will take care of the land when it is new it will save them a great deal of labor in future years. A farm once seeded with weeds requires much care to get rid of them.

—R. Mather, of Denison, Iowa, was here the first of the week looking after his real estate interests and made a pleasant call at this office. Mr. Mather is a member of the real estate firm of Mather & Gravelle, which has a vast amount of real estate for sale in Iowa, Kansas, Nebraska and South Dakota and is interested in the development of northwest Nebraska and will do some missionary work for this part of the state. He believes there is a bright future for Sioux county and people will do well to secure a piece of free government land before it is too late.

—The "Beautiful Snow" is with us.
—Go to Turner's for bargains in everything.

—Twenty-four bars of soap for \$1 at Turner's.

—A shingle mill is to be added to the Sioux County Lumber Co's. outfit in the near future. There is no need of shipping in anything but finish lumber for building in this locality. It is a great saving to the settlers.

—THE JOURNAL is informed that two weddings will occur in this vicinity today but the record in the cases is not yet on file, so the names of the parties are withheld. Best wishes are extended to the young people for a happy married life.

—H. A. Priddy informs us that he received word from his father-in-law a few days ago to the effect that he would be out to locate in Sioux county in the spring. The tide has set in and there will be lots of new settlers in this locality in the near future. Keep right on telling them to come.

—S. L. R. Maine was sitting at his fireside a few evenings ago when something crashed through a window. He and his family were somewhat startled and investigation disclosed the fact that a bullet had pierced the glass. As no report was heard it was surmised that it was the result of a combination of a boy and nigger-shooter.

—The article on the third page taken from the *Youth's Companion* is well worth a careful reading. It illustrates the fact that no great enterprise can be brought to success in a day or without meeting with difficulties and oftentimes ridicule. It takes time, patience and energy to accomplish anything of importance.

—It would be a good plan for the board of trustees to consider the extension of the water system. A reservoir could be built and pipes laid so as to protect the entire village in case of fire and enable people to sprinkle their lawns and gardens with but little expense and then those who use the water could pay for it and taxes would be no higher. It would certainly be a benefit to the town and might be the means of saving a good deal of property, for as it is at present should a fire break out in one of the rows of frame buildings there would be no chance of saving any of them.

—A gigantic irrigation scheme is on foot in Wyoming. A company has been organized with a large capital to open a ditch near Bessemer on the Platte and follow the divide from there to the state line between Wyoming and Nebraska. The ditch will be about 200 miles in length and will make it possible to water a vast amount of land. It will be an easy matter to continue the ditch through Sioux county right along the ridge north of Harrison and would make it so that all the land on this table could be irrigated therefrom. It matters not how much rain falls it is a good plan to have the water so it can be used if needed. The development of the ditch would greatly enhance the value of all the land in this community.

—All over the state the work of preparing for the exhibit at the world's fair is going on. It is time that Sioux county began to get in line in the matter. There is no better channel through which such work can be done than a county agricultural society. With such an organization a county fair can be held which would be a source of benefit to the people of the county in a number of ways. The exhibit for the state fair could be arranged for by the same organization at a less expense and with better results than is possible by individual efforts and the exhibit for the world's fair could be collected and put in shape under the control of an agricultural society much easier than in any other way. The officers of such an organization are held responsible for their acts and that is one of the most important points. Let us have an agricultural society by all means.

—An effort is being made to open a new road down Sowbelly. A road can be obtained with a grade of not to exceed five feet to the hundred and that is a grade up which loads can be hauled without difficulty. There is a little rock work that will have to be done, otherwise the expense will be very small. It will be necessary for a contribution to be made to defray the expense, as there is no public money to be used for such purpose. W. E. Smith is taking an active interest in the matter and will do all he can to see it put through. The road would prove a great benefit to the business interests of Harrison and the effort to get it fixed up should receive the support of everyone interested in the advancement of the town. Now is the best time of the year to get it started as the rock work can be done more cheaply during the winter months when work is slack than it can be at any other time.

—Don't forget to bring in your samples of corn, and enter the contest for the prize offered. We want the corn to show to the people who come here to seek a home. The time for entering the contest expires December 1st. Do not forget it.

PERSONAL.

W. J. A. Raun was up from Cottonwood on Tuesday.

G. Guthrie made a business trip to Crawford on Monday.

C. C. Jameson returned Saturday from his trip to Omaha.

R. Mather called on Tuesday and added his name to our list of readers.

Mrs. H. A. Cunningham has been spending some days at Crawford.

C. E. Holmes started for the eastern part of the state on business last Thursday.

Sheriff Reidy went to Hot Springs Saturday evening as a witness in the Nolan case.

Joseph Stastny called on Saturday and ordered THE JOURNAL sent to his brother in Wisconsin.

County Clerk Lindeman has so far recovered from his illness as to be able to attend to business.

James Farnam returned the first of the week from Wyoming where he had been at work for some time.

David Rands has returned from the Wyoming ranges to spend the winter and called to see us on Monday.

Charles Schilt contributed on subscription on Saturday. He says there are no sores on him as the result of the election.

Mr. and Mrs. J. E. Marsteller left last evening for Pennsylvania for a visit to the parents of the former. They will be absent about a month.

ESTRAY NOTICE.

Taken up by the undersigned on section 2, township 31, range 8, one dark dun horse, black mane and tail, about four years old, left hind foot with a white strip in forehead, branded 2 and contained something like

W. C. O'CONNOR,
Harrison, Neb.

B. E. BREWSTER, C. F. OPPEE,
President. Vice Pres.

CHAS. C. JAMESON, Cashier.
