Do not miss the ball to-night.

Hides wanted at the harness shop.

Be sure to write it 1892 after to-day.

Plug tobacco for 25 cents a pound at Turner's.

Salt \$2.65 per barrel at GRISWOLD & MARSTELLER'S.

Eighteen pounds of granulated sugar \$1.00 at Turner's.

Four pounds of Arbuckle's coffee for cents at TURNER'S.

For SALE—A first-class sewing machine, new. Inquire at this office.

Seven choice cigars for 25 cents at TURNER'S.

Bring in your oats to the Ranch Supply House. Will allow \$1.00 per bushel in trade.

Rand & Arnsburger have sold their interest in the sawmill which they have been operating on Cottonwood.

W. E. Moore and C. S. Scott have purchased the Armstrong well drill and set to be ready for business in a short time.

LUMBER.—First-class native lumber shingles constantly on hand at my place on East Hoggy, 13 miles east of Harrison. J. E. ARNER.

A social will be given under the auspices of the ladies of the M. E. church at the residence of W. B. Wright Wednesday evening, January 6, 1892. are cordially invited to attend.

Sunday was the seventh birthday of the Scott and a number of her little playmates and friends were invited to the evening at her home. It is needless to say that the little ones had a good time.

Membership tickets in the Sioux County Agricultural Society can be obtained at the office of the secretary, H. MacLachlan at the Ranch Supply House, at the cost of \$1 each. It will be a dollar well invested.

A good deal of kicking has been done of late because several hundred head of cattle came down from Wyoming the last of the week and played havoc with stacks of hay and straw belonging to the people in this vicinity.

The ball this evening at the court house hall promises to be the best of the season, and none should fail to attend. The man in charge will do all in their power to make it pleasant and those who attend will have a good time and also help the agricultural society along.

W. Herceall who has been conducting a saloon at Canton for some time has decided to go into business at Hemingway and has resigned as postmaster at Canton. S. H. Wright has been appointed to the place and will receive his commission in a few days. We are sorry to lose Mr. Herceall from Sioux County but wish him success in his new location.

A very pleasant progressive euchre party was given on Tuesday evening by Mrs. C. C. Jameson at their residence. Four tables were used and when the hour arrived to close the game it was found that Miss Ellen Satterlee had the greatest number of points at the royal table and thereby won the prize and Mrs. J. W. Robinson, having placed her seat at the lowest table was awarded the booby prize.

Lawler filled up on "tangle-foot" Christmas eve and had a little sport by making some of the citizens dance by giving a revolver as a persuader and later fired a shot through the south door of the Ranch Supply House. The bullet, passing through the glass, plowed its way through a box of dress shirts on the floor and was stopped by the boards of the shelving. It is about time that such actions were stopped. If this is a precedent community people ought to be reminded of the necessity of dancing a jig to being shot by a drunken man. To those who go unpunished has a tendency to make the perpetrators conclude they are "bad men" and the first thing they know they commit some crime which they will forever regret and the payers will have a big bill of costs to pay.

—To-morrow is "swear-off" day.

—Apples 90c per bushel at Turner's.

—Blankets and robes at Cunningham's.

—Go to Turner's for bargains in everything.

—Twenty-four bars of soap for \$1 at Turner's.

—Highest market prices paid for grain at the Harrison Lumber Yard.

—Another car load of wheat was shipped from Harrison the first of the week.

—Mrs. G. Guthrie received a handsome Estey organ as a holiday present the first of the week.

—WANTED—30,000 pounds of oats. Will give \$1.00 per hundred pounds in trade. RANCH SUPPLY HOUSE.

—FOR SALE—A harbor outfit, complete at Harrison, Neb.

CHAS PALMER.

—THE JOURNAL clubs with all the leading papers and periodicals published and will save its readers money if they will order through this office.

—The anniversary of the birth of Mrs. Glasner occurred on Christmas and she was presented with a handsome album and a cup and saucer by her friends.

—H. T. Merriam brought us a nice piece of pork last Saturday. Some people have a very happy faculty of doing the right thing at the right time and Mr. Merriam seems so gifted.

—A good many of the farmers are putting in the winter logging and will use the lumber to improve their farms. That is something the settlers in the east part of the state could not do.

—Note the report of the crop raised this year by Commissioner Grove as reported in another column. A soil that will yield like that will not long be vacant after people find out that it can be had for simply living on it.

—When sending the compliments of the season to your friends in the east do not forget to tell them that there is still room for 5,000 homesteaders in Sioux county, each of whom can get 160 acres of free government land.

—Dr. Shafter reported the arrival of a fine 10-pound girl at the home of George Olinger on Tuesday morning. Mother and daughter are doing well, but George carries his head so high that he has to stoop to get through an ordinary door.

—The death of the daughter of Mr. and Mrs. Lewis Rickard, of Bodare, the first of the week is reported. She was about thirteen years old. It is also stated that Mr. Rickard is sick, but we have been unable to learn the particulars. The sympathy of the community is extended to the stricken family.

