I carry a full line of farm machinery. G. H. TURNER.

The business men find it a little dull of late, but they know the large crops being looked after means prosperity for all when it matures.

Until Thursday, June 9th, I will pay 55 cents per bushels for clean wheat, in large or small lots. Now is the time to sell what you have left from seeding. G. GUTHRIE.

Talk about crop failures, there has never been a crop failure on the table lands of Sioux county. Whenever a piece of ground of a size worthy of the name of field has been properly put in and cared for it has yielded a crop, except in a few instances where hail struck it, and a locality which will yield a crop in such years as 1890 is about as sure a crop country as one can find.

Tuesday afternoon Christ Christensen, who is section foreman near Orin Junction, Wyo., started out to work. He had his hand-car loaded with ties and as he was going through a cut a special train dashed into sight coming around a curve. He had just time to get out of the way and the handcar was left to the mercy of the approaching engine. He was fortunate to escape without injury.

Dr. Shafer met with an accident last week while coming from his farm to town. One of his horses got frightened at some rubbish in the road and jumped and got the lines tangled in the terret rings so that he could not hold the team and the result was that the tongue was broken and some other damage done to the vehicle. The doctor jumped out and his nose came in contact with the ground, but otherwise he escaped un-

RAINFALL IN BOX BUTTE COUNTY.

Figures That Can Not be Questioned.

Alliance (Neb.) Pulse.

Many people to the east believe western Nebraska to be a dry country, because the annual rainfall is less than thirty inches. They do not consider that nearly one-half of the recorded "rainfall" of the northern states east of the Mississippi is snow, and the rain there falls after the growing season is over. The precipitation of the Pan Handle is nearly all rain, and the greater part of it occurs during the growing season.

Many eastern people will be slow to believe that during the months of April, May and June (the principal growing months) there is as much rainfall in western Nebraska as in many of the states east of the Missouri river. The government signal service reports furnish some conclusive evidence on that point.

We give below a table compiled from the monthly weather reviews of the general weather service of the United States for the months of April, May and June, 1891. The table shows the rainfall, in inches and hundredths, at Alliance, and at stations selected at random from the leading agricultural states east of the Missouri and north of the Ohio rivers. The figures can be easily verified by comparison with the original government reports.

Station	April	May	June
Alliance, Nebraska	3.47	2.74	2.27
Ann Arbor, Michigan	2.79	2.90	1.92
Oshkosh, Wisconsin	3.40	4.8	1.56
Fond du Lac, Wis.	2.73	.41	1.44
Ames, Iowa	4.02	2.2	1.50
Iowa City, Iowa	2.80	4.46	1.11
Waverly, Ohio	4.80	1.71	1.13
Athens, Ohio	2.22	2.27	1.21
Fairhill, Minnesota	5.96	1.50	1.67
Leech Lake, Minn.	3.77	1.13	.94
Concordia, Kansas	3.91	4.00	1.36
Central, Illinois	2.22	2.99	1.88
Princeton, Indiana	4.12	2.10	1.15
Aberdeen, S. Dakota	2.76	1.93	2.50

It will be seen from the table that out of the thirteen stations in nine of the leading states of the Mississippi valley only two got more rain during the growing months than did Alliance. Many got much less and one point, Fond du Lac, received less than one-half as much rainfall as did Box Butte county. These statistics from a source that cannot be questioned should convince the most skeptical that Box Butte county is any thing but a dry country.

Call For People's Independent Convention.

The People's Independent Party of Sioux county will meet in delegate convention at the court house in Harrison, Neb., Saturday, June 23, 1892, at one o'clock, p. m., to transact the following business: To select a County Central Committee. To nominate a candidate for county attorney and to transact such other business as may properly come before it.

Precincts are entitled to representation as follows: one delegate at large and one delegate for each ten votes or major fraction thereof based on the vote cast for Hon. J. W. Edgerton, for supreme judge in 1891: Address—2, Antelope—2, Bowen—4, Bolare—2, Cottonwood—4, Cook 1, Five Points—3, Hat Creek—2, Montrose—4, Running Water—1, Snake Creek—2, Sheep Creek—2, Warbonnet—4, White River—4. Total 28. It is recommended that precinct primaries be held on Thursday, June 23, 1892, at 7 o'clock, p. m. Let all who have the true interest of the people at heart see that the primaries are well attended. Farmers, it is true the old yoke was laid aside and you stood in independent shoes. WM. J. A. RAUM, Chairman.

M. J. WEBER, Secretary.

Yesterday J. M. Daniels brought us a bunch of new onions and a sack of potatoes, of the vintage of 1892. Who, in this latitude, can make a better showing than new potatoes on the first day of June?

A number of inquiries have been made of late about a 4th of July celebration. In speaking of the matter with the business men a difference of opinion appears to exist, but the idea of having a celebration does not seem to be entertained favorably by many. It would be well for those interested to discuss the matter and decide one way or the other.
