you got a membership ticket
for the cultural society? If not, why
not? About time you did, for the
year is approaching when action
will be taken and the more members
the better it will be and the
more the fair can be made. Better get
it now.

Correspondence has been received
from the east as to the advisa-
bility of establishing a windmill factory
in the county. The time is coming when
any windmills will be erected
and a factory at home
is a nice thing, and would likely
be a good investment.

Bradley was in town Monday
and said that the coming season
could consist of 30 acres of corn
and small grain. The crop of
Sioux county will open the eyes
of people for the prospects are ex-
tremely large and the acreage
much greater than ever before.

P. B. Bigelow, who lives four
miles in Sioux county,
his office Wednesday. He is
in sugar beets. Last year he
had an acre for stock which
yielded ten tons. Beets sent by
analysis showed over 21 per cent
of a very high purity co-efficient
of sugar.

ation as to the best method
of grain is discussed a great
deal by the farmers and the prevail-
ing opinion appears to be in favor of
wheat. That has been found by
experience in the east and as a rule
the east is good in the
wheat crop. The only drawback is that the
money that the farmers
put into a machine of that

Bigelow and Miss Emma
were married at Chadron last
week. The ceremony was a confirmed
one and when he
started for Chadron the first of
the season supposed that his mis-
take would be to commit matrimony,
and he was on Thursday when he re-
turned with his bride, but all
the while his lady a long
married life.

Regland and A. L. Ring
went to Antelope on Tuesday.
They have at least 75 acres of crop
land the latter about 60 acres.
That Gerhard Reinders, of
Antelope, has a crop of 120 acres.
It shows that there is no lack
of crop land among the farmers. When
such crop they expect to put
a new answer usually is "all I can
do when they give the figures."
They will show up a crop report
which will be highly satisfactory.

coming! Who? Why, the
land seekers. Five or
six come during the past
week over the country and, while
at them, we are informed
that they are well pleased with
the country. Bartlett is daily expect-
ing a law who was here last
week. Every one we talk with
whom they expect here in
the future.

They are finding out
that a quarter section
of land by homesteading it and
paying high rent in the
future on tilling your friends
and inviting them to
live among us.

Otto Tietze is carrying his arm in a
sling on account of spraining his shoulder
handling logs.

Geo. Olinger has sold his farm north-
west of town to F. L. Simons. He ex-
pects to move on the Guthrie farm in
the near future.

Ferd Hittner brought two loads of
corn to town on Saturday for which he
received 40 cents a bushel. He says he
has quite an amount of corn for market,
besides all he needs for his stock.

Mr. and Mrs. J. C. Eberspecher, of
Bodare, have lost their two oldest chil-
dren within the past week, the cause be-
ing nasal diphtheria. The sympathy of
all is extended to them in their double
affliction.

A letter was received by H. A. Cun-
ningham the first of the week from Dr.
Bridgman stating that he expected to
drive through from Rushville and would
arrive sometime this week providing the
weather was good. So he may be here
any day ready to take up his residence
with us.

Our farmers should get ready to
plant fruit and ornamental trees as soon
as circumstances will admit. Small
fruits of all kinds have done exceedingly
well whenever tried and by planting
them the farmers can soon have delicia-
cies for the table with no outlay of cash
except for the plants. It will prove a
good investment.

Papers were signed in the city yester-
day by which E. D. Satterlee, of Har-
rison, leases the Hoyt hotel for a term
of five years. Mr. Satterlee is an old
hotel man and Mrs. Satterlee is an ac-
complished and successful landlady.
The hotel will be furnished throughout
with new furniture and opened about
April 1st.—Chadron Journal.

In conversation with Wm. Glaze
last Saturday he informed us that he
would put in about 60 acres of small
grain the coming season. He also stated
that there would be no cultivated land
lay idle in Cottonwood precinct this
season and there will be a good deal of
breaking done in that locality. That
kind of a report means prosperity.

The farmers are getting anxious for
spring to open so that they can get to
putting in their crops. Early sowing
and early planting have been found to be
the best here, as well as in the east and
the indications are that a much better
grade of farming will be done in future
than has been the rule in the past. When
people get to farming here as they do in
the older settled sections they will get
much better returns.

Last Monday some one either acci-
dentally or maliciously shot a cow be-
longing to Geo. H. Turner in the jaw.
The wounded animal has a badly swelled
jaw and may die. Mr. Turner believes
he knows who committed the act and
feels pretty warm under the collar about
it. If it was done maliciously the guilty
party ought to be punished, and in any
event no one should handle firearms so
carelessly about the town. The shot
this time struck a cow but the next time
a child may be the victim.

From the reports we gathered it is
not likely that any cultivated land will
lay idle in Sioux county unless it is little
patches that are so far from any one as
to require too much travel. Last year
was about the first year any real farm-
ing was done in Sioux county and but
little good farming was done then on ac-
count of the lack of feed for teams, but
the result of last year was such that the
farmers are going at it in earnest the
coming season and not only will there be
a large acreage sown, but a large amount
of breaking will be done for the seasons
to follow.

