Found the Charges True.

WASHINGTON, D. C., Aug. 1.—The names of the members of congress referred to by Watson of Georgia in his pamphlet charging them with drunkenness have not been disclosed by him.

A large number of other members of the house were also called and a number of them testified to having seen members in the house intoxicated.

Representative Sewall of New York testified that he was a contestee in the Noyes-Rockwell contested election case, decided by the house some time ago.

Representative Turner of Florida testified that in one of the night sessions he had seen a member whom he thought was drunk.

Mr. Oates of Alabama was the next witness. During his testimony it was developed that Representative Cobb of Alabama was the person who had made the speech in the contested election case and who was the person charged with intoxication by Representative Watson.

Members of the advisory committee deny that there is any truth in the statement that Chauncey Depew has gone to Scotland with a proposition to Mr. Carnegie from the locked-out men.

A number of the poorer class of workmen, on whom notices of eviction were served moved into houses provided by the advisory committee.

Alice Mitchell will be taken probably to the insane asylum at Bolivar, without her friends prefer her being taken to Nashville, in which case they would have to pay for her treatment there.

The effect of the verdict on Lillie Johnson, who stands jointly indicted with Alice Mitchell, will doubtless be to dismiss all further proceedings against her.

Pointed Accusations.

WASHINGTON, July 30.—At the opening of the session of the house yesterday Whieeler of Alabama took Watson of Georgia to task for stating in a campaign pamphlet that drunken members reel through the aisles and drunken members speak on grave issues.

Amid many interruptions Watson continued. He said the only charge at which the democrats took offense was that members got drunk at the bar which the house permitted to be run in the basement of the capitol.

"This congress," said Watson in conclusion, "can do what it likes about that paragraph, but I stand by it as the exact truth and defy you to contradict it."

The incident created much excitement but the members contented themselves with hissing Watson.

Finally Boatner introduced a resolution for the appointment of a committee to investigate and report on Watson's charges.

Voted by the President.

WASHINGTON, July 30.—The McGarraban land claim bill was voted by the president. He bases his objection to the bill on the ground that it is so framed as to give full protection to the New India Mining company, to the full extent of its largest claim, while throwing upon the United States the responsibility the company should bear if the title of McGarraban is established.

A DETROIT MIRACLE.

A GREAT TRIUMPH FOR CANADIAN MEDICAL SCIENCE.

Particulars of One of the Most Remarkable Cures on Record Described by the Detroit News. A Story Worth a Careful Perusal.

The following paragraph, which appeared in the News a short time ago, furnished the basis of this information—a case that was so wonderfully remarkable that it demanded further explanation.

C. B. Northrop, for twenty-eight years one of the best known merchants on Woodward avenue, who was supposed to be dying last spring of locomotor ataxia, or creeping paralysis, has secured a new lease of life and returned to work at his store.

Since that time Mr. Northrop has steadily improved not only in looks but in condition, till he has regained his old-time strength.

It has been hinted to the writer of this article, who was acquainted with Mr. Northrop, that this miraculous change had been wrought by a very simple remedy called Dr. Williams' Pink Pills for Pale People.

Northrop fully verified the statement, and not only so but he had taken pains to inform anyone who was suffering in a similar manner when he heard of any such case.

Northrop was cured in similar circumstances by Dr. Williams' Pink Pills for Pale People. The person cured at Lockport had obtained his information respecting Dr. Williams' Pink Pills from an article published in the Hamilton, Ont., Times.

Northrop came into possession of the information that led to his equally marvelous recovery. One could scarcely conceive a case more hopeless than that of Mr. Northrop.

When flies sting sharply, and ants may be seen making haste with their tiny burdens, when the donkeys bray unceasingly, and the cows cluster in corners of the fields before milking time, when the pigs pick up straws and carry them about with lively interest, as if they had some business with them, or wished to learn if straws really do show the way the wind blows; when the dog is heavy with sleep, and the cat seems possessed to wash her face; when all or any of these signs are seen they are not in vain, for it is sure not to be a dry time and rain is on the way.