—Word was received yesterday that the mill man had not yet completed his arrangements in regard to the machinery and that as soon as he has finished that he will come here prepared to stay and go to work on the mill. He is a man of family and will be quite an acquisition to the town. It is expected that he will be here in a few days.

—The fact that Mr. and Mrs. S. L. R. Maine and Miss Eva Conner were to leave for California the first of the week afforded an opportunity for a little surprise to be perpetrated on them. A number of their friends gathered by agreement at the home of C. C. Jameson on last Saturday evening and then Mr. and Mrs. Maine and Miss Conner were sent for and a pleasant social evening spent, at the close of which the guests departed after extending best wishes to those so soon to leave to seek a new location.

—Early action should be taken by the managers of the agricultural society in the matter of securing grounds so that a track may be fitted up. A good track will be the cause of bringing a number of horses here for training and will help the farmers like to bring their draft horses, cattle, sheep and farm products to the fair, and they also enjoy a good exhibition of speed on the track.

—A farmer called at our office on Saturday and informed us that he was mad, but not as mad as had been a few minutes previous. On inquiry we learned that the cause of his losing his temper was what THE JOURNAL has often called the attention of the village authorities to. The farmer came some miles to town and brought feed for his horses and after un hitching them and tying them to his wagon and putting the feed within their reach he went about his business. Returning after a time he found that loose cattle had caused both his horses to break loose and after which they proceeded to devour the feed intended for the horses. If the good will of the farmers and their trade is desired it will be necessary for the business men to urge the village board to take action to remedy such evils. To have halters broken and their teams deprived of their feed will not draw trade to any place. People will go further and spend their money at a place where their interests are protected and their rights respected.

All Around About.

Buy a membership ticket to the Sioux county agricultural society.

It is reported Geo. O'Kane will farm in Sioux county next year.

A. W. Mohr and family spent Sunday at F. W. Knotts.

Mr. B. Wells, of Mento, Iowa, has been the guest of D. W. Woody during the past week.

Jas. Wilson's threshing machine has been heard early and late for some time past and he thinks it is his last job.

Peter Henry is building upon his homestead until it resembles a young town.

Wm. Baumgard's two sons from Kansas, arrived home one day last week.

Miss Annie Henry who has been at the Fort for some time has been very sick, but was better at last report.

F. W. Knott is now settled on his homestead and ready to entertain his friends if they will but call that way.

Storm Prophet Hicks says we are to have an abundance of rain during the spring months, so let our farmers prepare to sow a large acreage of small grain.

Christmas has come and gone once more, and on account of the storm Christmas eve (judging by our experience) there were a good many disappointed people. But we are very glad Old Santa seldom stops for cold or storm, so the little people can always have a merry Christmas, no difference what the weather may be, if their parents are willing to make it so.

Rufus Woody came home Christmas, also Misses Lulu and Rose who have been attending the Academy at Chadron since last September. The girls are highly pleased with the school. Mr. and Mrs. Lockwood were also at her father's, so the family were all together on Christmas, excepting two sons. These family gatherings seem like a part of Christmas and happy are the families that can be so united.

Joe Konrath can travel over about as much territory in a day as any one we know of. For instance; last Saturday he took the mail to Harrison and got back to Montrose before five o'clock; then then traveled about twenty miles to get his best girl and take her to a dance, and we suppose he danced till morning, but have not heard when he took his girl home but he surely would be excusable if he took all the next day to it.

By carefully counting the storm days from the forecasts of six astronomers it gives us nearly all storm days for January, so look out for bad weather and prepare to be "at home."

The dance at Wasserburger's Saturday night was a grand success. There was a big crowd, a fine supper and the best of music. U No.

Reported From Cottonwood.

The Dove threshing machine completed its work for the season on Tuesday.

The literary society of Little Cottonwood is in a flourishing condition.

A new girl arrived at the home of John Speas on the 20th inst., which tipped the beam at 10 pounds.

Commissioner Grove finished his threshing a few days ago and is a fair sample of this locality as a grain growing country. His oats yielded 55 bushels per acre and were of excellent quality. He sowed 14 bushels of Scotch life wheat on 14 acres of land and threshed therefrom 509 bushels, machine measure, and the quality was good. That is nearly 36 1/2 bushels per acre.

—Take the Fremont, Elkhorn & Missouri Valley and Sioux City & Pacific railroad for Fremont, Lincoln, Hastings, Superior, Omaha, Missouri Valley, Sioux City, St. Paul, Duluth and points north, Des Moines, Dixon, Chicago, Milwaukee, and the lumber regions in Wisconsin. Close connections are made at Chicago for Toledo, Buffalo, Albany, Philadelphia, New York and all points in the east. Palace sleeping cars on all through trains.

—Christmas was celebrated in Harrison by a supper and tree at the church on Thursday evening and notwithstanding the inclemency of the weather a very good attendance was had. Many families had private trees at their homes and a number of families clubbed together and loaded two trees with presents at Andrews' hall and on Friday evening the distribution of presents among the families and friends and a short program enabled them to pass a very pleasant evening.

SULLIVAN & CONLEY, Lawyers.