Last week H. A. Cunningham re-
ceived a telegram informing him that
his father had been killed by the cars at
his home in Wisconsin. A letter came
later which stated that Mr. Cunningham
was engaged in unloading a car of wire
and an extra train came along which
was not expected. The whistle of the
engine frightened his team and it started
to run and dragged him on the track on
which the train was approaching and
both horses and driver were killed. The
report states that the train was running
at a rapid rate and was not to stop,
there was no chance of getting out of the
way.

The Nebraska world's fair commis-
sion has written to the county officials
regarding a case for exhibits at the
world's fair. The case costs \$50 and has
been adopted by every county in the
state except Sioux. The matter came
up at the last meeting of the board, but
there are no county funds to be appro-
priated for any such purpose, and the
board could do nothing, it has been
suggested that contributions be made to
raise the amount. It would hardly do
for Sioux county to be the only one in
the state which did not have such a case
of exhibits and it is hoped that the ener-
getic people will take hold of the matter
and see that the necessary amount is
raised. It will only take a small amount
from each one and no one will miss the
small amount donated.

All Around About.

Mrs. Wm. Miller made her first trip to
Gilchrist last Friday.

Ferdinand Hittner and hand hauled
two loads of corn to town on Saturday.
C. H. Andrews and family visited with
Mrs. Andrew's parents last Sunday.

D. W. Woody and family visited at A.
W. Mohr's last Sunday.

Mr. Baumgard's oldest son has hired
out to Mr. F. Nutto for the coming sea-
son.

Jas. Wilson is hard at work digging
post holes. He is building a pasture
fence.

County Supt. Southworth made a busi-
ness trip to Squaw creek last Thursday
and his family visited at F. W. Knott's.

Mr. J. W. Earnest has purchased an-
other lot of Aberdeen-Angus cattle and
drove them through Gilchrist last week.
After careful investigation he is con-
vinced that it is the best breed of cattle.

Mr. M. Blewett is expected soon to
live on and improve his claim. Some
people are ready to believe that he may
bring a cook with him.

Mr. Mitchell of Bodare was a Gilchrist
caller Monday.

Earnest Uplinger and Rob. Miller were
grinding corn at the Gilchrist feed mill
Friday.

Miss Lulu Woody has been unable to
attend school part of the time during the
past two weeks on account of the grip
and weak eyes. She reports many of
the students at Chadron afflicted with
the grip.

J. Thoms is very much pleased over
the arrival, last Saturday, of a nephew
of his from the old country. He stopped
in New York four months then came on
here to make his future home.

Charley Redd thought to treat his
mother and sister to a sleighride last
Wednesday and also to introduce them
to the P. O., but his sled broke down,
when about half a mile from Mr. Wohl-
huter's, and they had the pleasure of
walking back. He made the trip suc-
cessfully, however, last Sunday.

We are informed that Mrs. A. W.
Mohr has found a successful way to stop
the growth of puppies. They had a
very pretty little puppy and she thought
it would be so nice to always keep it
small as a pet for her little girl. She
gave it some whisky and it proved a
success, for it will grow no more.

As to the weather this winter, so far
we have nothing to complain of in Sioux
county. We have had some cold
weather, to be sure, but not to compare
with many other places. Eastern Kan-
sas has had the coldest weather ever
known in the state. The peach-buds are
all considered killed and many of the
trees; vegetables and fruits frozen in the
cellars to a great extent, and Iowa has
lost more house-plants than ever before
known, while ours live and blossom in a
log house and without the aid of a base-
burner, too. Sioux county has its ad-
vantages as well as some disadvantages,
but we are encouraged as to its future.

Married.

ANDERSON—WALKER.—At the residence
of the bride's parents, on Monday, Feb-
ruary 15, 1892, by E. J. Wilcox, jus-
tice of the peace, Mr. John A. Anderson
and Miss Emma Walker, both of Sioux
county, Neb.

The contracting parties are both well
known in this community and all wish
them prosperity and happiness in their
journey through life.

Some trouble is reported from school
districts in regard to the quality of
teachers employed and some even blame
the superintendent for issuing certificates
to some applicants. This is not right
for more than one reason. In the first
place there is a demand for more teach-
ers than can be supplied under the cir-
cumstances. The school districts are to
a great extent to blame for their attempt
to get teachers at too low a price. There
are two teachers in Sioux county who
hold first grade certificates. One of
them is teaching for \$30 per month and
the other for \$35. At such figures it is
not to be expected that teachers will
come to the county unless they have
some other object than following teach-
ing. This matter should have the con-
sideration of the patrons of the schools,
and at the annual meeting provision
should be made to pay good wages, even
if a less number of months of school be
provided. With such provision there
will be no trouble to get good teachers
and the children will derive more benefit
than to go to school the year around to
an inferior teacher.
