-Tarpaulins at the harness shop.
-I carry a full line of farm machinery.
G. H. TURNER.

-The court room has been provided
with three large lamps so that in future
it will not be necessary to borrow lamps
whenever it is desired to use the room in
the evening.

-The reports are that in the vicinity
of Kansas City the wheat crop will be a
total failure, the continued wet weather
having rotted the seed in the ground. It
appears to be possible to have too much
of a good thing in that country.

-The F. E. & M. V. railroad has made
a rate of one fare for the round trip to
the republican national convention
which meets at Minneapolis June 7, 1892.
Tickets will be on sale June 1 to 5, good
to return until June 25, but not good for
return prior to June 10. For further in-
formation apply to L. A. Rodwell, agent,
Harrison, Neb.

-The reports from all over the county
are very encouraging. Not only is a
greatly increased acreage being put in,
but a great deal better farming is being
done. The farmers will find it will pay
just as well to do good farming in a new
country as it does in the east. The man
who works his farm intelligently and
thoroughly is almost certain to succeed.

-THE JOURNAL would like to receive
crop reports from every section of the
county, at short intervals from now un-
til the grain is ready for market. When
in town call and tell how the crops are
doing and if you live so far away that
you do business elsewhere, drop a postal
card to THE JOURNAL with the desired in-
formation written thereon. People in
the east want to get the facts as to crops
and such reports will enable them to get
them.

-It would be a pretty good plan for
the proper parties to look after the band
instruments. There was a full set of in-
struments and from what we can learn
they have become pretty well scattered.
One is at Crawford, some at Montrose
and others in the possession of other par-
ties. They ought to be got together and
taken care of. THE JOURNAL does not
know whose business it is to look after
the instruments, but some one ought to
be responsible for them.

-Our farmers should profit by the ex-
perience of this season and in future be
prepared to take advantage of any open
weather after the first of January. If
land is plowed in the fall it is always
ready to receive the seed earlier than any
other land and the sooner the wheat is
in the ground after the beginning of the
year the better. It is also hoped that
the farmers will sow a good acreage of
fall wheat in future, then if the spring is
late there is not so much work to rush
them, and the quantity and quality of
fall wheat is above that of spring sowing.

-Prof. E. H. Barbour, of the state
university left for home Saturday evening.
He secured five specimens of what
is locally called "devil's corkscrews" and
was highly pleased with his work while
here. Last year he obtained a specimen
but so far he has been unable to deter-
mine just what it is and he hopes with
what he has now secured he will gain
the desired information. He had a pho-
tographic outfit with him and made a
number of negatives. Prof. Barbour is
highly pleased with Sioux county and
says there is no question as to its rapid
development in the near future. He will
return in about a month and is contem-
plating the purchase of some land here
as an investment. All people have to do
is to see the land and learn of the oppor-
tunities offered by Sioux county to be
convinced that it is a good place to lo-
cate and that it will be but a short time
until property will become valuable.
Prof. Barbour was so well pleased with
the prospects of the county that he will
quite likely be the means of getting new
settlers to come here.

-The weather during the past week
has been rather unusual. On Friday
night it began to snow and kept it up
until Monday morning. The tempera-
ture was such that it kept melting as it
fell, but notwithstanding that the snow
accumulated to the depth of several
inches. The storm appears to have been
quite general, being rain in the east and
snow extended west, the reports from
Buffalo, Wyo., being that it is impos-
sible to get mail or freight from Gillette
and unless the roads dry up soon people
will be reduced to the bare necessities of
life. In the east it is still worse. Crops
in many localities are reported as ruined,
buildings and streets flooded, railroads
washed out and business almost at a
standstill. Corn has already taken a rise
and will likely go still higher. The
wheat in many parts of the east will be
almost, if not quite a total failure. Tak-
ing it altogether the people of northwest
Nebraska are in much better shape than
are many of their eastern neighbors. The
kind of weather we have had will delay
work to some extent, but it makes a big
crop an assured fact.

the first time in a long while, shaking
hands with his friends.

town on Tuesday on business and made a
pleasant call at this office.

from his eastern trip, having been to
New York, Washington and other lead-
ing cities.

Alex. Lowry, arrived from Iowa last
week. Should he like the country he
will locate.

last Thursday visiting his brother-in-law,

at this office.

not be long until he will be here with his
family.

-The latest reports are that 600 fam-
ilies have been driven from their homes
in the city of Lincoln by the water re-
sulting from the heavy rains which have
fallen of late. The snow on last Satur-
day extended as far southeast as Grand
Island and from there east rain fell in
large quantities. No farm work can be
done and all creeks and rivers are very
high and still rising.

-On last Sunday G. H. Turner started
for his farm in Antelope precinct intend-
ing to go by the Squaw creek road.
After passing A. R. Kennedy's place the
snow covered ground and the falling
snow got him muddled and he could not
tell where he was. He finally brought
up again at Mr. Kennedy's and made
another start. Again he got so he could
not tell where he was going and gave up
the attempt.

-A number of thefts are reported of
late. B. L. Smuck had a pair of hair
clippers taken, J. W. Scott lost about
one hundred rods of wire, which was
taken off the posts on his claim, and it
is reported that parties have lost grain
from their granaries. The perpetrators
of such sneaking acts will get into
trouble if they are not careful. As a
rule this community has been pretty free
from petty thieving but it appears that
some people are not as honest as they
might be.
